## Cover Artwork

*Nautilus*, Photograph by Carol Seefeldt

“Photos that capture and preserve the beauty of God’s Creation” is the mission of Seefeldt Photography. Carol was first drawn to photography as she watched her mother develop those black and white images in their basement darkroom. It was a fascination that has stuck. Carol’s interest in nature and travel were the subjects of much of her early work. She has since branched out to fine art and digital art, which she portrays via her own prints on many different medium and sizes.

Carol has also self-published several books, the most recent being: *Superior Serenity* that is available on Amazon.com. Fine art printing of not only her own work, but that of many other artists, keeps her printers humming.

Her work is currently on display in three art galleries: Stillwater Art Guild Gallery, Stillwater, Minnesota USA; The Art Preserve Gallery in White Bear Lake Minnesota, and at the Up North Gallery in Lindstrom, Minnesota. Her work can be seen on line at: [www.SeefeldtPhotography.com](http://www.SeefeldtPhotography.com) and at [Fine Art America.com](http://FineArtAmerica.com)

**Aims and Scope:** The mission of *Prehospital and Disaster Medicine* (PDM) is the distribution of information relevant to the practice of out-of-hospital and in-hospital emergency medical care, disaster health, and public health and safety. PDM provides an international forum for the reporting and discussion of scientific studies, both quantitative and qualitative, that have relevance to the above practices. The major objectives are: (1) the improvement of the types and quality of the care delivered to patients with perceived medical emergencies and to victims of multi-casualty accidents or disasters, including the public health and safety aspects of such events; and (2) the prevention and/or mitigation of the occurrence of such events and of the effects of these events upon the human population and environment.
