

General Notes

The Institute of Laryngology and Otology

in conjunction with

The Royal National Throat, Nose and Ear Hospital Trust
Gray's Inn Road, London

present a course in:

PHONOSURGERY

on Monday 11th and Tuesday 12th December 1995

Course Organiser: Mr Meredydd Harries

This course is specifically for laryngologists and will include lectures on injection techniques, laryngeal framework surgery, reinnervation procedures and spasmodic dysphonia. Practical demonstrations of botulinum toxin injections, the voice clinic, the voice laboratory and cadaveric prosection for each candidate are included. The emphasis is on surgical techniques and the course is limited to 15 places.

Cost: £295

(includes all meals and Course Dinner on the Monday evening)

For an application form please contact:

Yvonne Pugh or Carolyn Williamson

MICROSURGERY COURSE

University of Zurich

March 4-7 1996

This 4-day course is designed to provide a 3-D live video demonstration of the techniques of tympanoplasty, mastoidectomy and stapedotomy used at the ENT Department of the University of Zurich and at the House Ear Clinic, Los Angeles. Ample time is provided for discussions.

Special Guest: Derald Brackmann, MD, Los Angeles

Fee (includes coffee and lunch):

Sfr 1.200 (before November 30, 1995); Sfr 1.300 (after November 30, 1995)

THE TRUSTEES OF THE TWJ FOUNDATION

offer an

OTOLOGICAL AND RESEARCH FELLOWSHIP

for 6 months during 1996 at

THE UNIVERSITY OF MICHIGAN, ANN ARBOR, MICHIGAN, USA

To enable the holder to work under the supervision of Professor Steven Telian, the Head of the Division of Otolaryngology and Neuro-otology and to undertake research at the Kresge Hearing and Research Institute under the direction of Professor Joseph Miller

The value of the Fellowship will be £12,000.

Further details should be obtained **now** from:

The Trustees of the TWJ Foundation
c/o Mr David Wright
Consultant Otolaryngologist
Mount Alvernia Hospital
Harvey Road
Guildford, Surrey GU1 3LX

The closing date for formal applications will be Thursday, 9th November, 1995

THE UNIVERSITY OF ADELAIDE AND THE FLINDERS UNIVERSITY OF SOUTH AUSTRALIA invites applications from both women and men for the position of Professor of Otolaryngology Head and Neck Surgery available immediately in the **DEPARTMENT OF SURGERY, The Queen Elizabeth Hospital, The University of Adelaide**. The roles of the Professor include providing leadership within the specialty in South Australia, leading of research activities in the Department, providing high level specialist services to The Queen Elizabeth Hospital, Lyell McEwin Hospital and Flinders Medical Centre, supervising the teaching programs and participating in the postgraduate training programs of the two Universities. The current interests of the Department include sinus surgery, otology, head and neck surgery, voice disorders, laryngology and phonosurgery. Applications would be welcomed from surgeons with a distinguished record of research and clinical activity in any major branch of OLHN surgery.

The successful applicant will have the status of a Head of Unit at The Queen Elizabeth Hospital. Adequate laboratory space and research facilities will be provided as well as initial hospital-funded technical support. The appointee must have medical qualifications which are registrable in South Australia and which will enable registration as a specialist surgeon. Provision is made for up to 20% of the appointee's time to be available for private practice in accordance with the University's rules relating to the practice of a discipline. Further information concerning the duties of the position, including selection criteria, should be obtained from Professor DB Frewin, Dean of the Faculty of Medicine, telephone (61 8) 303 5193, or Professor GJ Maddern, Director, Division of Surgery, telephone (61 8) 222 6756. Annual Salary: AUS\$80,176 per annum plus a clinical loading of AUS\$13,878 per annum. In addition, the South Australian Health Commission provides a salary supplement to bring the income of Professors undertaking approved specialised patient services, to an equivalent level to the full time hospital consultant salary scale. They will also be eligible for on call and recall payments.

