doi: <http://dx.doi.org/10.1017/S0022377813000524>, Published by Cambridge University Press, 28 May 2013.

A misprint occurred in equation 26 in the original article (Ur-Rahman et al. 2013). The correct equation is provided below.

$$\zeta = \epsilon^{1/2} (x - \lambda t), \quad \tau = \epsilon^{3/2} t.$$

This misprint does not affect the calculations, the figures and the discussion presented in the original article.
