

Calendar

Edited by Paul Webster
pwebster@usc.edu

List your meeting here:

Following is a list of microscopy related meetings and courses. The editors would greatly appreciate input to this list via the electronic submission form under "events/other microscopy events" at the MSA webpage: www.microscopy.org. We will gladly add hypertext links to the notice on the web and insert a listing of the meeting in the next issue. Please furnish the following information (any additional information provided will be edited as required and printed on a space available basis):

- Meeting/Course name
- Meeting/Course dates
- Meeting/Course topic or short description
- Sponsoring society/organization/university
- Contact person
- Telephone number
- Fax number
- Email address
- URL for website

MATERIALS SCIENCE & ENGINEERING
 TEXAS A&M UNIVERSITY

TENURE/ TENURE-TRACK: ASSISTANT, ASSOCIATE OR FULL PROFESSOR

Department of Materials Science and Engineering – Full-time position

Position Summary: The Department of Materials Science & Engineering at Texas A&M University invites applications for a tenured or tenure-track faculty position at the assistant, associate, or full professor level with expertise in **electron microscopy and microanalysis of materials (metals, ceramics and polymers) with the emphasis on in-situ characterization and/or high resolution microscopy**. Although we primarily seek candidates at the associate- and full-professor levels, exceptional candidates at the assistant-professor level will be also considered. Applicants must have an earned doctorate in materials science and engineering or a closely related engineering or science discipline. The successful applicants will be required to teach; advise and mentor graduate students; develop an independent, externally funded research program; participate in all aspects of the department's activities; and serve the profession. Strong written and verbal communication skills are required. Applicants should consult the department's website to review our academic and research programs (<http://engineering.tamu.edu/materials>).

Required Education and Experience: Applicants must have an earned doctorate in materials science and engineering or a closely related engineering or science discipline.

Applications: Applicants should submit a cover letter, curriculum vitae, teaching statement, research statement, and a list of 3–5 references by applying for this specific position at www.tamengineeringjobs.com. Full consideration will be given to applications received by February 1, 2017. Applications received after that date may be considered until positions are filled. It is anticipated the appointment will begin as early as fall 2017.

EEOC Statement: The members of Texas A&M Engineering are all Equal Opportunity/Affirmative Action/Veterans/Disability employers committed to diversity. It is the policy of these members to recruit, hire, train and promote without regard to race, color, sex, religion, national origin, age, disability, genetic information, veteran status, sexual orientation or gender identity.
