

The background of the advertisement is a dark, monochromatic photograph of several jellyfish. The jellyfish are illuminated from below, creating a glowing effect against the dark water. They are scattered throughout the frame, with some in the foreground and others in the background, creating a sense of depth. The jellyfish have a translucent, bell-shaped body with numerous small, white spots or tentacles visible. The overall mood is serene and scientific.

Life Sciences

Books and Journals from
Cambridge University Press

Cambridge is one of the leading publishers in ecology and conservation biology and publishes high quality texts and research across the breadth of the life sciences, focusing particularly on animal behaviour, biological anthropology, evolutionary biology, computational and systems biology, as well as statistics and professional development titles for biologists.

We also have an extensive portfolio of established journals in agriculture, ecology and conservation, and animal science.

Instructions for Contributors

Bird Conservation International publishes papers and communications on subjects relevant to the conservation of birds, with a general preference for those addressing international or high national priorities.

Submission of manuscripts. Electronic versions of papers should be submitted online at <https://www.cambridge.org/bci> or, in exceptional circumstances, via email to bcieditor@bto.org. Please follow the guidelines in the Instructions for Authors.

Proofs. The corresponding author will receive, by email, page proofs for checking which they are required to return within three days of receipt. Textual changes in proof cannot normally be countenanced and the publisher reserves the right to charge authors for excessive correction of non-typographical errors.

Copyright. Authors of articles published in the journal assign copyright to BirdLife International (with certain rights reserved) and a copyright assignment form will be sent to the author for signature on acceptance of a paper.

Printed in the UK by Bell & Bain

This journal issue has been printed on FSC-certified paper and cover board. FSC is an independent, non-governmental, not-for-profit organization established to promote the responsible management of the world's forests. Please see www.fsc.org for information.

Bird Conservation International

Contents

Rapid Communication

- The intertidal wetlands of southern Jiangsu Province, China – globally important for Spoon-billed Sandpipers and other threatened waterbirds, but facing multiple serious threats
He-Bo Peng, Guy Q. A. Anderson, Qing Chang, Chi-Yeung Choi, Sayam U. Chowdhury, Nigel A. Clark, Xiaojing Gan, Richard D. Hearn, Jing Li, Elena G. Lappo, Wenliang Liu, Zhijun Ma, David S. Melville, James F. Phillips, Evgeny E. Syroechkovskiy, Menxiu Tong, Songling Wang, Lin Zhang and Christoph Zöckler 305

Using atlas data for conservation

- Estimating conservation metrics from atlas data: the case of southern African endemic birds
Alan T. K. Lee, Res Altwegg and Phoebe Barnard 323
- Atlas data indicate forest dependent bird species declines in South Africa
Tessa J. G. Cooper, Andrew M. Wannenburgh and Michael I. Cherry 337

Research papers

- Diet selection by wintering Lesser White-fronted Goose *Anser erythropus* and the role of food availability
Ilias Karmiris, Savas Kazantzidis, Panagiotis Platis and Thomas G. Papachristou 355
- Migration patterns and seasonal forest use by birds in the Brazilian Pantanal
João Batista de Pinho, Mônica Aragona, Karlo Yoshihiro Pioto Hakamada and Miguel Ângelo Marini 371
- Distribution and habitat description of Junin Rail *Laterallus tuerosi*, Andean Peru
Lars Dinesen, Alan Chamorro, Jon Fjeldså and Constantino Aucca 388
- A multi-scale analysis of habitat selection in peripheral populations of the endangered Dupont's Lark *Chersophilus duponti*
Cristian Pérez-Granados, Germán M. López-Iborra and Javier Seoane 398
- Micro-habitat selection and population recovery of the Endangered Green Peafowl *Pavo muticus* in western Thailand: implications for conservation guidance
Niti Sukumal, Simon D. Dowell and Tommaso Savini 414
- Testing for errors in estimating bird mortality rates at wind farms and power lines
Miguel Ángel Farfán, Jesús Duarte, John E. Fa, Raimundo Real and Juan Mario Vargas 431
- Assessing the impact of mowing on Common Redshanks *Tringa totanus* breeding on saltmarshes: lessons for conservation management
Klaus-Michael Exo, Arndt H. J. Wellbrock, Julia Sondermann and Martin Maier 440
