ACTORS ON Acting

The Theories, Techniques,
and Practices of the World's Great Actors,
Told in Their Own Words
edited by

TOBY COLE and HELEN KRICH CHINOY

ERIC BENTLEY: "During the first two decades of its life, ACTORS ON ACTING found its way into the libraries of everyone who buys theatre books. Enriched now by new content from these decades, it has taken a new lease on life — I think a long one."

ROBERT BRUSTEIN: "An indispensable work for all those concerned with the delicate histrionic art. It includes just about everybody worth hearing from on this subject."

RICHARD SCHECHNER: "ACTORS ON ACTING is a *very* necessary book, full of the most direct knowledge."

JUST PLAY

Beckett's Theater

Ruby Cohn

This well-known Beckett scholar ranges through Beckett's drama to analyze his approach to place, time, soliloquy, fiction, and repetition. She considers his unpublished work, people who have presented Beckett's plays, instances where his work has been transferred to other genres, and finally Beckett's direction of his own work in the theater. As she states in her introduction, "This examination is not an introduction to Beckett's drama; still less is it a summary, paraphrase, or substitute. Rather, it is an implicit appreciation through isolation of functional devices and theater aspects." To much of the information she alone has had access.

New York University
School of the Arts
Department of Drama, Undergraduate

IS OFFERING AN ALTERNATIVE PROGRAM IN:

EXPERIMENTAL THEATRE

The Department of Drama, Undergraduate, which offers a B.F.A. degree in acting, is pleased to announce an alternative program of study with the Experimental Theatre Wing. A limited number of students will have the opportunity to work intimately with leading experimental theatre groups in a two-year program designed for students who have completed two years of foundation work with one of the three professional studios associated with our Department: Stella Adler Conservatory of Acting, Circle in the Square Theatre School, and The Lee Strasberg Theatre Institute. The ETW is also open to students who have studied acting elsewhere and who wish to transfer into our Department. Students in the ETW will work in unique acting, voice and movement workshops taught from the point of view of members from each of the following experimental theatre groups: The Performance Group (best known for explorations of audience participation and environmental theatre), The Ridiculous Theatrical Company (specializing in Commedia dell'arte), Mabou Mines (known for conceptual adaptations of Beckett and experiments with new music and movement), Chi-Kanji and original members of the Open Theater—each known for uniquely experimental approaches to ensemble acting. In addition to studying with the groups, students will be expected to take dramatic literature, theatre history (including studies in the avant-garde), and performance theory courses offered through the Department. The program also includes summer workshops with the Iowa Theater Lab and the Bread and Puppet Theater.

Since the nature of the groups involves frequent international tours, the order and availability of the groups varies each semester. For each year's schedule and further information contact:

Symbolism takes center stage.

Tracing the impact of modern artistic and intellectual ferment on 20th-century drama, Maurice Valency shows how the collapse of the traditional, Naturalist universe and the rise of Symbolism shaped the work of seven major playwrights. His provocative analysis of plays by Mallarmé, Maeterlinck, Pirandello, Giraudoux, Artaud, Ionesco, and Beckett charts the transformation of the theatrical scene from the representation of external reality to the exploration of the inner landscape — the unconscious life.

Is Shakespeare Our Contemporary?

How does one account for the fact that now, more than 350 years after his death, in every part of the globe, in virtually every language and culture, Shakespeare is still read, studied, and performed as a living playwright? This is the kind of question you will find addressed in the pages of *Shakespeare Quarterly*.

For more than a quarter of a century, *Shakespeare Quarterly* has been read and depended upon by Shakespearians the world over for such features as:

- articles interpreting the works in light of the intellectual, social, and artistic contexts in which they were produced;
- wide-ranging surveys of the full cultural impact of Shakespeare in today's world;
- informative reviews of the latest books and articles about Shakespeare and his age;
- an annual performance issue highlighting and evaluating the most important contemporary productions of Shakespeare;
- the unique, comprehensive, annotated World Shakespeare Bibliography;
- announcements and advertisements reflecting the most recent trends and developments in Shakespearean activity.

The School of the Arts Announces a New Program in Dramatic Writing.

Beginning in the fall of 1980, dramatic writing will take its place along with film, television, and drama as a major course of study in the School of the Arts at New York University.

The dramatic text is enjoying a resurgence of interest. An increasing demand for new writers has encouraged the School to design this specialized curriculum focused on the writer's skills, problems, and opportunities.

A unique advantage for the writer is the closeness of this new program to the School's established programs in performance and production. Participation in production is a vital part of the writing curriculum. Ample opportunity exists to develop works in progress in staged readings and on videotape as well as on the page.

In the School of the Arts tradition, all faculty members are active, working professionals—writers, producers, and editors. Students will also have the benefit of advice, counsel, and criticism from distinguished members of New York's artistic community.

A limited number of students will be accepted in both the Bachelor of Fine Arts and Master of Fine Arts programs. For more information, return the coupon below or call (212) 598-3722.
