

Index of Subjects

- Aeromonas* species, some observations on the faecal carriage of mesophilic, in cows and pigs. 523
- Badger, tuberculosis: the disease and its epidemiology in the, a review, 113
- Bovine, DNA fingerprinting of *Streptococcus uberis*: a useful tool for epidemiology of, mastitis. 165
- Branhamella catarrhalis*, esterase electrophoresis: a molecular tool for studying the epidemiology of, nosocomial infection, 547
- Campylobacter jejuni*, response of the chick embryo to live and heat-killed, injected into the sac. 577
- Campylobacter, waterborne outbreak of, enteritis after outdoors infantry drill in Utti, Finland. 133
- Chlamydia pneumoniae*, strain TWAR, as the cause of an outbreak in a boys' school previously called psittacosis, 395
- Cryptosporidiosis, an outbreak of waterborne, caused by post-treatment contamination. 703
- Cystic fibrosis, genotyping of *Pseudomonas aeruginosa* sputum and stool isolates from: evidence for intestinal colonization and spreading into toilets, 555
- Decontamination, investigation of the immune status of mice during and following selective, of the digestive tract, 323
- Diarrhoea, the association of enterotoxigenic and enteropathogenic *Escherichia coli* and other enteric pathogens with childhood, in Yugoslavia, 53
- Diarrhoeal, outbreaks of, illness on passenger cruise ships, 1975–85, 63
- Diphtheria, immunity against, in adults in Poland, 587
- Eggs, a large outbreak of *Salmonella enteritidis* phage type 4 associated with, from overseas. 425
- Eggs, *Salmonella enteritidis* phage type 4 from the contents of intact: a study involving naturally infected hens. 415
- Eggs, the survival of salmonellas in shell, cooked under simulated domestic conditions. 35
- Egg, two outbreaks of *Salmonella enteritidis* phage type 4 infection associated with the consumption of fresh shell-, products, 47
- Enterobacter cloacae, electrophoretic typing of, with a limited set of enzyme stains. 255
- Enterobacter cloacae*, evaluation of numerical analysis of SDS-PAGE of protein patterns for typing, 265
- Enterobacteriaceae, restriction endonuclease characterization of resistant plasmids in, isolated from children in the Sudan, 487
- Enterococci, high-level vancomycin-resistant, causing hospital infections, 173
- Enterococci, susceptibility of, and epidemiology of enterococcal infection in the 1980s. 403
- Escherichia coli*, a christening party outbreak of haemorrhagic colitis and haemolytic uraemic syndrome associated with, O 157.H7, 249
- Escherichia coli*, correlation between electrophoretic types B₁ and B₂ of carboxylesterase B and sex of patients in, urinary tract infections, 97
- Escherichia coli*, direct transmission of, from poultry to humans. 513
- Escherichia coli*, enterotoxigenic, in the domestic environment of a Malaysian village. 497
- Escherichia coli*, phage-typing of Vero-cytotoxin (VT) producing, O 157 isolated in the United Kingdom, 73
- Escherichia coli*, properties of Vero cytotoxin-producing, of human and animal origin belonging to serotypes other than O 157:H7, 83
- Escherichia coli*, the association of enterotoxigenic and enteropathogenic, and other enteric pathogens with childhood diarrhoea in Yugoslavia, 53
- Filariasis, bancroftian, in Pondicherry, South India: 1. Pre-control epidemiological observations, 685

