

# ANTARCTIC SERVICE MEDAL COMMEMORATIVE

Service Commemoratives is proud to announce the release of a commemorative for Antarctic service, to be available to all qualified men and women.

This medal is to commemorate Antarctic service that has not been recognised by any award.

Both this superb medal and its miniature are STRUCK and have a high grade bright nickel finish that will not require polishing. This is not some inexpensive casting. (The medal and ribbon suspender bar are two piece assembly for both the full size medal and the miniature.)

The medal's beautiful watered ribbon represents the frozen continent, the ice shelf and the Great Southern Ocean; this is a predominantly white ribbon merging into pale blue and dark blue on both edges.

This Medal is available with Clasps (bars) to denote the particulars of your Antarctic service. In this way several Clasps (bars) representing your various areas of service can all be attached to the one medal, as is the practice with all the various British General Service Medals.

Clasps (bars) are to be attached and rivetted to each other and to the medal ribbon suspender assembly. Clasps (bars) are of a similar construction and assembly type as used on the various British General Service Medals. This Commemorative can also be displayed without any Clasps (bars).

Neither medal mounting nor engraving services are offered or provided by Service Commemoratives. Such requests should be directed to professional medal mounting services. We can recommend such services.

Individuals and organisations may have specially made Clasps (bars) - minimum order of 50 - to recognise specific service (e.g. the various National stations), if such service is not already covered by the large range of Clasps (bars) now available.

This is a Commemorative - and like all other commemoratives it is unofficial. It may be worn on civilian dress.

This medal may be applied for posthumously by next of kin.

**PLEASE USE BLOCK CAPITALS TO ENSURE YOUR ORDER CAN BE SENT WITHOUT ERROR**

Surname: \_\_\_\_\_

Christian Names: \_\_\_\_\_

Postal Address: \_\_\_\_\_

P/Code: \_\_\_\_\_

Areas of Antarctic Service: \_\_\_\_\_

Position or Rank Held: \_\_\_\_\_

Service or Organization: \_\_\_\_\_

If for N.O.K. State Relationship \_\_\_\_\_

*Upon receipt of your application and payment your Order will be processed. The Order will then be placed with the manufacturer, WHO WILL DISPATCH IN AN ESTIMATED 6-8 WEEKS.*

*Telephone enquiries are not encouraged. If you have any queries please make them in writing thereby ensuring a permanent record and a response. (If you do make inquiries please be sure to include a stamped, self addressed [3 1/4" x 8 5/8"] envelope.)*

Because of the overwhelming demand, only firm orders accepted - Payment must accompany orders.

# Books from the Taylor & Francis Group

## Observing Global Climate Change

K. Ya. Kondratyev, *University of St Petersburg* and A.P. Cracknell, *University of Dundee*

The question of anthropogenic effects on the Earth's climate is a topic of intense interest, in the worlds of science, politics, and human affairs. This important new book combines the consideration of physical principles and the results of observation and numerical modelling. It is a collaborative work which gives a comprehensive introduction to global climate and the way in which it is currently changing. New research is emphasized and special reference made to the environmental impacts of increased carbon dioxide emission - the so-called greenhouse effect.

1997 / 0 7484 0124 5 / 500pp / Hbk / £75.00

## Regional Satellite Oceanography

Serge Victorov, *Russian Oceanographic Institute*

Written by one of the world's leading authorities on the subject, this book explores the interaction between oceanography and remote sensing; information and instrumentation; sensors and satellites methodologies and experiences from around the world. The development of up-to-date satellite oceanography is described and the book includes a review of global activities in regional satellite oceanography.

## Canada's Cold Environments

NEW IN PAPER

Edited by Hugh M. French, *University of Ottawa* and Olav Slaymaker, *University of British Columbia*

"... provides a golden opportunity for the reader of any nationality to... appreciate just how pervasive the issue of coldness is for Canadians... An excellent choice for anyone interested in northern environments and their future." C. E. Thorn, *Annals of the Association of American Geographers*

Eleven of Canada's leading geographers, geologists, and ecologists provide an authoritative, readable collection of scientific essays about the physical nature of Canada's coldness. They focus on the distinctive attributes of Canada's cold environments, their temporal and spatial variability, and the constraints that coldness places on human activity.

## This Distant and Unsurveyed Country

A Woman's Winter at Baffin Island, 1857-1858

W. Gillies Ross

In 1857 Margaret Penny set off from Aberdeen, Scotland with her husband, Captain William Penny, aboard the whaler *Lady Franklin* on a wintering voyage to what is now the eastern Canadian Arctic. Incorporating the journal she kept during the expedition with commentary by W. Gillies Ross, this book recreates nineteenth-century Baffin Island for the modern reader and provides a unique perspective on arctic whaling, the Canadian Arctic and the interaction between Inuit and European culture at the time of the voyage.

