

The Japanese Business Community and National Trade Policy, 1920–1942

William Miles Fletcher III

"A solid, well-researched, and thorough study of the multifarious role of the Japanese business community in international trade between the world wars. Fletcher presents a sobering, judicious interpretation of Japan's business leaders as becoming more independent-minded and forthright in asserting their own, as well as their country's, interests during a time of increasing friction in international trade."—Thomas R. Thought Reform and the Psychology of Totalism

A Study of "Brainwashing" in China

by Robert J. Lifton

With a New Preface by the Author

Robert Lifton analyzes the experiences of fifteen Chinese citizens and twenty-five Westerners who underwent "brainwashing" by the Communist Chinese government. He constructs these case histories through personal interviews and outlines a thematic pattern of death and rebirth, accompanied by feelings of guilt, that characterizes the process of "thought reform." In a new introduction, Lifton explores the implications of his model for the study of American religious cults.

The China Memoir of Grace Service

Edited by **JOHN S. SERVICE**

“In the roster of spunky ladies who went out to China early in this century none has written so frank, so engrossing a tale of the trials, tribulations, dangers and, yes, rewards of the missionary experience. To read Grace Service’s book is to share a forgotten yet important era of history and one which laid the groundwork for all that was to come, good and bad, in relations between China and America. The footnotes and annotations of her son, John S. Service, the distinguished China hand add illumination and depth.”—Harrison Salisbury

Studies in the Intellectual History of Tokugawa Japan

Masao Maruyama

Translated by Mikiso Hane

"The publication of *Studies in the Intellectual History of Tokugawa Japan*, Mikiso Hane's translation of Maruyama Masao's *Nihon seiji shisōhi kenkū*, makes available in English one of the most influential works on Japanese intellectual history. In the intricacy and rigor of its argument, in its sense of historical irony, in the scope of what it seeks to do, Professor Maruyama's book has perhaps no rivals in the corpus of Western-language works on Tokugawa Japan. . . ."

Five Hundred Years of Chinese Poetry, 1150–1650

The Chin, Yuan, and Ming Dynasties

Yoshikawa Kōjirō

Translated by John Timothy Wixted

"An intelligent, sensitive, and systematic introduction to Chinese *shih* poetry from 1150 to 1650—the only concise introduction, in any language, to Chinese poetry of this period. Written in an admirably lucid, accessible, and readable style, this work has been excellently translated into English. It is indeed an example of 'old-fashioned literary history at its best.'" —*Shuen-fu Lin, University of Michigan*

The Formation of Ch'an Ideology in China and Korea

The *Vajrasamādhi-Sūtra*, a Buddhist

Apocryphon

Robert E. Buswell, Jr.

"This book is an excellent piece of work, even magisterial, and it displays Buswell's considerable talents and extensive range of knowledge in a comprehensive and well-integrated fashion. His perspective on East Asian Buddhism is global, and his incorporation of Korean material at a systemic level is unprecedented and profound. His use of Korean, Chinese, and other sources is extensive and impeccable, and the argument that he develops will be a major contribution to the understanding of the development of early Ch'an Buddhism on the East Asian continent." —*John R. A Korean Storyteller's Miscellany

The *P'aegwan chapki* of Ō Sukkwōn

Translated by Peter H. Lee

"The study of the *chapki* will be a major contribution to the field of Korean literature. It presents a solid examination of Korean literature in Chinese—the language of official records in Korea until the twentieth century, of Korean communications with China, and of the high literature of Yi, Korea—as yet only sporadically treated in western languages. The analysis is broad and acute, while the translation comprises a wealth of useful material about Korea."

Shintō and the State, 1868–1988

Helen Hardacre

Helen Hardacre, a leading scholar of religious life in modern Japan, examines the Japanese state's involvement in and manipulation of shintō from the Meiji Restoration to the present. Nowhere else in modern history do we find so pronounced an example of government sponsorship of a religion as in Japan's support of shintō. How did that sponsorship come about and how was it maintained? How was it dismantled after World War II? What attempts are being made today to reconstruct it? In answering these questions, Hardacre shows why State shintō symbols are still the focus for bitter struggles over who will have the right to articulate their significance.

ONE STEP AHEAD IN CHINA

Guangdong under Reform

"A unique and fascinating study...

Vogel's earlier book on Guangdong, *Canton under Communism*, was a landmark study of revolutionary change in the Maoist period. His new book is also a landmark volume, describing the breakneck pace of change in the Dengist period."

