Publisher: Cambridge University Press

Special sales and supplements:

This Journal accepts relevant advertisements and inserts. We also provide bulk reprints of suitable papers to meet teaching or promotional requirements. The journal also publishes supplements on behalf of academic and corporate collaborators. Please contact Sarah Maddox at the Cambridge address for further details. E-mail: special_sales@cambridge.org

Subscription information:

British Journal of Nutrition is an international journal published by Cambridge University Press on behalf of The Nutrition Society. The twelve issues starting January 2017 comprise Volume 117, the twelve issues starting July 2017 comprise Volume 118.

Annual subscription rates:

Volumes 117/118 (24 issues):
Internet/print package £1547/\$3016/€2478
Internet only: £1075/\$2096/€1717

Any **supplements** to this journal published in the course of the annual volume are normally supplied to subscribers at no extra charge.

Back volumes are available. Please contact Cambridge University Press for further information.

Claims for non-receipt of journal issues will be considered on their merit and only if the claim is received within six months of publication. Replacement copies supplied after this date will be chargeable.

US POSTMASTERS: please send address corrections to *British Journal of Nutrition*, Cambridge University Press, 1 Liberty Plaza, Floor 20, New York, NY 10006, USA.

Directions to Contributors are available from the Society at the address below or can be found on the Society's website at <http://www.nutrition society.org>.

Offprints: The author (or main author) of an accepted paper will receive a copy of the PDF file of their article. There will be an option to purchase paper offprints, these should be ordered at proof stage. No page charges are levied by this journal.

Copyright: As of 1 July 2000 the copyright of all articles submitted to *British Journal of Nutrition* are retained by the authors or their institutions. For articles prior to this date permission for reproduction of any part of the journal (text, figures, tables or other matter) in any form (on paper, microfiche or electronically) should be sought directly from the Society, at: The Publications Office, The Nutrition Society, 10 Cambridge Court, 210 Shepherds Bush Road, Hammersmith, London W6 7NJ, UK.

This journal is printed on acid-free paper from renewable sources. Printed in the UK by Bell & Bain Ltd., Glasgow.

This journal issue has been printed on FSC-certified paper and cover board. FSC is an independent, non-governmental, not-for-profit organization established to promote the responsible management of the world's forests. Please see www.fsc.org for information.

British Journal of Nutrition is covered in Current Contents®/Agriculture, Biology & Environmental Sciences, SciSearch®, Research Alert®, Current Contents®/Life Sciences, Index Medicus® (MEDLINE®), AGRICOLA®, CAB Abstracts™, Global Health, BIOSIS® Database, EMBASE/Excerpta Medica and Elsevier BIOBASE/Current Awareness in Biological Sciences, CINAHL, and Chemical Abstracts Service.

Molecular Nutrition

Collagen peptide ingestion alters lipid metabolism-related gene expression and the unfolded protein response in mouse liver
C. Tometsuka, Y-i Koyama, T. Ishijima, T. Toyoda, M. Teranishi, K. Takehana, K. Abe & Y. Nakai 1-11

Supplementing the maternal diet of rats with butyrate enhances mitochondrial biogenesis in the skeletal muscles of weaned offspring
Y. Huang, S. Gao, G. Jun, R. Zhao & X. Yang 12-20

Potential involvement of dietary advanced glycation end products in impairment of skeletal muscle growth and muscle contractile function in mice
T. Egawa, S. Tsuda, A. Goto, Y. Ohno, S. Yokoyama, K. Goto & T. Hayashi 21-29

Metabolism and Metabolic Studies

Requirements of *n*-3 very long-chain PUFA in Atlantic salmon (*Salmo salar* L): effects of different dietary levels of EPA and DHA on fish performance and tissue composition and integrity
M. Bou, G. M. Berge, G. Baeverfjord, T. Sigholt, T.-K. Østbye, O. H. Romarheim, B. Hatlen, R. Leeuwis, C. Venegas & B. Ruyter 30-47

