

Letter from the Editors

We proudly present the first issue of *Itinerario* published by Cambridge University Press. The issue is dedicated to Indonesian economic decolonisation and we are grateful to Thomas Lindblad to take up the responsibility as guest editor for this issue. You will find a proper introduction by him on the next page.

Attentive readers of our last issue will have noticed that *Itinerario* 2009/3 was decorated with a colour print on page twelve. This was a farewell gift from our former printer (*Nautilus* in Leiden) which was greatly appreciated by all of us.

Itinerario announced its Cambridge debut at the recent FEEGI (Forum on European Expansion and Global Interaction) conference in Durham, NC. Many thanks to our FEEGI supporters and to Cambridge University Press for providing great supporting materials.