—A. Doak Barnett
The Johns Hopkins University

"Vogel has brilliantly illuminated

Guangdong's multi-faceted relationships with the outside world, especially Hong Kong. Using intensive research combined with inspired insights, he gives a clear picture of the extraordinary interactions that have transformed that province...This valuable work will long remain essential for understanding Chinese reforms."

—Arthur Hummel
U.S. Ambassador to China, 1981-1985

"This is an exciting book that will be read widely...It will, in fact, be treated as one of the major contributions to the literature on contemporary China...[Vogel] has a clear view of what development is, derived from his knowledge of East Asia, in particular Japan, South Korea, and Taiwan...This is a very rich study."

—Thomas P. Bernstein
Columbia University

"A work of much depth and sophistication. [Vogel] presents a more comprehensive look at the nature of the reform changes in one Chinese locale than is currently available, and...manages to get down to a grass-roots view and thus corrects the problem of most works so far on the Chinese reforms, which discuss policy and intentions more than actual results."

Steven A. Hoffmann

Hoffmann offers a new case study of India's decision-making during the critical first years of the China conflict—1959 to 1963. It is a first step in finally reconciling the two conflicting views of the India-China border conflict, as well as the two interpretations of the reasons for the Sino-Indian crisis and war of 1962. \$39.95

James R. Bartholomew

In this pioneering study James R. Bartholomew argues that Japan has built a tradition of scientific research that is one of the most important in the contemporary world. He shows how Japan developed this tradition by drawing both on the resources and policies of its own late feudal Tokugawa period and on what it regarded as essential elements of American and European science.

Agents and Victims in South China

Accomplices in Rural Revolution

Helen F. Siu

When peasants live in complex agrarian societies with distinct hierarchies of power, how much are they able to shape their world? In this socio-economic, political, and anthropological history, Helen F. Siu explores this question by examining a rural community in Guangdong Province from the late nineteenth century to the present.

Chinese Clues to the Dilemma of Contemporary Education

HOWARD GARDNER

"Part memoir, part China report, Gardner's *To Open Minds* lets us glimpse at China through his own uniquely western sensibility and it is a wonderful way indeed to see that often opaque country. Probing as he does the psyche of China, he tells us more than we can ever learn in reams of political accounts."

Orville Schell, author of *Discos and Democracy: China in the Throes of Reform*

"As always, Howard Gardner opens up for us an insightful, thought-provoking view—this time of how differently creativity is viewed in China and in the United States....A more civilized reflection on the nature of education would be hard to come by."

Japanese Schooling

Patterns of Socialization, Equality, and Political Control

James J. Shields, Editor

Written by leading American and Japanese scholars, *Japanese Schooling* is uniquely informative and comprehensive, with wide-ranging and critical analyses of sensitive issues and traditional educational questions. Topics include nursery schooling, pupil violence in junior high schools, the reasons for high achievement levels in mathematics, the textbook controversy and teacher unionism, the role of large class size in teaching cooperative behavior, gender issues, and special education. One reviewer said, "The book has no equal among recently published works which in comparison avoid sharp analysis and are narrowly focused." Overall, *Japanese Schooling* shows every promise of taking a place alongside Herbert Passin's *Society and Education in Japan*. Contains an extensive bibliography of English-language sources on Japanese education published since 1972.

The Rise of Modern China

Fourth Edition

IMMANUEL C.Y. HSU, *University of California, Santa Barbara*

Praise for earlier editions: "By far the best general history of modern China that exists—rich in colorful and pointed detail, widely learned, based on a vast range of sources, competently written, and often quite penetrating." —*Perspective*. "Sound and rewarding.... A major contribution to teachers of Chinese history." —*History: Reviews of New Books*. "Comprehensive, thorough, scholarly, yet eminently readable. Hsü's mastery of the subject matter is evident throughout." —Dilip Basu, *University of California, Santa Cruz*

The Rise of Modern China vividly describes China's extraordinary metamorphosis from a traditional self-sufficient empire into a modern nation. Immanuel C.Y. Hsü surveys the main currents of modern Chinese history from 1600 to the present, devoting particular concern to the shaping forces of China's political, diplomatic, intellectual, social, and economic history. The new Fourth Edition of this classic is brought fully up to date to reflect the current economic, political, and cultural climate in China. Informed by Hsü's lifetime study of the country and observations during recent visits, new chapters offer an inside view of the problems created by China's accelerated economic growth in the past decade, and examine the cultural impact of Deng Xiaoping's acceptance of various Western market mechanisms to help modernize the economy. More than 100 photographs, drawings, maps, and charts illuminate the narrative, and make it of interest to general readers as well as scholars of Chinese history.