Short-term, high-fat overfeeding impairs glycaemic control but does not alter gut hormone responses to a mixed meal tolerance test in healthy, normal-weight individuals
S. A. Parry, J. R. Smith, T. R. Corbett, R. M. Woods & C. J. Hulston 48-55

Effect of dietary cholesterol and plant sterol consumption on plasma lipid responsiveness and cholesterol trafficking in healthy individuals
P. A. S. Alphonse, V. Ramprasath & P. J. H. Jones 56-66

Nutritional Immunology

Vitamin A deficiency suppresses fish immune function with differences in different intestinal segments: the role of transcriptional factor *NF-κB* and *p38 mitogen-activated protein kinase* signalling pathways
L. Zhang, L. Feng, W.-D. Jiang, Y. Liu, P. Wu, S.-Y. Kuang, L. Tang, W.-N. Tang, Y.-A. Zhang & X.-Q. Zhou 67-82

Maternal short-chain fructo-oligosaccharide supplementation increases intestinal cytokine secretion, goblet cell number, butyrate concentration and *Lawsonia intracellularis* humoral vaccine response in weaned pigs
C. L. Bourgot, L. L. Normand, M. Formal, F. Respondek, S. Blat, E. Apper, S. Ferret-Bernard & I. L. Huërou-Luron 83-92

Microbiology

Can probiotics modulate human disease by impacting intestinal barrier function?
P. A. Bron, M. Kleerebezem, R.-J. Brummer, P. D. Cani, A. Mercenier, T. T. MacDonald, C. L. Garcia-Ródenas & J. M. Wells 93-107

Human and Clinical Nutrition

Serum and macular response to carotenoid-enriched egg supplementation in human subjects: the Egg Xanthophyll Intervention clinical Trial (EXIT)
D. Kelly, J. M. Nolan, A. N. Howard, J. Stack, K. O. Akuffo, R. Moran, D. I. Thurnham, J. Dennison, K. A. Meagher & S. Beatty 108-123

Folate and vitamin B₁₂ concentrations are associated with plasma DHA and EPA fatty acids in European adolescents: the Healthy Lifestyle in Europe by Nutrition in Adolescence (HELENA) study
I. Iglesia, I. Huybrechts, M. González-Gross, T. Mouratidou, J. Santabábara, V. Chajés, E. M. González-Gil, J. Y. Park, S. Bel-Serrat, M. Cuenca-García, M. Castillo, M. Kersting, K. Widhalm, S. De Henauw, M. Sjöström, F. Gottrand, D. Molnár, Y. Manios, A. Kafatos, M. Ferrari, P. Stehle, A. Marcos, F. J. Sánchez-Muniz & L. A. Moreno on behalf of the HELENA Study Group 124-133

Effect of maternal dietary counselling during the 1st year of life on glucose profile and insulin resistance at the age of 8 years: a randomised field trial
C. S. Costa, P. D. B. Campagnolo, L. H. Lumey & M. R. Vitolo 134-141

Dairy food supplementation may reduce malnutrition risk in institutionalised elderly
S. Iuliano, S. Poon, X. Wang, M. Bui & E. Seeman 142-147

Dietary Surveys and Nutritional Epidemiology

Dairy consumption is associated with a lower incidence of the metabolic syndrome in middle-aged and older Korean adults: the Korean Genome and Epidemiology Study (KoGES)
D. Kim & J. Kim 148-160

Energy density of the diets of Japanese adults in relation to food and nutrient intake and general and abdominal obesity: a cross-sectional analysis from the 2012 National Health and Nutrition Survey, Japan
K. Murakami, M. B. E. Livingstone, H. Okubo & S. Sasaki 161-169

Monitoring the effects of iodine prophylaxis in the adult population of southern Italy with deficient and sufficient iodine intake levels: a cross-sectional, epidemiological study
D. Bonfiglio, S. Catalano, A. Perri, M. Santoro, L. Siciliano, D. Lofaro, M. Gallo, S. Marsico, R. Bruno, C. Giordano, I. Barone & S. Andò 170-175
