DAVIS DIMMER ”

NO COIL BURNOUT WITH A DAVIS DIMMER

Because . . . the Davis Commutator-type coil replaces flimsy wire windings with silver-plated “C” stampings, a construction that is the key to long life and cool operation. The patented Davis Auto-Transformer MULTI-DIMMER coil has been the heart of the DAVIS DIMMERS for more than seven years. During that time, not one has had to be returned for replacement. With this service record, you KNOW your DAVIS DIMMER will operate when you need it! Not even untrained high school students have been able to burn one out.

“The Lunts are theatre

—theatre at its glittering best. No acting team in the history of our stage has equalled them in the dazzling perfection of their work. They are engaging human beings too, who have met all the outstanding figures of our times. One of the many virtues of Maurice Zolotow's *STAGESTRUCK* is that it enables readers to go gaily trooping with the Lunts through their lives and their careers. Capturing the quality of the theatre in performance, or of such personalities as the Lunts and their friends, is not easy. But Mr. Zolotow makes it seem so. His book is in itself a delightful theatrical experience.”

STAGE DESIGN

STAGE DESIGN THROUGHOUT THE WORLD SINCE 1950

by **Rene Hainaux and Yves-Bonnat**

"This second volume of stage designs to be published for the International Theatre Institute under the auspices of UNESCO includes examples of designs from 33 countries throughout the world, including East Germany and the U.S.S.R. . . . Persons in every phase of the theatre will find much stimulation and suggestion in this valuable and handsome collection."—*Library Journal*. "As for the designs in the book, they constitute a rich collection, with the emphasis on scenery that breaks away from literalism and tradition. Bridges, steps, skeletal buildings, and ships dominate. And abstraction appears to be the prevailing trend. . . . In addition to the reproductions, this book includes a well-documented inquiry into new materials and methods, and a 'Who's Who in Stage Design.' These features plus the reproductions make this book essential to all who work in the theatre."—*Saturday Review*. 9½ x 12 inches; 276 pages in all, including 56 pages of text, 190 pages of black and white illustrations, 16 pages in full color, on heavy coated paper, and with a stout binding. **\$25.00**

STAGE DESIGN THROUGHOUT THE WORLD SINCE 1935

by **Rene Hainaux and Yves-Bonnat**

Out of print for a number of years, this "book of beauty and practicality" is now reissued in its original luxurious format. "From its provocative foreword by Jean Cocteau, to its final multiple indexing, this pictorial treasury of recent international experiments in scenic design (1935-1950) will be a joy to anyone interested in theatre. . . . The illustrations, which make up the bulk of the volume, are not only excellent reproductions, but include designs for operas and ballets as well as plays."—*Players*. "Rarely has there been a more beautiful and engrossing book."—*Dramatics*. 224 pages, 176 of illustrations, 35 in full color; 9½ x 12 inches. Third Printing. **\$25.00**

THE OXFORD CHEKHOV

*Volume III: Uncle Vanya,
Three Sisters, The Cherry
Orchard, The Wood-Demon*

Translated and edited by RONALD HINGLEY. This is the first volume to be published in the *Oxford Chekhov*, a series to be completed in nine volumes, all translated by Mr. Hingley. Volume III contains a new translation of the last three plays which Chekhov wrote, with *The Wood-Demon*, which was to some extent a draft of *Uncle Vanya*. The chief object of this translation is to produce versions for the stage, as well as for reading. The translations are accurate and modern without being slangy. The volume contains a preface, introduction, appendixes, and a bibliography. \$10.00
