Printed by Headley Brothers Ltd, Ashford, Kent TN24 8HH, England (Tel 0233 23131).

The Retreat, York

for Psychiatric Illnesses

Founded in 1792 by the Quaker, William Tuke, who established the tradition of concern for patients as individuals The Retreat is a 200-bedded private registered nursing home surrounded by extensive grounds on the outskirts of the historic City of York. It is easily reached by rail and motorways.

Care and treatment is offered for all types of psychiatric illness on the short or long term in a sympathetic and friendly atmosphere. Patients suffering from neuroses, psychoses, alcoholism and dementia are treated by the full-time consultant psychiatrists in surroundings suitable for their individual needs. Outpatient facilities are available by appointment with the consultant medical staff.

The Nursing Home is a registered charity and is able to offer inclusive care in shared accommodation from £29.00 per day or in single rooms at slightly increased charge. The Nursing Home is recognised by the main private patient schemes.

For further details apply to The Medical Director, The Retreat, York YO1 5BN (Telephone 0904 412551).

The Department of Mental Hygiene of The Johns Hopkins University School of Hygiene and Public Health invites applicants for a position at the assistant professor or associate professor level. The applicant should preferably be a psychiatrist with training and experience in quantitative research on families, but high quality research psychiatrists with any range of interests will be considered. The applicant should have a demonstrated ability to write, a familiarity with epidemiology and public health approaches to psychiatry, and should feel comfortable with biopsychosocial approaches to mental health research. Mental Hygiene is an interdisciplinary department with a life-span developmental and epidemiologic perspective on mental health and disorder.

**Apply to: Sheppard G. Kellam, M.D.
Professor and Chairman
Department of Mental Hygiene
School of Hygiene and Public Health
The Johns Hopkins University
615 North Wolfe Street
Baltimore, Maryland 21205**

The Johns Hopkins University is an equal opportunity/affirmative action employer.

Piportil

DEPOT PIPOTHIAZINE PALMITATE

From May & Baker the company that developed Largactil.

New Piportil depot is a unique phenothiazine derivative from May & Baker, the company that helped to revolutionise the treatment of psychoses with the introduction of Largactil.

Clinical trials show Piportil depot to exert a potent antipsychotic action against a wide range of symptoms^{1,4} Piportil depot is a fast acting^{5,6} phenothiazine, and causes minimal sedation⁶ and depression^{3,5}

These benefits, together with its four week duration of action^{2,7} facilitate rapid and maintained social integration for your psychotic patients,³ helping you to solve the psychotic puzzle.

Piportil
DEPOT
A new way to treat the
many facets of psychoses.

Prescribing Information: Dosage: (Adults) Initially 25mg (0.5ml) by deep intramuscular injection into the gluteal region to assess susceptibility of patient. Dosage should be increased by increments of 25 or 50mg at appropriate intervals until a satisfactory response is obtained. Most patients respond to a dose of 50-100mg (1-2ml) every 4 weeks. Patients should be stabilised under psychiatric supervision. Contraindications: Marked cerebral atherosclerosis, phaeochromocytoma, renal or liver failure, severe cardiac insufficiency or hypersensitivity to other phenothiazine derivatives. Precautions: A history of convulsive disorders or marked extrapyramidal reactions to oral phenothiazines, in pregnancy, and lactation. Side-effects: Reversible extrapyramidal reactions, sleep disturbance, depression, blurred vision, asthma, impotence, dry mouth, nausea, amenorrhoea, galactorrhoea, hypotension, hyperhidrosis and weight gain have been observed occasionally. Corneal or lenticular cloudiness have not been observed with Piportil alone, but in treatment with phenothiazine preparations in high dosage over a long period, there is a risk of such side-effects occurring. Local reactions at site of injection are rare. Presentations: Boxes of 10 x 1ml (50mg) and 10 x 2ml (100mg) ampoules. Product licence No. (P) 0015 (017). **References:** 1.
