Email: marjukka.makela@thl.fi

**Aims and Scope:** The *International Journal of Technology Assessment in Health Care* has as its specific scope of interest the generation, evaluation, diffusion, and use of health care technology. It addresses the diverse audience of health care providers within medicine, public health, nursing, and the allied health professions; decision makers in government, industry, and health care organizations; and the scholarly disciplines such as ethics, economics, law, history, sociology, psychology, and engineering. The journal aims to fill the needs of those interested in the complexities of interaction between people and technology; technology as a force in social and organizational change; and technology as it is created, produced, applied, and paid for. It examines descriptively and analytically the effects of technology as perceived from the vantage point of different academic disciplines and policy-making organizations and examines methods necessary to conduct studies and evaluations of technology.

The focus of the journal is the international health care community. The experience of different countries in their encounter with health care technology, viewed comparatively, is invaluable to understanding its effects. Further, it is important to establish ties with the scholars, governments, and private institutions concerned with health care technology so that the experiences and learning of the international community in its parts can benefit the whole. The use of technology in health care has created some of the major dilemmas in society today. The journal serves as a forum for the wide range of professionals interested in the assessment of medical technology, its consequences for patients, and its impact on society.

**Publishing, Advertising, and Subscription Offices:** Cambridge University Press, 32 Avenue of the Americas, New York, NY 10013-2473, U.S.A. (for U.S.A., Canada, and Mexico); or Cambridge University Press, The Edinburgh Building, Shaftesbury Road, Cambridge CB2 8RU, UK (for U.K. and elsewhere).

**2012 Subscription Information:** *International Journal of Technology Assessment in Health Care* (ISSN 0266-4623) is published quarterly in January, April, July, and October by Cambridge

University Press, 32 Avenue of the Americas, New York, NY 10013-2473; Cambridge University Press, The Edinburgh Building, Shaftesbury Road, Cambridge CB2 8RU, UK. Annual institutional subscription rates for Volume 28 (2012): Print and online US \$580.00, online only US \$485.00, and print only US \$545.00 in the U.S.A., Canada, and Mexico; Print and online UK £327.00, online only UK £278.00, and print only UK £303.00 elsewhere. Individual rates: Print and online US \$281.00 and print only US \$255.00 in the U.S.A., Canada, and Mexico; Print and online UK £164.00 and print only UK £144.00 elsewhere. Prices include postage; air mail or registered mail is extra. Single part: US \$152.00 in the U.S.A., Canada, and Mexico; UK £86.00 elsewhere. Back volume prices are available upon request. *International Journal of Technology Assessment in Health Care* and other Cambridge journals can be found at <http://journals.cambridge.org>

## CONTENTS

### EDITORIAL

- 347 Should the decision-making process of reimbursing medicines be improved?  
*J. Martikainen*

### POLICIES

- 349 Similarities and differences between five European drug reimbursement systems  
*Margreet Franken, Maité le Polain, Irina Cleemput, and Marc Koopmanschap*
- 358 European drug reimbursement systems' legitimacy: Five-country comparison and policy tool  
*Irina Cleemput*
- 367 Key informants' perceptions of how PHARMAC operates in New Zealand  
*Rajan Ragupathy, June Tordoff, Pauline Norris, and David Reith*
- 374 Interaction initiatives between regulatory, health technology assessment and coverage bodies, and industry  
*Katrine Frønsdal, Franz Pichler, Logan Mardhani-Bayne, Chris Henshall, John-Arne Røttingen, Berit Mørland, and Marianne Klemp*

### ASSESSMENTS

- 382 Cost-effectiveness of oral triptans for acute migraine: Mixed treatment comparison  
*Christian Asseburg, Piia Peura, Tuija Oksanen, Juha Turunen, Timo Purmonen, and Janne Martikainen*
- 390 Benefits of pharmaceutical innovation: The case of simvastatin in Canada  
*Nguyen Xuan Thanh, Andy Chuck, Arto Ohinmaa, and Philip Jacobs*
- 398 Shortened peginterferon and ribavirin treatment for chronic hepatitis C  
*Debbie Hartwell, Jeremy Jones, Louise Baxter, and Jonathan Shepherd*
- 407 An economic model of school-based behavioral interventions to prevent sexually transmitted infections  
*Keith Cooper, Jo Picot, Jeremy Jones, Josephine Kavanagh, Angela Harden, Elaine Barnett-Page, Andy Clegg, Debbie Hartwell, Geoff Frampton, and Alison Price*
- 415 Cost-effectiveness of computed tomography colonography in colorectal cancer screening: A systematic review  
*Paul Hanly, Mairead Skally, Helen Fenlon, and Linda Sharp*
- 424 Impact of computed tomography coronary angiography on other diagnostic tests  
*Elena Berti, Laura Maria Beatrice Belotti, Filippo Cademartiri, Tiziana Giovannini, Rossana De Palma, and Roberto Grilli*
- 429 Cost-effectiveness of cardiac resynchronization therapy: Perspective from Argentina  
*Rosana Poggio, Federico Augustovsky, Joaquín Caporale, Vilma Irazola, and Santiago Miriuka*
- 436 Cost-utility analysis of liraglutide versus glimepiride as add-on to metformin in type 2 diabetes patients in China  
*Lan Gao, Fei-Li Zhao, and Shu-Chuen Li*
- 445 Implementation of local/hospital-based health technology assessment initiatives in low- and middle-income countries  
*Randa Attieh and Marie-Pierre Gagnon*

## METHODS

- 452** Making processes reliable: A validated PubMed search strategy for identifying new or emerging technologies  
*Leonora Varela-Lema, Jeanette Punal-Riobóo, Beatriz Casal Acción, Alberto Ruano-Ravina, and Marisa López García*
- 460** Development and test of a decision support tool for hospital health technology assessment  
*Laura Sampietro-Colom, Irene Morilla-Bachs, Santiago Gutierrez-Moreno, and Pedro Gallo*

**466**
