(Continued on inside back cover)

THE BULLETIN OF SYMBOLIC LOGIC (ISSN 1079-8986) is published quarterly, in the months of March, June, September, and December, by the Association for Symbolic Logic, Inc., at 1325 South Oak Street, Champaign, IL 61820-6903, USA. Second class postage is paid at Champaign, IL and additional offices. The BULLETIN is distributed with THE JOURNAL OF SYMBOLIC LOGIC; the 2000 annual subscription price for the two journals is \$365. Postmaster: Send address changes to *The Bulletin of Symbolic Logic, Journals Division UIP, 1325 South Oak Street, Champaign, IL 61820-6903, USA*. Business correspondence should be sent to the Secretary-Treasurer of the Association, Charles Steinhorn (address on inside back cover).

The BULLETIN and the JOURNAL are the official organs of the Association for Symbolic Logic, an international organization for furthering research in symbolic logic and the exchange of ideas among mathematicians, philosophers, computer scientists, linguists, and others interested in this field. The BULLETIN invites submission of *Articles* and *Communications* and publishes reviews of publications in logic.

Articles should be expository or survey papers of broad interest that are accessible to a wide audience of logicians. They may deal with any areas of logic including mathematical or philosophical logic, logic in computer science or linguistics, the history or philosophy of logic, and applications of logic to other fields.

VOLUME 6
2000

PUBLISHED QUARTERLY BY THE ASSOCIATION FOR SYMBOLIC LOGIC, INC.
WITH SUPPORT FROM INSTITUTIONAL AND CORPORATE MEMBERS

The four numbers of Volume 6 were issued at the following dates:

Number 1, pages 1–144, March 9, 2000

Number 2, pages 145–264, July 18, 2000

Number 3, pages 265–400, September 29, 2000

Number 4, pages 401–570, December 1, 2000

Numbers 1–4 of this volume are copyrighted ©2000 by the Association for Symbolic Logic, Inc. Reproduction of copyrighted numbers of the BULLETIN by photostat, photoprint, microfilm, or like process is forbidden, except by written permission, to be obtained from the Secretary of the Association, Charles Steinhorn, ASL, Box 742, Vassar College, 124 Raymond Avenue, Poughkeepsie, NY 12604, USA.

The paper used in this BULLETIN is acid-free and falls within the guidelines established to ensure permanence and durability.

This BULLETIN has been registered with the Copyright Clearance Center, Inc. The appearance of a code at the bottom of the first page of an article indicates the copyright owner's consent for copying beyond that permitted by Sections 107 or 108 of the U. S. Copyright Law, provided that the per-copy fee stated in the code is paid directly to Copyright Clearance Center, Inc., 222 Rosewood Drive, Danvers, MA 01923, USA. This consent does not extend to copying for general distribution, for advertising or promotion purposes, for creating new collective works, or for resale. Specific written permission for such copying must be obtained from the Association.

CONTENTS OF VOLUME 6

ARTICLES

DEUTSCH, DAVID, EKERT, ARTUR, and LUPACCHINI, ROSSELLA. Machines, logic and quantum physics	265
FEFERMAN, SOLOMON, FRIEDMAN, HARVEY M., MADDY, PENELOPE, and STEEL, JOHN R. Does mathematics need new axioms?	401
FRANCELLA, MIRIAM. Towards a re-evaluation of Julius König's contribution to logic	45
HANSSON, SVEN. Formalization in philosophy	162
SINACEUR, HOURYA. Address at the Princeton University bicentennial conference on problems of mathematics (December 17–19, 1946), by Alfred Tarski	1
VAN DALEN, DIRK. Brouwer and Fraenkel on intuitionism	284
VAN DALEN, DIRK. Zermelo and the Skolem paradox	145

