Infection prevention and control in healthcare settings is a critical public health problem rapidly gaining interest.

Are you current with the latest trends and evidence?

Join SHEA Today!

Stay on top of emerging science and evidence-based strategies to prevent and control infections and to improve quality-of-care in your healthcare facility.

SHEA supports members' efforts to improve patient care and healthcare worker safety through:

- Research
- Education & Training
- Policy Development
- Evidence-based Practical Guidelines
- Mentorship and Professional Development

Southmed-EVAC HF

*A biological breakthrough for cleaning hospital
drains & traps. Southmed-EVAC HF is a ready to
use proprietary bioformulation designed specifically for
difficult drain line treatment.*

Southmed-EVAC HF's formulation incorporates specialized microorganisms in combination with biological support ingredients and essential growth factors. This unique formulation promotes improved performance in drain lines, in both aerobic and anaerobic environments. Southmed-EVAC HF incorporates an innovative proprietary inhibitory system that allows for excellent product stability but upon product dilution these inhibitory ingredients now function as essential growth stimulant that promotes superior germination and outgrowth. Southmed-EVAC HF's bioformulation accelerates digestion of fats under aerobic and anaerobic conditions that exist in drain lines. Southmed-EVAC HF outperforms leading competitive products.

Southmed-EVAC HF is specially designed to block the production of odour by naturally occurring indigenous bacterial populations. This unique formulation inhibits the normal biological production of odour causing gases (such as H₂S) that are associated with anaerobic conditions in drain lines.

- **Advanced drain line treatment & odour control!**
- **Enhanced aerobic & anaerobic performance.**
- **General organic waste degrader.**
- **An EcoLogo certified product, reviewed for safety & performance by Terra Choice Environment Canada.**
- **Inhibits the production of corrosive gases that can damage your drain lines.**
- **Available sizes: 4L, 208L**
