

GENERAL NOTES

THE SCOTTISH OTOLOGICAL AND LARYNGOLOGICAL SOCIETY

The Society offers a prize of £20 for the best piece of Clinical or Laboratory Research Work in Oto-laryngology. The prize is open to Clinical Tutors, Clinical Assistants and House Surgeons attached to the clinics of Ordinary and Corresponding Members of the Society, and to those Members of the Scottish Society of not more than ten years' standing as specialists. Further particulars of the prize may be obtained from the Honorary Secretary, Dr. C. E. Scott, 33 Palmerston Place, Edinburgh, and all papers embodying the research work must be sent to him not later than March 1st, 1938.

On the occasion of his promotion to be a Commandeur de la Légion d'Honneur the many friends and pupils of Dr. A. Hautant (Laryngologist to l'Hôpital Tenon and to l'Institute Curie) have decided to present him with a bronze plaque bearing his effigy, as a token of their affection and gratitude. The execution of this bas-relief has been confided to the well-known artist, M. Dammann. Any friend who would like a copy of it can obtain one on sending 100 francs to: M. Georges Masson, Éditeur, 120 Boulevard Saint-Germain, Paris, VI.

UNIVERSITY OF LONDON

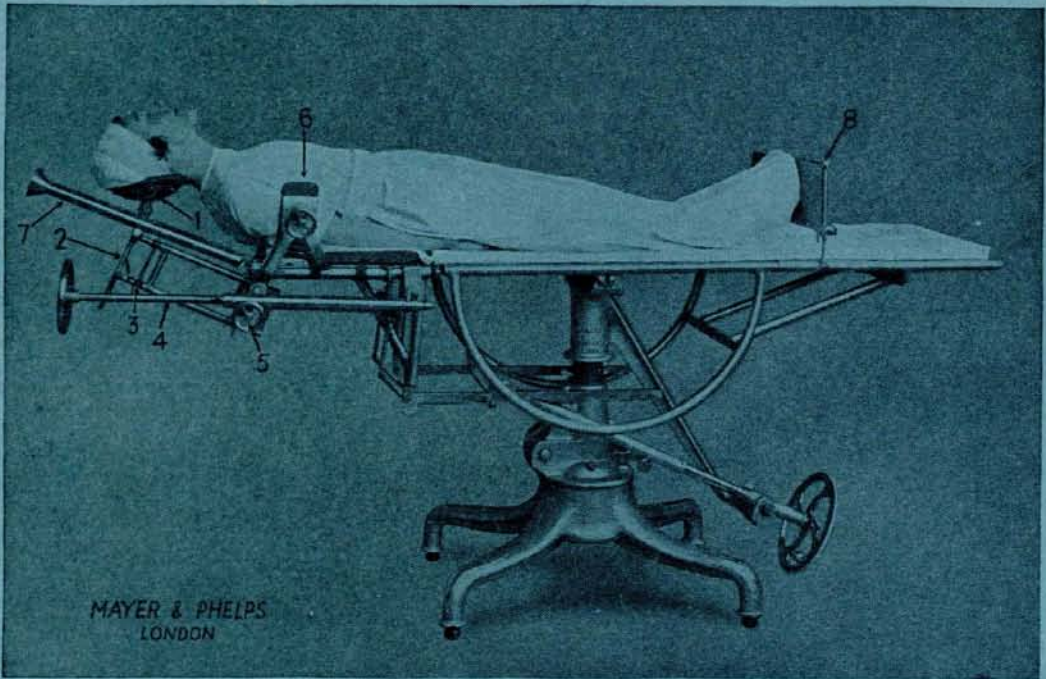

SEMON LECTURE

This Annual Lecture will be delivered on Thursday, November 4th, at 5 p.m., at the Royal Society of Medicine, 1 Wimpole Street. The lecturer, Professor Schmiegelow, of Copenhagen, has chosen as his subject, "The Surgical Treatment of Chronic Cicatricial Stenosis of the Larynx."

Peroral Endoscopy Table

Fitted with Head Rest for BRONCHOSCOPY, ŒSOPHAGOSCOPY,
NASAL OPERATIONS Etc.

Designed by V. E. NEGUS, M.S., F.R.C.S.

The head rest enables the operator himself to place the patient in the desired position for a variety of operations. All parts touched by the operator are sterilisable.

The apparatus is an elaboration of Haslinger's Bronchoscopic head rest, but its range of utility is extended to enable the patient to be supported with the shoulders beyond the end of the table for œsophagoscopy, and to be kept in the correct attitude during operations performed in the sitting or semi-sitting position.
