	PAGE
FINNEY, D. J. The adjustment of biological assay results for variation in concomitant observations. (With 1 Figure in the Text)	397
KLIENEBERGER-NOBEL, EMMY. Isolation and maintenance of an L1-like culture from <i>Fusiformis necrophorus</i> (Syn. <i>Bact. funduliforme</i> , <i>Bacteroides funduliformis</i> ). (With Plate 6)	407
KLIENEBERGER-NOBEL, EMMY. Morphological appearances of various stages in <i>B. proteus</i> and <i>coli</i> . (With Plate 7)	410
BRIEGER, E. M. and ROBINOW, C. F. Demonstration of chromatinic structures in avian tubercle bacilli in the earlier stages of development. (With Plates 8-10)	413
HIRSCH, DR WILLY. A new bacterial variant: the non-motile H form	417
BRUCE, H. M. The feeding and breeding of laboratory animals. VI. The breeding of mice. (With 6 Figures in the Text)	420
WILSON, DAGMAR C. Note on the effects of home duties on factory employment of women. A study of absenteeism in a group of 144 voluntary factory workers	431
YARNOLD, K. W. Factors affecting warmth comfort and stuffiness in domestic rooms. (With 6 Figures in the Text)	434
COWEN, E. D. H. An account of the health of nurses at Westminster Hospital from July 1943 to July 1946	443
RENBOURN, MAJOR E. T. Variation, diurnal and over longer periods of time, in blood haemoglobin, haematocrit, plasma protein, erythrocyte sedimentation rate, and blood chloride. (With 1 Figure in the Text)	455
ATKINS, W. R. G. A suggested repellent for Schistosome cercariae	468
PICKLES, W. N., BURNET, F. M. and McARTHUR, NORMA. Epidemic respiratory infection in a rural population with special reference to the influenza A epidemics of 1933, 1936-7 and 1943-4. (With 1 Figure in the Text)	469
McLAUCHLAN, J. D. and HENDERSON, W. M. The occurrence of foot-and-mouth disease in the hedgehog under natural conditions. (With Plate 11 and 2 Figures in the Text)	474
HOLE, N. H. and COOMBS, R. R. A. The conglutination phenomenon. I. An introduction to the conglutination phenomenon and an account of the observations and views of previous investigators	480
HOLE, N. H. and COOMBS, R. R. A. The conglutination phenomenon. II. The technique of the conglutinating complement absorption test compared with the haemolytic complement fixation test. (With 3 Figures in the Text)	490
HOLE, N. H. and COOMBS, R. R. A. The conglutination phenomenon. III. The conglutinating complement absorption test in experimental glanders. (With 6 Figures in the Text)	497
CLEGG, L. F. L. and SHERWOOD, H. P. The bacteriological examination of molluscan shellfish. (With 2 Figures in the Text)	504

*The Journal of Hygiene* is now issued irregularly. A volume is issued in paper covers at the following net prices:

Volumes I-III (1901-3). 17s. 6d. net per volume.

Volumes IV-XVI (1904-18), *excepting* Vol. VI, no. 4, Plague number. 25s. net per volume.

Volume XVII (1918). 31s. net.

Volumes XVIII-XXXI (1919-31). 42s. net per volume.

Volumes XXXII-XXXVII (1932-37). 47s. 6d. net per volume.

Volumes XXXVIII-XLII (1938-42). 75s. net per volume.

Volumes 43 and 44 out of print.

Quotations can be given for buckram binding cases, also for bound copies of back volumes.

Papers for publication should be sent to Dr G. S. GRAHAM-SMITH, Dept. of Pathology, Tennis Court Road, Cambridge. Other communications should be addressed to the University Press, Cambridge.

Papers forwarded to the Editor for publication are understood to be offered to *The Journal of Hygiene* alone, unless the contrary is stated.

Contributors receive fifty copies of their papers free. One hundred additional copies may be had at cost price: these should be ordered when the final proof is returned.

The subscription price is £3. 15s. 0d. per volume (post-free), payable in advance; single numbers 16s. 0d. net unless otherwise stated. Subscriptions may be sent to any Bookseller, or to The Cambridge University Press, Bentley House, 200 Euston Road, London, N.W. 1.

The Cambridge University Press has appointed the University of Chicago Press agents for the sale of *The Journal of Hygiene* in the United States of America.
