### SEMON LECTURE.

The Semon Lecture will be delivered by Mr. Herbert Tilley on Thursday, November 1st, at 5 o'clock at the Royal Society of Medicine. The subject will be " Inflammation of the Maxillary Antrum and other Accessory Sinuses " (Some Clinical Manifestations of its Pathology).

\* \* \*

We regret to notice the death at a very early age of Dr. Sidney Bernstein, of Gloucester. Dr. Bernstein had been in Gloucester only for a few years in succession to Dr. Smurthwaite, but during that time he was responsible for the building of the new Ear, Nose and Throat Department at the Gloucestershire Royal Infirmary which is probably one of the most complete and best equipped in the country.

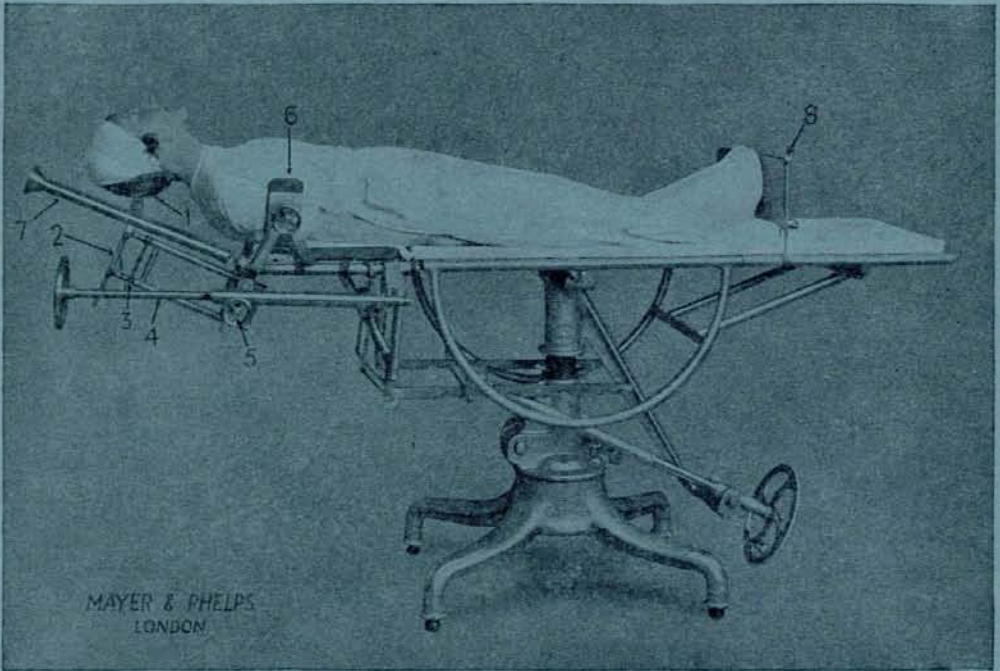

Dr. Bernstein was a very active member of the Otological and Laryngological Sections of the Royal Society of Medicine and was also a valued provider of Abstracts for this Journal.

# Peroral Endoscopy Table

Fitted with Head Rest for BRONCHOSCOPY, ŒSOPHAGOSCOPY,  
NASAL OPERATIONS Etc.

Designed by V. E. NEGUS, M.B., B.S., F.R.C.S.

The head rest enables the operator himself to place the patient in the desired position for a variety of operations. All parts touched by the operator are sterilisable.

The apparatus is an elaboration of Haslinger's Bronchoscopic head rest, but its range of utility is extended to enable the patient to be supported with the shoulders beyond the end of the table for œsophagoscopy, and to be kept in the correct attitude during operations performed in the sitting or semi-sitting position.
