ST. CLAIR

A Nineteenth-Century Coal Town's Experience with a Disaster-Prone Industry

By ANTHONY F. C. WALLACE. "Monumental A book of grand scale and impressive accomplishment. . . . Wallace has revised our image of 19th-century industrial development. . . . Displaying his professional anthropologist's eye for telling detail, as well as the sort of prodigious research and sense of plot and character development more often found in the work of historians and novelists, [he] has demonstrated that the history of our smallest towns speaks to some of the largest questions of our past and present."—*New York Times Book Review*. \$12.95

LABOR DIVIDED

Austerity and Working-Class Politics in Contemporary Italy

By MIRIAM GOLDEN. Why do policy orientations of labor movements in contemporary capitalism differ? Why do some trade unions and working-class political parties embrace moderation while others pursue radicalism? By examining the Italian labor movement in the late 1970s and early 1980s, this book seeks to determine how trade unions set policy positions and strategic agenda in a rapidly changing economic and political environment. \$31.50

The Workers' Union

Flora Tristan

*Translated and with an introduction
by Beverly Livingston*

"Published a year before [Tristan's] death in 1844, *The Workers' Union* represents an important addition to feminist-socialist critiques. . . . Conner, *Nineteenth-Century French Studies*. \$14.95.

Gender at Work

The Dynamics of
Job Segregation by Sex
