

University of York

4-6 JULY 1990

HEALTH IMPLICATIONS OF NUTRIENT-GENE INTERACTIONS

Chairman: C. BOUCHARD, Laval University

- Possible dietary factors in the induction of diabetes and its inheritance in man, with studies in mice. *John M. Stowers & Stanley B. W. Ewen* 287-298
Atopy, allergy and the alimentary canal. *Elsbeth Young* 299-303
Fructose intolerance: diet and inheritance. *Timothy M. Cox* 305-309

University of York

4-6 JULY 1990

RECENT RESEARCH ON THE PLACENTA

Chairman: P. J. AGGETT, University of Aberdeen

- Current perspectives on placental development and its integration with fetal growth. *J. M. Bassett* 311-319
Energy and substrate requirements of the placenta and fetus. *William W. Hay Jr.* 321-336
Placental transport studied by means of isolated plasma membrane vesicles. *C. A. R. Boyd* 337-343
Perfusion of isolated human placenta. *K. R. Page* 345-347
Human placental trophoblast culture: one-sided and two-sided models. *David L. Bloxham* 349-354
In vivo measurements of placental transport and metabolism. *William W. Hay Jr.* 355-362
Placental corticotrophin-releasing hormone: activator of the pituitary-adrenal axis in human pregnancy. *E. A. Linton, C. D. A. Wolfe & P. J. Lowry* 363-370

University of York

4-6 JULY 1990

MODIFYING THE ENERGY DENSITY OF HUMAN DIETS

Chairman: M. ASHWELL, British Nutrition Foundation

- Determinants of energy density with conventional foods and artificial feeds. *Geoffrey Livesey* 371-382
Dietary energy density on using sugar alcohols as replacements for sugar. *Aren J. H. Van Es* 383-390
Changes in dietary energy with novel proteins and fats. *Peter N. Gillatt & S. M. Lee* 391-397
Modification of energy density with inhibitors of carbohydrate and fat digestion. *Rodney H. Taylor* 399-408

St Angela's College for Home Economics, Lough Gill, Sligo, Republic of Ireland

6-7 SEPTEMBER 1990

SLIMMING

Chairman: M. J. GIBNEY, Trinity College, Dublin

- Moderator's remarks. *J. V. G. A. Durnin* 409-412
Obesity and health: why slim? *Mary A. T. Flynn & Michael J. Gibney* 413-432
A diet for slimming? *Carol A. Bowyer* 433-440
Physiological responses to slimming. *Andrew M. Prentice, Gail R. Goldberg, Susan A. Jebb, Alison E. Black, Peter R. Murgatroyd & Erik O. Diaz* 441-458
Exercise for slimming. *J. F. Andrews* 459-471
The association of slimming with eating disorders. *Ann Leader* 473-477
The Media and slimming. *Margaret Ashwell* 479-492
The safety of dieting. *J. S. Garrow* 493-499

THE SIR DAVID CUTHBERTSON MEDAL LECTURE 1990

Armitage Centre, University of Manchester

22/23 NOVEMBER 1990

- The effects of injury and joint disease on muscle mass and protein turnover. *J. N. Alastair Gibson* 501-512

ABSTRACTS OF COMMUNICATIONS

Armitage Centre, University of Manchester

22/23 NOVEMBER 1990

- Increased metabolic rate associated with cancer cachexia in mice bearing an adenocarcinoma (MAC 16). *J. C. Day, I. D. Morris & N. J. Rothwell* 138A
Evidence for the stimulation of human tumour growth by the amino acid L-arginine. *K. G. M. Park, S. D. Heys, K. Blessing, M. A. McNurlan, O. Eremin & P. J. Garlick* 139A
The effect of inhibiting gluconeogenesis on the synthesis of glycogen and lipid in cachectic tumour-bearing rats. *D. Matthews, O. A. Obeid & P. W. Emery* 140A
Rates of synthesis of glycogen and lipid following a meal in cachectic tumour-bearing rats. *O. A. Obeid & P. W. Emery* 141A

SYMPOSIUM PROCEEDINGS

University of York

4–6 JULY 1990

NUTRIENT–GENE INTERACTIONS

Chairman: R. G. WHITEHEAD, Dunn Nutrition Unit

- Nutritional and hormonal regulation of genes for lipogenic enzymes. *Alan A. Goodridge, Dominic A. Fantozzi, Stephen A. Klautky, Xiao-Jun Ma, Cesaro Roncero & Lisa M. Salati* 115–122
Trace element–gene interactions with particular reference to zinc. *John K. Chesters* 123–129
Molecular biology and vitamin D function. *D. E. M. Lawson & E. Muir* 131–137
Genetics of obesity and human energy metabolism. *Claude Bouchard, Jean-Pierre Despres & Angelo Tremblay* 139–147

University of York

4–6 JULY 1990

FIBRE DIGESTION IN FARM LIVESTOCK

Chairman: T. E. C. WEEKES, University of Newcastle

- Effects of microbial synergism on fibre digestion in the rumen. *Burk A. Dehority* 149–159
Digestion of non-starch polysaccharides by non-ruminant omnivores. *J. C. Mathers* 161–172
Genetic modification of fibre digestion. *Harry J. Gilbert & Geoffrey P. Hazlewood* 173–186
Manipulation of fibre digestion in the rumen. *E. R. Ørskov* 187–196

University of York

4–6 JULY 1990

CLINICAL ASPECTS OF PROTEIN AND ENERGY METABOLISM

Chairman: A. J. W. SIM, United Arab Emirates

- Whole-body protein and amino acid turnover in man: what can we measure with confidence? *D. J. Millward, G. M. Price, P. J. H. Pacy & D. Halliday* 197–216
Organ-specific measurements of protein turnover in man. *Peter J. Garlick, Stephen D. Heys, Margaret A. McNurlan & Jan Wernerman* 217–225
Measurement of energy expenditure: the doubly-labelled-water method in clinical practice. *W. A. Coward* 227–237
Indirect calorimetry in critical care. *James L. Mullen* 239–244

University of York

4–6 JULY 1990

MICRONUTRIENTS AND THE IMMUNE RESPONSE

Chairman: D. I. THURNHAM, Dunn Nutrition Unit

- Vitamin E and the immune response. *J. Kelleher* 245–249
Vitamin A and the immune function. *Clive E. West, Jan H. W. M. Rombout, Akke J. van der Zijpp & S. Reinder Sijtsma* 251–262
β-Carotene and the immune response. *Adrienne Bendich* 263–274
Selenium and the immune response. *R. J. Turner & Julie M. Finch* 275–285
