THE CHANGING WORLD OF ENT EVERY MONTH IN THE JLO

The Journal of Laryngology and Otology was the first British journal in the ENT field. Since 1887, it has remained the definitive information resource for surgeons, consultants and students. The Journal is run as a charity to promote education and knowledge in all spheres of Laryngology, Rhinology, Otology and related fields.

The JLO is very much an international journal with contributors from around the world and readers from over 80 countries.

The JLO contains main Articles, case reports and short communications from all over the world. Other contents include the quarterly book review, selected abstract service, and every ten years there is a comprehensive index issue published.

The Journal has a very good record of publishing up-to-date information; many articles are published within three months of being accepted for publication. As part of our charitable mandate we sponsor Travelling Fellowships for registrars, Visiting Professors who conduct lecture tours of the UK, and the JLO subsidizes our Student price to maximise access by the next generation. **By subscribing to the JLO, you not only gain everyday access to this valuable source of information, but also assist in the promotion of excellence in the ENT domain.**
