

Acknowledgments to Reviewers

A great thanks to the scholars, legal practitioners, and reviewers whose incisive and careful assessments allow *Law & Social Inquiry* to publish high-quality and robust research. Amid difficulties both minor—ScholarOne-related technical difficulties—and devastating—the loss of family members, colleagues, and friends to the Covid-19 pandemic—the people listed below fielded 1,014 requests to review 184 manuscripts in the past year alone. We, and the authors who entrust their work to *LSI*, owe the deepest debt to those who found the hours to read, review, and improve our manuscripts, between managing their children’s homeschooling, testifying in Congress, and producing their own scholarship.