APPLICATIONS IN DUPLICATE, quoting reference number 4852, giving personal particulars (including whether candidates hold Australian permanent residency status), details of academic qualifications and names and addresses of three referees should reach the Director, Personnel Services, University of Adelaide, Australia 5005, Facsimile (61 8) 303 4353 not later than 31 October 1995. **THE UNIVERSITY IS AN EQUAL OPPORTUNITY EMPLOYER.**

INTERMARKET

HEAD, NECK & FACIAL PAIN SYMPOSIUM

BRIGHTON CENTRE

22nd–24th May 1996

The multidisciplinary meeting will for the first time bring together the many specialists that deal with the difficult problem of head, neck and facial pain. The aim of the symposium is to develop an understanding across speciality boundaries.

The symposium will be of interest to everyone involved in anaesthesia (pain control), base of skull surgery, dentistry, neurology, neurosurgery, maxillo-facial, oral surgery, ophthalmology, otolaryngology, psychiatry and psychology. Formal Lectures have been organised and we would like to call free papers and poster demonstrations.

SPEAKERS

Dr David Boucher
Dr Charles Gauci
Mr Richard Juniper
Miss Valerie Lund
Dr Turo Nurmikko
Professor Mark Sindou
Mr John Wright

Mr Alan Crockard
Miss Elizabeth Graham
Professor Philip Lamey
Dr Henry McQuay
Dr Charles Pither
Professor Bernard Smith
Dr Joanna Zakrzewska

Dr Charlotte Fienmann
Professor Robert K Jackler
Mr Brian Little
Mr John Miles
Professor Richard Ramsden
Professor Janet Wilson

TOPICS

Management of cancer pain
Atypical facial pain
Migraine
Spinal instability pain
ENT pain
Oro-facial pain

Trigeminal Neuralgia
Post herpetic pain
TMJ pain
Base of skull lesions
Orbital pain

For preliminary registration form contact the symposium co-ordinators:

Robert Tranter, Carl Hardwidge
c/o HNFPS

Fax: 01273 323882

The European Society of Head and Neck Radiology was founded in Antwerp in 1987. Annual Meetings are held in a different European country in rotation with a joint meeting with the American Society of Head and Neck Radiology on alternating sides of the Atlantic every third year. The next meeting will be in Groningen in the Netherlands, October 12–14, 1995. The year after is the first meeting in England at Warwick University, Coventry, September 1–4, 1996.

Anyone wishing further information should contact Dr Peter D Phelps at The Royal National Throat, Nose and Ear Hospital, Gray's Inn Road, London WC1X 8DA.

INTERNATIONAL SYMPOSIUM ON OCCUPATIONAL RHINITIS

Monday 16 October 1995

at the Viking Moat House Hotel, North Street, York

Organised by the Departments of
Otolaryngology, Freeman Hospital &
Sunderland Hospital Group and support
by ASTA Medica Limited

International research workers, clinicians and legal experts will gather together to further promote understanding of this condition.

Faculty includes: Mr M Cinnamond (Belfast)
Dr P Ruoppi (Finland)
Dr M Hytonen (Finland)
Dr J Neilsen (Sweden)
Prof J Birchall (Nottingham)
Mr F W Stafford (Sunderland)
Dr C Denton (Newcastle upon Tyne)

The attendance fee is £125

Numbers will be limited so if you would like to attend please contact:

Secretary to Mr A R Welch
Freeman Hospital, Newcastle upon Tyne

THE SIXTEENTH EUROPEAN INSTRUCTIONAL COURSE ON 'TINNITUS AND ITS MANAGEMENT'

to be held at the University of Nottingham

April 14-18 1996

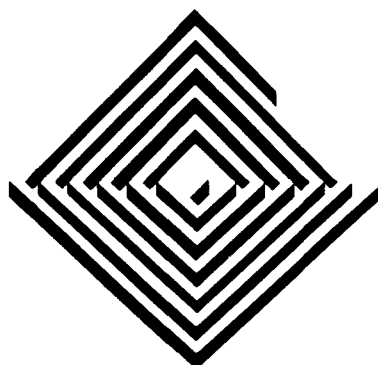

The sixteenth annual course addresses the causes, scientific background, investigation, and management of tinnitus. It will consist of lectures with case discussions, practical demonstrations, and a workshop session. The course is suitable for otologists, audiological physicians, scientists, technicians and hearing therapists involved in, or planning to become involved in, clinical or research work on tinnitus. The course fee of £500 includes comprehensive notes, accommodation in a University hall of residence for four nights, lunches, two dinners and the course dinner. Numbers will be strictly limited to 48 delegates.