COMMUNICATIONS

CHOLAK, PETER A. and HARRINGTON, LEO A. Definable encodings in the computably enumerable sets	185
HIRSCHFELDT, DENIS R. Degree spectra of relations on computable structures	197
JIN, RENLING. Applications of nonstandard analysis in additive number theory	331
KRAJÍČEK, JAN and SCANLON, THOMAS. Combinatorics with definable sets: Euler characteristics and Grothendieck rings	311
LE BARS, JEAN-MARIE. Counterexamples of the 0-1 law for fragments of existential second-order logic: an overview	67
OTTO, MARTIN. An interpolation theorem	447
SCHINDLER, RALF-DIETER. Proper forcing and remarkable cardinals	176

MEETINGS OF THE ASSOCIATION FOR SYMBOLIC LOGIC

1999 European Summer Meeting of the Association for Symbolic Logic, Utrecht, The Netherlands, August 1–6, 1999	103
1999–2000 Winter Meeting of the Association for Symbolic Logic, Washington, DC, January 21–23, 2000	232
2000 Annual Meeting of the Association for Symbolic Logic, University of Illinois at Urbana-Champaign, June 3–7, 2000	361

MEETINGS SPONSORED BY THE ASSOCIATION FOR SYMBOLIC LOGIC

Australasian Association for Logic 1999 Annual Conference, Co-sponsored by the Association for Symbolic Logic, The University of Melbourne, July 2–4, 1999 ..	248
Notices	138, 256, 397, 567
Officers and Committees of the Association for Symbolic Logic	509
Members of the Association for Symbolic Logic	513

Individual membership in the Association is open to anyone interested in its work. Annual dues for members are \$60 (\$30 for students). Dues include subscriptions to the current volumes of the JOURNAL and the BULLETIN. Institutional membership in the Association is available to any academic institution or department. Annual institutional dues are \$525 for 2000. Membership privileges include choices of current subscriptions, back volumes, and student memberships. A detailed description of institutional and corporate memberships is available from the Secretary-Treasurer.

Notices of change of address, dues payments, and subscription orders to the JOURNAL and BULLETIN should be sent to the *Association for Symbolic Logic, Journals Division UIP, 1325 South Oak Street, Champaign, IL 61820-6903, USA*. All orders must be accompanied by payment in US dollars; Visa and MasterCard charges are accepted. To receive a replacement copy of the BULLETIN please report damaged, defective, or missing issues within nine months of the date of publication.

RULES FOR ABSTRACTS

Abstracts of contributed talks at ASL meetings (including those submitted “by title”) *must* follow these rules; abstracts which do not conform to these requirements will be returned immediately to the authors submitting them. Revised abstracts which do follow these rules will be considered if they are received by the announced deadline.

Abstracts of contributed talks are limited to 300 words (about three quarters of a page in the standard, 11pt L^AT_EX article style), including the title and other heading material and the references. They must be submitted in hard copy by ordinary mail or in a *plain text* email message. Electronically submitted abstracts should be either plain text or in PostScript format; special word processor files (MS-Word, WordPerfect, etc.) will not be accepted. Any abstract that is produced using TeX should be fully processed by the author and submitted as a PostScript file. Care should be taken that abstract files attached to an email message are included as *plain text* and not in some coded format. Authors typesetting abstracts are encouraged to use L^AT_EX and the ASL style file, which may be obtained at the ASL web pages at <http://www.aslonline.org>.

To ensure accurate and timely typesetting: (1) Each abstract submission must include the complete address of at least one author, including an email address, or a statement that no email address is available. (2) Abstracts may not include drawings or footnotes. (3) The references must be complete: author, title, full name of journal, year, volume, page numbers; for a book, complete publisher data. Typesetting is done immediately after the submission deadline, so abstracts should be in final form when they are submitted. A typeset booklet containing the abstracts will be distributed to participants at the meeting. Galley proofs are given to authors at the time of the meeting or before, and must be corrected, approved, and returned immediately after receipt: no changes other than corrections of typesetting errors may be made.

For ASL meetings in North America, at least one author of each contributed abstract must be an ASL member; this does not apply to the ASL European Summer Meeting. Abstracts are published as part of the meeting report in *The Bulletin of Symbolic Logic* only if at least one author is a member of the ASL at the time the report is sent for publication. Each set of authors may submit only one abstract to each ASL meeting.