The United States and China in the Twentieth Century

Second Edition

MICHAEL SCHALLER, *University of Arizona*

Praise for the first edition: "Lucid and timely." —*The New Republic*. "A provocative, well-written survey, it is filled with colorful quotations and will appeal to ... general readers. They will also learn much from it." —*Pacific Historical Review*. The new second edition is fully revised and brought up to date to reflect the changes in U.S.-Chinese relations that came with the Carter, Reagan, and early Bush administrations, as well as the "Second Chinese Revolution" initiated by Deng Xiaoping. It includes entirely new chapters on the Nixon years, the process of normalizing relations under Carter, the tensions caused by Reagan's anti-communist rhetoric, the status of Taiwan, and the impact of the dramatic post-Mao reforms in Chinese society. The new edition also analyzes current Sino-American relations in the context of the emerging economic and strategic significance of the Pacific Basin and China's domestic turmoil.

LOSING FACE

Status Politics in Japan
SUSAN J. PHARR

"One of the most significant publications of recent years. It is remarkably successful in linking Japanese culture to real politics and micro- to macro-processes, all in a comparative perspective. This is an outstanding achievement in Japanese studies and in comparative politics, one that will be quite influential. . . . The book will be much cited in years to come."

—John Campbell, University of Michigan

How does a "homogeneous" society like Japan treat the problem of social inequality? *Losing Face* looks beyond conventional structural categories (class, race, ethnicity) to focus on conflicts based on differences in social status. Three rich and revealing case studies explore crucial asymmetries of age, sex, and former caste.

As these dramas unfold, they testify to the problems that social inferiors face in pressing grievances in a consensus society. When a conflict arises, the authorities often work to privatize it, discrediting and marginalizing the protestors. They sometimes also grant concessions to head off future protests, thereby establishing a basis for social change. The social costs of this formula for resolving conflict are obvious; the final chapter contrasts them to the basic trade-offs made by Western participatory democracies as they accommodate conflicting interests.

THE TRAVELS OF MENDES PINTO

Fernão Mendes Pinto

Edited and translated by Rebecca D. Catz

This vast chronicle, published in 1614, purports to be Pinto's autobiographical account of his adventures in Asia between 1537 and 1558. It is, in fact, an imaginative composite of fact and fiction, at once a picaresque prose epic and an authentic rendering of sixteenth-century Asia. In this first complete English translation, Catz enables modern readers to enjoy this masterpiece of the Portuguese Renaissance.

The Green Archipelago

Forestry in Pre-Industrial Japan

"A superb book on an important subject: the pulling back of Japan beginning in the late 17th century from the utter destruction of her forests—a course on which the country seemed bent in 1600—and from the ecological, economic, and social catastrophe that would have followed. The immense importance of the subject for Japanese history is obvious."—Thomas R. Smith, author of *Native Sources of Japanese Industrialization*

Every foreign traveler in Japan is delighted by the country's verdant forest-shrouded mountains, which the Japanese sometimes refer to as "the green archipelago." Yet, based on its fragile geography and centuries of extremely dense human occupation, Japan today should be an impoverished, slum-ridden, peasant society subsisting on a barren, eroded moonscape.

Totman argues that this lush verdure is not a monument to nature's benevolence and Japanese aesthetic sensibilities, but the hard-earned result of generations of human toil that have converted the archipelago into one great forest preserve. \$35.00 A Philip E. Lilienthal Book

Introducing JAPANESE LITERATURE ON FILM

*A unique teaching tool created and published
by the Japan Society (New York)*

Japanese Literature on Film is the second in a series of teaching modules (**Japanese Society Through Film**) which combine three Japanese feature films in cassette form with teaching guides. All films have English subtitles.

The films in the **Japanese Literature on Film** module are:

- Masahiro Shinoda's exquisitely beautiful **Double Suicide** (*Shinju Ten no Amijima*, 1969), a classic tale by Chikamatsu of feudal values and ungovernable love retold with a contemporary perspective.
- Hiroshi Teshigahara's intriguing **The Face of Another** (*Tanin no Kao*, 1966), a stylized rendering of Kobo Abe's fine novel focusing on the themes of dehumanization and loss of identity in contemporary society.
- Shiro Toyoda's **Snow Country** (*Yukiguni*, 1957), drawn from Nobel Prize-winning Yasunari Kawabata's novel of passionate attraction and ultimate alienation, presented with delicacy and nuance.

