

JOURNAL of the AUSTRALIAN MATHEMATICAL SOCIETY

Series A — Pure Mathematics and Statistics Volume 51 Part 3 DECEMBER 1991

A. J. VAN DER POORTEN	<i>Obituary: Kurt Mahler, 1903–1988</i>	343
JÓZEF DUDEK and ANDRZEJ KISIELEWICZ	<i>Totally commutative semigroups</i>	381
ROBERT TUBBS	<i>Large transcendence degree</i>	400
G. ROUSSEAU	<i>On the quadratic reciprocity law</i>	423
LYNN MARGARET BATTEN	<i>A dual approach to embedding the complement of two lines in a finite projective plane</i>	426
CHRISTINE M. O'KEEFE and TIM PENTTILA	<i>Polynomials for hyperovals of Desarguesian planes</i>	436
BRENDAN McCANN	<i>Fitting classes based on groups of nilpotent length three with operator-isomorphic minimal nor- mal subgroups</i>	448
CHIH CHANG and GERARD J. CHANG	<i>An existence theorem for abstract stable sets</i>	468
TANG JIAN-ER	<i>Quartic normal extensions of the rational field</i>	473
NIELS GRØNBAEK	<i>Amenability and weak amenability of tensor al- gebras and algebras of nuclear operators</i>	483
JAN OKNIŃSKI and MOHAN S. PUTCHA	<i>Embedding finite semigroup amalgams</i>	489
PATRICIA JONES	<i>Zero square near-rings</i>	497
	<i>Index</i>	505

THE JOURNAL

The Journal of the Australian Mathematical Society began publication in 1959, and from 1975 has appeared in two series, Series A (Pure Mathematics and Statistics) and Series B (Applied Mathematics). Information about Series B may be found on the inside back cover.

Series A, Pure Mathematics and Statistics

Submission of research papers in pure mathematics and mathematical statistics is invited. Authors intending to submit papers for publication should prepare the typescript following the instructions below, and should send two complete copies to the Editor, or to an appropriate Associate Editor (see back cover of this issue).

Two volumes of three parts each are planned for 1991. These are Volume 50 and Volume 51. The annual subscription price to non-members is A\$205.00 (US\$160.00) for 1991.

PREPARATION OF TYPESCRIPTS

1. The author should keep a complete copy of the submitted article; the Society will not accept responsibility for any loss.

2. Each typescript should include (i) an abstract of not more than 150 words, preferably containing no formulae, and certainly containing no complicated formulae and no references, (ii) a 1991 Mathematics subject classification (Amer. Math. Soc.), (iii) if the title is long, a shortened form of it, no more than forty characters in length, including spaces.

3. The article should be typed or photocopied on high quality A4 or quarto bond paper, on one side only, with at least double spacing, and with a generous margin (at least 3 cm) all around.

4. The conventions of *A manual for authors of mathematical papers* published by the American Mathematical Society should be observed. Two alternative styles for references and quotations are described below. Authors are requested to use one and only one style consistently throughout their typescript.

STYLE 1. A typical reference in the list of references would be

T. M. Cherry (1965), "Infinite linear systems with homogeneous kernel of degree -1 ", *J. Austral. Math. Soc.* 5, 129–168.

A corresponding reference in the text would be: Cherry (1965), p. 155.

STYLE 2. A typical reference in the list of references would be

[3] L. Gröschen, "Pseudo-quasi-ergodic theorems", *J. Austral. Math. Soc.* 4 (1960), 2–3.

A corresponding reference in the text would be: Gröschen [3]; or ([3], [4], [9]); or Gröschen [2, 3]; or Gröschen [3, Theorem 1].

In either style, the list of references should be in alphabetical order of surnames of first authors.

5. Explain clearly what symbols are to be set in special typefaces (such as cursive, fraktur, script, bold) and what is required with any unusual symbols (which should wherever possible be chosen from symbols available to the printer).

6. Avoid abbreviations, such as Thm., Prop., Ex., iff, i.e., e.g., \forall , \exists , \Rightarrow , and \Leftrightarrow .

7. Authors should provide diagrams (except for category theory type diagrams), drawn to professional standards.

8. Authors are encouraged to submit their papers in \LaTeX .

Journal of the Australian Mathematical Society, Series A — Pure Mathematics and Statistics, is published bimonthly by the Australian Mathematical Society, c/-Department of Mathematics, University of Queensland, Qld. 4072, Australia. Second class postage is paid at Ann Arbor, Michigan 48106. Postmaster: Send address change notices to Dr B. D. Jones, Australian Mathematical Society, c/-Department of Mathematics, University of Queensland, Qld. 4072, Australia.