The course organiser is Jonathan Hazell (Middlesex Hospital and RNID, London). The faculty comprises Ross Coles and Adrian Davis (MRC Institute of Hearing Research, Nottingham), David Baguley (Addenbrooke's Hospital, Cambridge), Jean Baskill and Altan Kayan (Nottingham Tinnitus Clinic), Terry Buffin (Cheltenham, formerly Sheffield), Laurence McKenna (Royal National Throat, Nose and Ear Hospital, London), Jacqueline Sheldrake (32 Devonshire Place, London W1), Catherine McKinney (Middlesex Hospital and RNID, London) and Dafydd Stephens (Welsh Hearing Institute, Cardiff). The course administrators are Diana Field (University of Nottingham School of Audiology) and Dianne Rooksby (University of Nottingham).

For persons who have attended one of the previous courses on 'Tinnitus and its Management', a one-day refresher course is also held in May of each year in London. This alternates between a 'Tinnitus Update Lecture Course' and a 'Colloquium on Practical Problems in Tinnitus'.

This event is being organised in collaboration with the Office for Professional and Industrial Training (OPIT) at the University of Nottingham and the course is assisted by European Social Funding. Details of registration can be obtained from:

- Instructional courses
- Poster sessions
- Video sessions
- Panel discussions

CALL FOR PAPERS

Instructions to Authors

Review Articles. Articles of this type, preferably not exceeding 3,000 words will be considered but the author(s) are expected to be a recognized authority on the topic and have carried out work of their own in the relevant field.

Historical Articles. Articles of this type are generally encouraged, but it is obvious that they have to provide some new information or interpretation, whether it be about a well-known person or for example an instrument associated with him, but those from within a Hospital's own department who have made a hitherto less well-known contribution would be welcome.

Letters to the Editor. This feature has been re-introduced to give those who wish to comment about a paper previously published within the Journal, an opportunity to express their views. Wherever possible, the original author is asked to add his further comment, thereby adding to the value of the contribution. Such letters should be sent as soon as possible after publication of each month's issue of the Journal in the hope of including them early thereafter.

'Mini-papers', such as those which appear in the British Medical Journal, Lancet, or New England Journal of Medicine, will not be acceptable except on the rare occasion that they bring information of immediate interest to the reader.

Pathology. Articles which are of pathological interest with particular emphasis on the way the diagnosis was achieved now appear on a monthly or bimonthly basis. It is hoped that clinicians will involve their pathologists in these reports, and all illustrations must be of first-class quality. Where a department, particularly those overseas, may not have such specialized facilities. It may be possible, if a block or several unstained sections are provided for our Adviser to produce or supplement the illustration submitted. Only contributions of particular pathological interest will be accepted.

Radiology. Short reports on cases in which the radiology has been crucial in the making of the diagnosis or the management of a particular case now appear on a monthly or bimonthly basis. This spot is to encourage clinicians and radiologists to produce material of particular interest in the specialty and to encourage co-operation in this field. Only presentations with first-class illustrations can be accepted and these must emphasize a problem of unusual clinical interest.

Short Communications. This feature will be used on an occasional basis. Examples of material suitable for inclusion under this title would be, for example, a piece of work which was of clinical interest but had failed to produce findings which were of statistical significance; where an investigative technique has been applied to an allied field, not warranting a further in-depth description of its earlier application and methodology.

'**Silence in Court**'. Articles on medicolegal topics are welcome but a preliminary letter written beforehand is requested to ensure that the contribution would be appropriate.

