

FOURTH INTERNATIONAL CONGRESS OF HUMAN GENETICS

Paris, September 6-11, 1971

SCIENTIFIC PROGRAM

1. Symposia

The morning sessions will be devoted to thirteen symposia. Each symposium will be headed by a chairman and will include three invited speakers. Ample time will be reserved for general discussion. The topics of the symposia and the speakers have been selected with the aim of covering areas of research which have yielded outstanding discoveries in recent years.

Provisional Program

A - POPULATION GENETICS I	F - MENTAL DEFICIENCY	J - CELL GENETICS
<i>J. V. Neel</i>	<i>G. A. Jervis</i>	<i>G. Pontecorvo</i>
L. L. Cavalli-Sforza	—	—
R. L. Kirk	—	—
J. W. Schull	—	—
B - POPULATION GENETICS II		
<i>N. E. Morton</i>	G - CYTOGENETICS I	K - IMMUNOGENETICS
G. Malecot	<i>Ch. E. Ford</i>	<i>R. R. Race</i>
J. F. Crow	G. E. Moore	J. Dausset
—	D. G. Hardnen	<i>Ch. Salmon</i>
C - RADIATION GENETICS	B. Pedersen	—
<i>A. C. Stevenson</i>		
A. D. Bates	H - CYTOGENETICS II	L - GENETICS OF HUMAN ENZYMES AND PROTEINS
A. G. Searle	<i>J. L. German</i>	<i>H. Harris</i>
H. B. Newcombe	P. A. Jacobs	—
D - CLINICAL GENETICS	M. A. Ferguson-Smith	—
<i>A. McKusick</i>	A.K. Tarkowski	—
V. V. Lenz		
C. O. Carter		
—		
E - PHARMACOGENETICS	I - CHROMOSOME MAPPING	M - GENETICS, PAST, PRESENT, AND FUTURE
<i>A. G. Motulsky</i>	<i>J. H. Renwick</i>	<i>L. Gedda</i>
E. S. Vesell	L. R. Weitkamp	J. Lejeune
R. A. O'Reilly	E. B. Robson	C. F. Mayer
—	M. Siniscalco	—