A detailed teaching guide has been written by *J. Thomas Rimer* of the University of Maryland, with film analyses by *Keiko McDonald* of the University of Pittsburgh.

The first module in the series, *The Japanese Family*, features Yasujiro Ozu's *Early Summer* (*Bakushu*, 1951), Mikio Naruse's *Mother* (*Okaasan*, 1952), and Yoshimitsu Morita's *The Family Game* (*Kazoku Geimu*, 1983), with a teaching guide edited by *Theodore C. Bestor*, Columbia University, and film analyses by *Donald Richie*, noted film critic.

Available from the Japan Society by phone (212) 832-1155 or by letter, 333 East 47th Street, New York, New York 10017. Modules are priced at \$225 plus \$5 shipping / handling (international addresses extra).

How do firms become motivated to adopt small-group activities? How do they acquire expertise in these activities?

Strategies for Learning

Small-Group Activities in American, Japanese, and Swedish Industry

Robert E. Cole

Cole addresses these issues through an examination of small-group activities in the United States, Japan, and Sweden during the past 25 years. He explores the differences in the willingness and ability of private sector firms to engage in building national organizations designed to assist companies adopting small-group activities. He finds that American firms have been only moderately willing to engage in such institution building while the Swedes and the Japanese have shown a far greater willingness. This is especially true of the Japanese, who have built a highly successful national organization. These striking national differences reflect the varied historical experience of each country and, perhaps more important for the future, have serious competitive implications. \$29.95

Beneath the Miracle

Labor Subordination in the New Asian Industrialism

Frederic C. Deyo

This important study examines the dynamics of the remarkable economic transformation of South Korea, Singapore, Taiwan, and Hong Kong, which has been based in large measure on the production of manufactured goods for export. The competitive edge of these countries has in turn been rooted in the mobilization of a low-cost, disciplined, and productive workforce. Deyo explains how East Asian governments and employers have attempted to manage this workforce. He also explores the extent to which workers are able to challenge management decisions and insert working-class agendas into public policy. \$30.00

The Japanese experience demonstrates not only how steep the price of success can be but also the enduring effects of culture over structure.

Japan's Administrative Elite

B. C. Koh

A major player in Japanese society is its government bureaucracy. Neither Japan's phenomenal track record in the world marketplace nor its remarkable success in managing its domestic affairs can be understood without insight into how its government bureaucracy works—how its elite administrators are recruited, socialized, and promoted; how they interact among themselves and with other principal players in Japan, notably politicians; how they are rewarded; and what happens to them when they retire at a relatively young age. Yet, despite its pivotal importance, there is no comprehensive and up-to-date study of Japan's administrative elite in the English language. Koh fills that gap. \$38.50

An Essay on Confucian Religiousness
A Revised and Enlarged Edition of
Centrality and Commonality:
An Essay on Chung-yung

Tu Wei-Ming

"Tu amplifies and clarifies the key patterns of thought in the text and succeeds in interweaving them into a richly textured and holistic Confucian Weltanschauung. I like the book because it is provocative. Tu's interpretation challenges the conventional wisdom that Confucianism is a purely rational and secular ethical system. His style is lucid—although the subject is both complex and difficult—and any intelligent general reader would enjoy the work and learn a great deal."

HISTORY AND LEGEND

Ideas and Images in the Ming Historical Novels

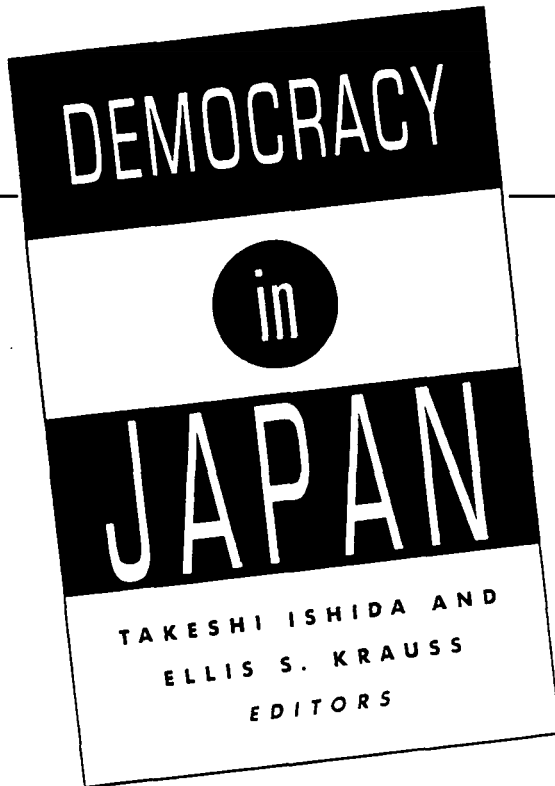

The first study of the traditional historical novels of the Ming Period from a historian's perspective. Chang compares the major ideas and images that emerge from the novels with those found in the Official Histories and the Confucian canons and analyzes the interplay between the elite cultural tradition maintained by schools and temples with that found in the popular tradition emanating from the literature of the villages. An indispensable resource for all students of Chinese history and literature.

