

News and Comments

The editorial staff would like to extend our warm thanks to Gary Bailey for his contributions to the *HEQ*. Gary was the Acting Managing Editor during the fall 1988 semester, when Amy Schutt was on leave. It is always difficult to step into a new position on short notice, but Gary made a difficult, multi-faceted job look easy. Gary has spent the spring semester laying the groundwork for a new ten-year index of the *HEQ*, which will cover volumes 21 to 30. We very much appreciate all of his contributions over the past several months.
