The Nutrition Society has as its object the advancement of the scientific study of nutrition and its application to the maintenance of human and animal health.

Membership is open to any whose work has contributed to the scientific knowledge of nutrition, whether such work has been in the laboratory, the field or the clinic, and whether experimental, clinical, agricultural or statistical in nature.

Particulars of The Nutrition Society and application forms for membership may be had from the Honorary Secretary, Dr G. L. S. Pawan, Metabolic Division, Department of Medicine, The Middlesex Hospital Medical School, London W1P 7PN.

The *Proceedings of The Nutrition Society*, published by the Cambridge University Press, in part record meetings of the Symposium type, at which experts in a particular field are invited by Council to make contributions on specific parts of it and at which general discussion follows these invited contributions. The contributions will be published *in extenso*; such summaries of the ensuing discussions as circumstances warrant may also be published. The Society also holds scientific meetings at which papers are communicated by members and others on original work carried out by them. It is proposed at present to publish summaries of the papers read at each meeting, each communication being recorded in the Society's *Proceedings* by means of an abstract not exceeding in length 400 words or the equivalent space in print. The *Proceedings* are published three times a year.

The *British Journal of Nutrition* is published once every two months by the Cambridge University Press for The Nutrition Society, which owns it and controls its publication. It is devoted to reports of original work in all branches of nutrition, the term 'original work' not implying that the papers must invariably be based on new facts. The *British Journal of Nutrition* does not print reviews of the literature or polemical articles, but the Editorial Board is willing to consider original articles critically re-examining published information and the conclusions drawn from it. A volume consists of three parts and two volumes appear each year.

Subscriptions to the Society's Publications. For non-members of The Nutrition Society the subscription to the *Journal*, including postage, is £18.00 net per annum, payable in advance to Cambridge University Press, Bentley House, 200 Euston Road, London NW1 2DB, or to any bookseller. The subscription in U.S.A. and Canada is US \$60.00, and inquiries there should be addressed to Cambridge University Press, American Branch, at 32 East 57th Street, New York, N.Y. 10022. Single issues are £4.00 (US \$12.00 in U.S.A. and Canada); postage extra.

The annual subscription to the *Proceedings* is £9.00 net (US \$30.00 in U.S.A. and Canada); single issues £4.00 (US \$12.00 in U.S.A. and Canada) each; postage extra.

A claim for the replacement of a publication lost in transmission will not be entertained if it is received more than 3 months after the date of posting.

Second class postage paid at New York, N.Y.
