

## Notes for contributors

**General** *Oryx* publishes original articles and reports dealing with the conservation of species and habitats throughout the world, with particular emphasis on those that are endangered.

Edited manuscripts are returned to authors so that corrections can be made before typesetting. Authors should check these carefully since corrections at page proof stage are expensive. Page proofs will be sent to the author for approval before going to press. Contributors receive two free copies of the journal and will be entitled to buy additional copies at £2.00 each, post free. Offprints may be ordered at cost price.

Contributions should be concise but informative, normally in English. Articles should be as short as possible, preferably under 2500 words, and very short articles are acceptable.

**Manuscripts** should be typed on one side only and double-spaced on A4 paper (208x298 mm). The left-hand margin must be at least 40 mm wide. Two copies should be submitted and authors are also invited to submit papers on disk, either 5<sup>1</sup>/<sub>4</sub>" IBM compatible (most word-processing programmes) or 3<sup>1</sup>/<sub>2</sub>" Apple format (MacWrite only). Correspondence should be sent to: Dr Jacqui Morris, Editor of *Oryx*, Fauna and Flora Preservation Society, 1 Kensington Gore, London SW7 2AR, UK.

Footnotes should be avoided but, if necessary, should be indicated with asterisks in the text.

The author's name and postal address should follow any acknowledgments and references at the end of the article.

**References** in the text should give the author's name with the year of publication in parenthe-

ses. The reference list should be in alphabetical order and include the full article title.

References should be given according to the abbreviations in the *World List of Scientific Periodicals*. Thus:

Aveling, C. and Harcourt, A.H. 1984. A census of the Virunga gorillas. *Oryx*, 18, 8–13.

Hartshorn, M.G. 1983. Wildlife conservation in Central America. In: *Tropical Rain Forest: Ecology and Management* (eds S. L. Sutton, T. C. Whitmore and A. C. Chadwick), pp. 421–423. Blackwell Scientific Publications, Oxford.

**Illustrations** are welcomed and ideally should be glossy, black-and-white whole-plate prints. Good colour slides are acceptable if black-and-white photographs are not available.

**Line drawings** and maps should be in black ink on strong white or translucent paper. Lettering on maps and figures should be sent on a separate copy of the figure along with the unlabelled original.

Captions for figures should be typed consecutively on a separate sheet.

**Tables.** Each table should be self-explanatory and typed on a separate sheet with an appropriate caption.

**Scientific names** should be underlined and not placed in parentheses. Species' names should follow a checklist, which should be mentioned in a covering letter where there is a risk of confusion.

The first time a species is mentioned its scientific name should be given. English names should be in lower case throughout except where they incorporate a proper name.