Democracy in Japan

Takeshi Ishida and Ellis S. Krauss, Editors

Following World War II, the American Occupation created Western style democratic institutions in Japan and sought to develop a society and culture that would support a democratic political system. Now, after four decades, the successes and failures of Japanese democracy can be assessed. In closely related and readable essays, thirteen leading experts consider three main components of democracy in Japan today—political, social, and economic.

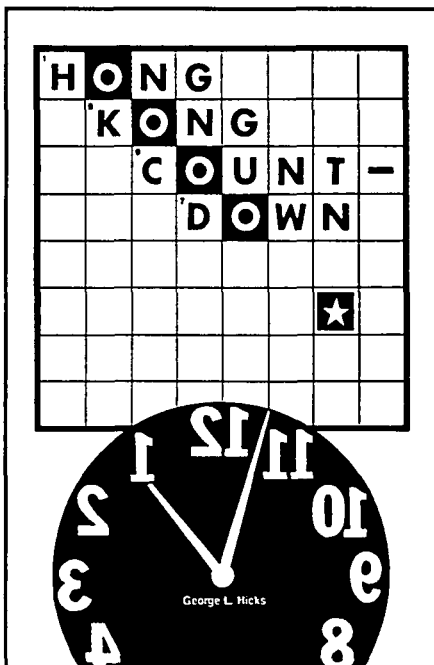

Contributors include Edward Beauchamp, Lawrence W. Beer, John Campbell, Glen S. Fukushima, Tadashi Hanami, Takeshi Ishida, Ellis S. Krauss, Terry E. MacDougall, Margaret A. McKean, T.J. Pempel, Patricia G. Steinhoff, J.A.A. Stockwin, and Christena Turner.

Takeshi Ishida is Professor Emeritus, University of Tokyo, and Professor, Faculty of Law and Economics, Chiba University. **Ellis S. Krauss** is Professor of Political Science at the University of Pittsburgh.

George Hicks

George L. Hicks is an Australian economist and businessman who is a frequent writer for the Asian Wall Street Journal. This collection of recent articles, most of which have appeared in those pages, give him excellent credentials as a man who can predict the future.

With 25 years of experience in the east Asia region he thinks the time had come to write about Asia in a way that reflects both his business experience as well as his academic interests.

"When China demanded the return of Hong Kong in 1997 no one felt it was in their interests to point out that HK as a free and prosperous city was doomed. Fear of China intimidated almost everyone whose conscience was not stifled by greed."

Rendezvous with Death

Edited by Karl D. Jackson

One of the most devastating periods in twentieth-century history was the forty-four-month-long rule of Pol Pot and the Khmer Rouge over Cambodia. Here six experts with varied experiences in Southeast Asia—as scholars, missionaries, journalists, and State Department officials—search for what can be explained in the ultimately inexplicable evils perpetrated by the Khmer Rouge. Accompanying their articles is a photo essay that provides shocking visual evidence of the tragedy of Cambodia's autogenocide.

Policies of Chaos

The Organizational Causes of Violence in China's Cultural Revolution

Lynn T. White III

Lynn White shows that the tumult of the Cultural Revolution after 1966 resulted mainly from reactions by masses of individuals and small groups to three specific policies of administrative manipulation: labeling groups, designating bosses, and legitimating violence in political campaigns. These habits of local organization were common after 1949 and gave the state success in short-term revolutionary aims, despite scarce resources and staff—but they also drove millions to attack each other later.

Peasant Society and Marxist Intellectuals in China

Fang Zhimin and the Origin of a Revolutionary Movement in the Xinjiang Region

Kamal Sheel

Focusing on the Xinjiang region, Kamal Sheel traces the historical roots of the early twentieth-century agrarian crisis that led to a large-scale revolution in the late 1920s, one of the most successful peasant movements organized by the Chinese Communists. A fresh analysis emerges of the remarkable Marxist intellectual Fang Zhimin, who used his deeply entrenched rural connections to organize the movement through a creative synthesis of traditional folk concepts with modern Marxist thought.