Check List for Authors/Secretaries

1. Title page—Titles should be short with names of the authors, higher degrees only and the city/country. Details of the departments in which the authors work should be put lower down.
An address for correspondence should be supplied together with the author who should receive this; this will ultimately appear beneath the list of references. If the paper was presented at a meeting, the details of this must be given and will be inserted at the bottom of the first page of the printed script.
2. Abstract—No paper will be accepted without this and it adds considerably to the Editor's time to have to write and request this if the paper is accepted.
3. Key Words—only those appearing as Medical Subject Headings (MeSH) in the supplement to the Index Medicus may be used; where appropriate word(s) are not listed those dictated by common sense/usage should be supplied.
4. To follow the instructions to Authors with the way in which the paper is set out. It is preferred that each section should start on a fresh page with double spacing and wide margins.
5. References must be in the Harvard system; to submit a paper using the Vancouver system is automatically to have it returned or rejected.
6. Two sets of illustrations must be included, one of half-plate size and the other with the width of 80 mm. Illustrations must be clearly labelled with the author's name on the reverse side and where appropriate with an arrow to give orientation.
7. Authors to check manuscript and references to see that these match up particularly for dates and spelling.
8. Title of Journals must be given in full with the date, volume number and first and *last* pages.
9. Consent to be obtained from a patient if a photograph of their face is to be reproduced.
10. If the author to whom correspondence is to be directed changes his address, he should let the Editorial Office know as soon as possible.
11. Page proofs will normally be sent out one month in advance and must be returned as soon as possible.
12. Authors should provide a Facsimile number (FAX) whenever possible to speed communication. The FAX number of the Editorial office is 01483 451874.
13. Manuscripts with tables only may be transmitted by FAX; those with graphic or visual illustrations, e.g. graphs, X-rays, pathology, electrical records (ENG, BSER etc) must continue to be sent by post as the quality of reproduction does not give sufficient accuracy of detail.

The Journal of Laryngology and Otology

Vol 109

September 1995

Main Articles

- Nonsurgical management of surgical otitis media with effusion: *R. M. Rosenfeld* 811
- Management of retraction pockets of the pars tensa in children by excision and ventilation tube insertion: *R. M. Walsh, J. P. Pracy, L. Harding, D. A. Bowdler* 817
- A new incision for placement of cochlear implants: *W. P. R. Gibson, H. C. Harrison, C. Prowse* 821
- An approach to the audit of tinnitus management: *M. Sadlier, S. D. G. Stephens* 826
- Variation of expression of the gene for type 2 neurofibromatosis: absence of a gender effect on vestibular schwannomas, but confirmation of a preponderance of meningiomas in females: *D. G. R. Evans, V. Blair, T. Strachan, R. H. Lye, R. T. Ramsden* 830
- Objective measurement of the benefit of walking sticks in peripheral vestibular balance disorders, using the sway weigh balance platform: *V. Nandapalan, C. A. Smith, A. S. Jones, T. H. J. Lesser* 836
- Topical active H₁-antihistamines and their effect on nasal airway resistance: *R. J. van Houten, D. J. Premachandra* 841
- The value of radiological investigations in pre-endoscopic assessment of children with stridor: *P. M. J. Tostevin, R. de Bruyn, A. Hosni, J. N. G. Evans* 844
- Punctate diathermy of the soft palate: a new approach in the surgical management of snoring: *D. J. Whinney, P. A. Williamson, P. G. Bicknell* 849
- Fine-needle aspiration cytology of submandibular gland lesions: *T. Atula, R. Grénman, P. Laippala, P.-J. Klemi* 853
- Broncho-alveolar lavage in chronic upper respiratory tract infections: *H. Zeitoun, W. El-Husseiny, M. El-Sawi, M. A. Mandour* 859

Short Communication

- The modified Valsalva manoeuvre to improve visualization of the hypopharynx during flexible nasopharyngoscopy: *P. D. R. Spraggs, M. L. Harries* 863

Clinical Records

- Intrapetrous carotid artery aneurysm presenting as epistaxis and otalgia: *G. K. Banfield, P. F. Brasher, J. A. J. Deans, P. G. Barker, W. J. Taylor* 865