## Oceanography and Marine Biology

An Annual Review Volume 35

A. Ansell, R. N. Gibson, M. Barnes, *Dunstaffnage Marine Laboratory, Scotland*

Established over 30 years ago, this annual review considers basic areas of marine research, deals with subjects of special and topical importance and adds new ones as they arise. An essential reference text for those in all fields of marine science and related areas.

**CONTENTS:** Preface; *Physical processes in inverse estuarine systems* - Mohammed I. El Sahb, Than H. Augn & Tad S. Murty; *Light absorption by phytoplankton and the vertical light attenuation: ecological and physiological significance* - Ferdinand Schanz, Peter Senn & Zvy Dubinsky; *Lingulodinium polyedrum (Gonyaulax polyedra) a blooming dinoflagellate* - Jane Lewis & Richard Hallett; *The role of tidal marshes in the ecology of estuarine nekton* - Ronald T. Kneib; *The hyperbenthos* - Jan Mees & Malcolm B. Jones; *Dormancy in the free living copepod orders Cyclopoida, Calanoida and Harpacticoida* - Judith Williams-Howze; *Polychaete reproductive patterns, life cycles and life histories: an overview* - Adriana Giangrande; *Caloric values of marine invertebrates with an emphasis on the soft parts of marine bivalves* - J. J. Beukema; *The Hellenic Sea: physics, chemistry, biology and fisheries* - K. I. Stergiou, E. D. Christou, D. Georgopoulos, A. Zenetos C. Souvermezoglou; Author index; Systematic index; Subject index

## Labrador Odyssey

The Journal and Photographs of Eliot Curwen on the Second Voyage of Wilfred Grenfell, 1893

Edited by Ronald Romkey

"A marvellous book... This authentic document is one of the most important books on life in Newfoundland and Labrador to appear in recent years. It is a must for all persons interested in the social, economic and political history of our province." Mike McCarthy, *St John's Sunday Telegram*

McGill-Queen's/Hannah Institute Studies in the History of Medicine, Health and Society

# POLAR RECORD

VOLUME 34 NUMBER 189 APRIL 1998

## CONTENTS

### ARTICLES

- Research on shipborne tourism to the Ross Sea region and the New Zealand sub-Antarctic islands. Gordon Cessford and Paul R. Dingwall p 99
- The over-winter movements of a chinstrap penguin (*Pygoscelis antarctica*). Rory P. Wilson, Boris M. Culik, Piotr Kosiorek, and Dieter Adelung p 107
- A critical review of design and use of field tent shelters in polar regions. Xiaoying Winston Yan, Marijane E. England, Karl C. Kuivinen, James J. Potter, and Nathan S. Krug p 113
- Tourism on Svalbard. Arvid Viken and Frigg Jørgensen p 123
- The polar ship *Quest*. Angus B. Erskine and Kjell-G. Kjaer p 129

### NOTES

- Legal, policy, and administrative developments for management of tourism in the Ross Sea region and New Zealand sub-Antarctic islands. Paul R. Dingwall p 143
- Anthony Trollope in Iceland. Ian R. Stone p 145
- The Protocol on Environmental Protection enters into force. M.G. Richardson p 147

### POLAR PROFILE

- Terris Moore. Geoffrey Hattersley-Smith p 149

### REVIEWS

- Nansen: the explorer as hero. Roland Huntford. *Beau Riffenburgh* p 152
- An alien in Antarctica: reflections upon forty years of exploration and research on the frozen continent. Charles Swithinbank. *Geoffrey Hattersley-Smith* p 153
- Governing the Antarctic: the effectiveness and legitimacy of the Antarctic Treaty System. Olav Schram Stokke and Davor Vidas (Editors). *Klaus J. Dodds* p 154
- Whales, seals, fish and man. Arnoldús Schytte Blix, Lars Walløe, and Øyvind Ulltang (Editors). *E. Cruwys* p 156
- Making a world of difference: essays on tourism, culture and development in Newfoundland. James Overton. *Margaret E. Johnston* p 157
- A history of Antarctica. Stephen Martin. *H.G.R. King* p 158
- Socio-economic developments in Greenland and in other small Nordic jurisdictions. Lise Lyck (Editor). *Graham Poole* p 159
- American beginnings: the prehistory and palaeoecology of Beringia. Frederick Hadleigh West (Editor). *Alan L. Bryan* p 160
- The Greenland and Davis Strait trade, 1740–1880. A.G.E. Jones. *Arthur Credland* p 162
- The British Museum encyclopaedia of underwater and maritime archaeology. James P. Delgado (Editor). *P.J. Capelotti* p 71

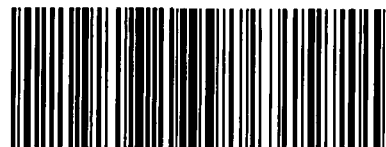

### OBITUARIES

- Professor Nicholas Polunin p 165
- Daniel A. Guravich p 167

### SCAR BULLETIN No 129

- Measures, Decisions and Resolutions adopted at the XX1st Antarctic Treaty Consultative Meeting, Christchurch, New Zealand, 19–30 May 1997 p 169
