

CONTENTS

EAAP Annual Meeting 2007, Workshop "Feed for Pig Health" EU project

Lallès, J. P., Bosi, P., Janczyk, P., Koopmans, S. J. and Torrallardona, D.

Impact of bioactive substances on the gastrointestinal tract and performance of weaned piglets: a review 1625

Gallois, M., Rothkötter, H. J., Bailey, M., Stokes, C. R. and Oswald, I. P.

Natural alternatives to in-feed antibiotics in pig production: can immunomodulators play a role? 1644

Breeding and genetics

Sairanen, J., Nivola, K., Katila, T., Virtala, A.-M. and Ojala, M.

Effects of inbreeding and other genetic components on equine fertility 1662

Mulder, H. A., Hill, W. G., Vereijken, A. and Veerkamp, R. F.

Estimation of genetic variation in residual variance in female and male broiler chickens 1673

Foury, A., Tribout, T., Bazin, C., Billon, Y., Bouffaud, M., Gogué, J. M., Bidanel, J. P. and Mormède, P.

Estimation of genetic trends from 1977 to 2000 for stress-responsive systems in French Large White and Landrace pig populations using frozen semen 1681

Moore, R. C., Boulton, K. and Bishop, S. C.

Associations of PrP genotype with lamb production traits in three commercial breeds of British lowland sheep 1688

Nutrition

Urbaityte, R., Mosenthin, R., Eklund, M., Piepho, H.-P. and Rademacher, M.

Determination of standardized ileal crude protein and amino acid digestibilities in protein supplements for piglets 1696

Boudon, A., Peyraud, J.-L., Faverdin, P., Delagarde, R., Delaby, L. and Chaves, A. V.

Effect of rumen fill on intake of fresh perennial ryegrass in young and mature dairy cows grazing or zero-grazing fresh perennial ryegrass 1706

Dewhurst, R. J., Davies, D. W. R. and Fisher, W. J.

Effects of silage digestibility on intake and body reserves of dry cows and performance in the first part of the next lactation 1721

Bergero, D., Préfontaine, C., Miraglia, N. and Peiretti, P. G.

A comparison between the 2N and 4N HCl acid-insoluble ash methods for digestibility trials in horses 1728

Physiology and functional biology of systems

Truchet, S. and Ollivier-Bousquet, M.

Mammary gland secretion: hormonal coordination of endocytosis and exocytosis 1733

Huang, W., Mikhail, D., Bindrim, A. C. and Khatib, H.

Interactions of the bovine placental lactogen and prolactin receptor genes are associated with fertility traits in cattle 1743

Behaviour, welfare and health

Telezhenko, E.

Measurement of spatial gait parameters from footprints of dairy cows 1746

Product quality, human health and well-being

Kliem, K. E., Aikman, P. C., Humphries, D. J., Morgan, R., Shingfield, K. J. and Givens, D. I.

Effect of replacing calcium salts of palm oil distillate with extruded linseeds on milk fatty acid composition in Jersey and Holstein cows 1754

Linares, M. B. and Vergara, H.

Light lamb meat quality packed under modified atmospheres: effect of stunning systems (electrically v. gas) 1763

Editor-in-chief

P.C. Calder, University of Southampton, UK

British Journal of Nutrition is a leading international peer-reviewed journal covering research on human and clinical nutrition, animal nutrition and basic science as applied to nutrition. The journal recognises the multidisciplinary nature of nutritional science and includes material from all of the specialities involved in nutrition research, including molecular and cell biology and the emerging area of nutritional genomics.

Editor-in-Chief

D. Marlin, University of Bristol, UK

Comparative Exercise Physiology is the only journal specifically dealing with the latest research in comparative exercise physiology across all animal species, including humans. It offers an understanding of the physiological, nutritional and biochemical parameters that determine levels of performance and athletic achievement, through both primary and review material. The core subjects include: exercise physiology, biomechanics, gait, nutrition and biochemistry, injury and rehabilitation, psychology and behaviour, and breeding and genetics.
