

for
RAPID DISINFECTION
ARGYROL Silver Vitellin
plus
Natural EPHEDRINE
IMMEDIATE DECONGESTION

in the treatment of

**COLDS • ACUTE OR CHRONIC RHINITIS
CATARRH • SINUSITIS • ASTHMA • HAY FEVER**

The therapeutic properties of Silver Vitellin have been well known for the past twenty years. The combination into a **stable solution** of Silver Vitellin and natural laevorotatory Ephedrine—a powerful and lasting congestion-relieving agent—in normal saline gives Argotone immediate acceptance as the ideal treatment for nasal affections and their complications.

ARGOTONE is an ethical preparation **not advertised** to the Public, and can be prescribed with every confidence. Immediate decongestion and rapid disinfection are obtained without possibility of harm to the delicate mucous membranes.

Medical samples available on request

ARGOTONE

NASAL DROPS

*A stabilised compound of Argyrol 1% Ephedrine 0.9%
in Normal Saline*

AN EMERGENCY BRONCHOSCOPE

Designed by
JOHN E. G. MCGIBBON,
M.B. (Lond.), D.L.O.
Squadron-Leader, A.A.F.

Vide Lancet July 26, 1941

A Bronchoscope self contained with battery in handle, dispensing with entangling cables.

The Bronchoscope was designed for Bronchial aspiration and insufflation of oxygen in cases of emergency.

The handle is provided with a finger rest to facilitate introduction, and is detachable for sterilization.

Oesophagoscopes and Bronchoscopes can be made of various lengths and calibres as desired (*see page 73, Catalogue of Laryngology*). That illustrated above is 40 cm. \times 10 mm.