- Filariasis, bancroftian, in Pondicherry, South India: 2. Epidemiological evaluation of the effect of vector control, 693
- Foods, comparative study of visual inspections and microbiological sampling in premises manufacturing and selling high-risk, 475
- Gonococcal, sampling methods for monitoring changes in, populations, 203
- Haemolytic uraemic syndrome, a christening party outbreak of haemorrhagic colitis and, associated with *Escherichia coli* O 157.H7, 249
- Haemorrhagic colitis, a christening party outbreak of, and haemolytic uraemic syndrome associated with *Escherichia coli* O 157.H7, 249
- Hepatitis A antibody in blood donors in North East Thames region: implications to prevention policies, 377
- Hepatitis A, investigation of an outbreak of, simplified by salivary antibody testing, 371
- Hepatitis B, intradermal, immunization with yeast-derived vaccine: serological response by sex and age, 387
- Hepatitis B markers in West Yorkshire firemen, 383
- HIV, immunosuppression and mycobacteria other than *Mycobacterium tuberculosis*: results from patients with and without, infection, 293
- Influenza, concurrent outbreaks of, and parvovirus B19 in a boys' boarding school, 359
- Influenza mortality and excess deaths in the elderly, 1967-82, 633
- Legionella pneumophila*, detection of, in environmental water samples using a fluorescein conjugated monoclonal antibody, 105
- Legionnaires' disease and the sick-building syndrome, 285
- Leptospirosis infection in school-children from Trinidad and Barbados, 143
- Meningitis, rapid diagnosis of bacterial, by an enzyme immunoassay of cerebrospinal fluid, 301
- Mycobacterium africanum*, incidence and nature of human tuberculosis due to, in South-East England: 1977-87, 127
- Mycobacterium tuberculosis*, immunosuppression and mycobacteria other than: results from patients with and without HIV infection, 293
- Mycoplasma pneumoniae*, laboratory diagnosis of, infection, 3. Detection of IgM antibodies to *M. pneumoniae* by a modified indirect haemagglutination test, 613
- Mycoplasma, the effect of pre-enrichment on recovery of *Streptococcus agalactiae*, *Staphylococcus aureus* and, from bovine milk, 465
- Myxomatosis in farmland rabbit populations in England and Wales, 333
- Necrobacillosis and immunity in mice, 211
- Papillomaviruses, lymphoproliferative response to fusion proteins of human, in patients with cervical intra-epithelial neoplasia, 625
- Paratyphoid, an outbreak of, fever in the UK associated with a fish-and-chip shop, 445
- Parvovirus B19, concurrent outbreaks of influenza and, in a boys' boarding school, 359
- Perfloxacin, hospital dispersion of *Staphylococcus epidermidis* isolates resistant to a fluoroquinolone, 459
- Poliovirus, restricted variability of a 17 nucleotide stretch within the 5'-noncoding region of, genome, 671
- Prophylactic antibiotics, national study on the utilization of, in surgery, Belgium, 1986, 311
- Pseudomonas aeruginosa*, genotyping of, sputum and stool isolates from cystic fibrosis patients: evidence for intestinal colonization and spreading into toilets, 555
- Pseudomonas aeruginosa*, multiresistant serotype O 12; evidence for a common strain in Europe, 565
- Rabies, a time series analysis of the, control programme in Chile, 651
- Rhinovirus, the time course of the humoral immune response to, infection, 659
- Rubella, laboratory diagnosis and clinical significance of, in children with cancer, 643

- Salami sticks, a national outbreak of *Salmonella typhimurium* DT 124 caused by contaminated. 219
- Salmonella enteritidis*, acquisition of a drug resistance plasmid converts, phage type 4 to phage type 24, 243
- Salmonella enteritidis*, a large outbreak of, phage type 4 associated with eggs from overseas. 425
- Salmonella enteritidis* phage type 4 from the contents of intact eggs: a study involving naturally infected hens, 415
- Salmonella enteritidis*, two outbreaks of, phage type 4 infection associated with the consumption of fresh shell-egg products, 47
- Salmonella paratyphi* B, numerical index of the discriminatory ability of biotyping for strains of *Salmonella typhimurium* and, 435
- Salmonella, the tangible cost implications of a hospital outbreak of multiply-resistant, 227
- Salmonellas, the survival of, in shell eggs cooked under simulated domestic conditions. 35
- Salmonella typhimurium*, a national outbreak of, DT 124 caused by contaminated salami sticks. 219
- Salmonella typhimurium*, numerical index of the discriminatory ability of biotyping for strains of, and *Salmonella paratyphi* B, 435
- S. typhimurium*, persistence of, in a large dairy herd, 235
- Ships, outbreaks of diarrhoeal illness on passenger cruise, 1975–85, 63
- Sick-building syndrome, Legionnaires' disease and the. 285
- Staphylococcus aureus*, methicillin-resistant, from China characterized by digestion of total DNA with restriction enzymes, 183
- Staphylococcus aureus*, the effect of pre-enrichment on recovery of *Streptococcus agalactiae*, and mycoplasma from bovine milk, 465
- Staphylococcus epidermidis*, hospital dispersion of, isolates resistant to a fluoroquinolone, pefloxacin. 459
- Streptococcus agalactiae*, the effect of pre-enrichment on recovery of, *Staphylococcus aureus* and mycoplasma from bovine milk, 465
- Streptococcus suis*, occupational exposure to, type 2, 157
- Streptococcus uberis*, DNA fingerprinting of, a useful tool for epidemiology of bovine mastitis. 165
- Toxoplasmosis, the effectiveness of a prenatal education programme for the prevention of congenital, 539
- Treponema hyodysenteriae*, analysis of lipopolysaccharide antigens of, 275
- Tuberculosis, incidence and nature of human, due to *Mycobacterium africanum* in South-East England: 1977–87, 127
- Tuberculosis: the disease and its epidemiology in the badger, a review. 113
- Vibrios, the human pathogenic. – a public health update with environmental perspectives. 1
- Water, occurrence of drug-resistant bacteria in communal well, around Port Harcourt. Nigeria. 193
- Waters, the survival patterns of selected faecal bacteria in tropical fresh. 603
- Yersinia pestis*, electrophoretic characterization of the outer membrane proteins of, isolated in north-east Brazil, 595
