

OBJECTS

OF THE

Marine Biological Association of the United Kingdom.

THE ASSOCIATION was founded at a Meeting called for the purpose in March, 1884, and held in the Rooms of the Royal Society of London.

Professor HUXLEY, the President of the Royal Society, took the chair, and amongst the speakers in support of the project were the Duke of ARGYLL, Sir LYON PLAYFAIR, Sir JOHN LUBBOCK, Sir JOSEPH HOOKER, the late Dr. CARPENTER, Dr. GÜNTHER, the late Lord DALHOUSIE, the late Professor MOSELEY, Dr. ROMANES, and Professor LANKESTER.

The Association owes its existence and its present satisfactory condition to a combination of scientific naturalists, and of gentlemen who, from philanthropic or practical reasons, are specially interested in the great sea fisheries of the United Kingdom. It is universally admitted that our knowledge of the habits and conditions of life of sea fishes is very small, and insufficient to enable either the practical fisherman or the Legislature to take measures calculated to ensure to the country the greatest return from the "harvest of the sea." Naturalists are, on the other hand, anxious to push further our knowledge of marine life and its conditions. Hence, the Association has erected at Plymouth a thoroughly efficient laboratory, where naturalists may study the history of marine animals and plants in general, and where, in particular, researches on food fishes and molluscs may be carried out with the best appliances.

The Laboratory and its fittings were completed in June, 1886, at a cost of some £12,000. Since that time investigations, practical and scientific, have been constantly pursued at Plymouth. Practical investigations upon matters connected with sea-fishing are carried on under the direction of the Council; in addition, naturalists from England and from abroad have come to the Laboratory, to carry on their own independent researches, and have made valuable additions to zoological and botanical science, at the expense of a small rent for the use of a working table in the Laboratory and other appliances. The number of naturalists, who can be employed by the Association in special investigations on fishery questions, and definitely retained for the purpose of carrying on those researches throughout the year, must depend on the funds subscribed by private individuals and public bodies for the purpose. The first charges on the revenue of the Association are the working of the seawater circulation in the tanks, stocking the tanks with fish and feeding the latter, the payment of servants and fishermen, the hire and maintenance of fishing boats, and the salary of the Resident Director and staff. At the commencement of this number will be found the names of the gentlemen on the staff. In no case does any one salary exceed £250.

The Association has at present received some £20,000, of which £5000 was granted by the Treasury. The annual revenue which can be at present counted on is about £1820, of which £1000 a year is granted by the Treasury, the remainder being principally made up in Subscriptions.

The admirable Marine Biological Laboratory at Naples, founded and directed by Dr. Dohrn, has cost about £20,000, including steam launches, &c., whilst it has an annual budget of £4000.

THE ASSOCIATION IS AT PRESENT UNABLE TO AFFORD THE PURCHASE AND MAINTENANCE OF A SEA-GOING STEAM VESSEL, but has determined upon the purchase of a Sailing Trawler, by means of which fishery investigations can be extended to other parts of the coast than the immediate neighbourhood of Plymouth. Funds are urgently needed in order that this section of the work may be carried out with efficiency. The purpose of the Association is to aid at the same time both science and industry. It is national in character and constitution, and its affairs are conducted by a representative Council, by an Honorary Secretary and an Honorary Treasurer, without any charge upon its funds, so that the whole of the subscriptions and donations received are devoted absolutely to the support of the Laboratory and the prosecution of researches by aid of its appliances. The reader is referred to page 4 of the Cover for information as to membership of the Association.

CONTENTS of NEW SERIES, Vol. II, No. 3.

	PAGE
1. LIST OF GOVERNORS, FOUNDERS, AND MEMBERS	197
2. OBITUARY—HENRY NOTTIDGE MOSELEY	206
3. DIRECTOR'S REPORT	207
4. ON A SPECIES OF SIPHONOPHORE OBSERVED AT PLYMOUTH. BY J. T. CUNNINGHAM, M.A.	212
5. NORTH SEA INVESTIGATIONS. BY ERNEST W. L. HOLT	216
6. FURTHER EXPERIMENTS ON THE PRODUCTION OF ARTIFICIAL BAITS. BY FRANK HUGHES	220
7. ON THE RATE OF GROWTH OF SOME SEA FISHES, AND THE AGE AND SIZE AT WHICH THEY BEGIN TO BREED. BY J. T. CUNNINGHAM, M.A.	222
8. ON SOME YOUNG SPECIMENS OF CENTROLOPHUS POMPHILUS (ART.) FROM THE COAST OF CORNWALL. BY ERNEST W. L. HOLT	265
9. EXPERIMENTS ON THE RELATIVE ABUNDANCE OF ANCHOVIES OFF THE SOUTH COAST OF ENGLAND. BY W. L. CALDERWOOD	268
10. REPORT ON PHYSICAL INVESTIGATIONS. BY H. N. DICKSON, F.R.S.E.	272
11. METEOROLOGICAL OBSERVATIONS	275
12. OBSERVATIONS OF THE TEMPERATURE OF THE SURFACE OF THE SEA OFF PLYMOUTH	276
13. MONTHLY REPORTS ON THE FISHING IN THE NEIGHBOURHOOD OF PLYMOUTH. BY W. L. CALDERWOOD	277
14. NOTES AND MEMORANDA	280

NOTICE.

The Council of the Marine Biological Association wish it to be understood that they do not accept responsibility for statements published in this Journal, excepting when those statements are contained in an official report of the Council.

TERMS OF MEMBERSHIP.

	£ s. d.
Annual Members per ann.	1 1 0
Life Members Composition Fee	15 15 0
Founders	100 0 0
Governors	500 0 0

Members of the Association have the following rights and privileges: they elect annually the Officers and Council; they receive the Journal of the Association free by post; they are admitted to view the Laboratory at Plymouth, and may introduce friends with them; they have the first claim to rent a place in the Laboratory for research, with use of tanks, boats, &c., and have access to the books in the Library at Plymouth.

All correspondence should be addressed to the Director, M. B. A. Laboratory, Citadel Hill, Plymouth.
