

**Special Offer to Medical Libraries and Institutions**

Now is the Time to  
Get a Complete Set of  
***Prehospital and Disaster Medicine***

We have a limited supply of back issues of *Prehospital and Disaster Medicine* (PDM) in storage. Therefore, we are offering you a nearly complete set of Journals for the cost of shipping the set to you. We will do this if you agree to subscribe to PDM for a minimum period of three years at the price of [US] \$400/year (plus shipping: institutional rate). Sets will be distributed on a first come, first serve basis. If you are interested, please send an e-mail containing your address and billing information to [pdm@medicine.wisc.edu](mailto:pdm@medicine.wisc.edu) or fax it to (+1) (608) 265-3037. We will send your institution all of the issues we have left in stock. Thus, you help us and we help you.

Thank you in advance for your interest.

## **Attention WADEM members!**

**Members are invited to submit a short article of interest (up to 500 words) to Insight. Many of you have been active, let us know about it!**

**Please use this opportunity to communicate and educate fellow WADEM members. Please submit articles or announcements to the WADEM headquarters: [wadem@medicine.wisc.edu](mailto:wadem@medicine.wisc.edu).**

The Task Force on Quality Control of Disaster Management,  
The World Association for Disaster and Emergency Medicine,  
and the Nordic Society for Disaster Medicine now present:

## Health Disaster Management Guidelines for Evaluation and Research in the Utstein Style

Editors: Knut Ole Sundnes, MD  
Professor Marvin Birnbaum, MD, PhD

---

Available for \$49.95, or free with a subscription to *Prehospital and Disaster Medicine*, this important work provides a conceptual framework for reporting disaster responses and evaluation, and includes a comprehensive glossary of terms.

For ordering or subscription information, call 01 608-263-2069, email a request to [pdm@medicine.wisc.edu](mailto:pdm@medicine.wisc.edu), or fax a subscription insert found in each issue of the journal to 01 608-265-3037.

All royalties go to the support of the development of evaluation and research for  
Disaster Medicine

# The Best Reason to Visit Victoria, Canada

## 10 other good reasons to visit Victoria:

1. In 2005 Vancouver Island was voted the sixth best island in the world
2. Victoria has breathtaking natural beauty coupled with a rich cultural history
3. Enjoy world class hotels and restaurants with our renowned friendly Canadian service
4. Victoria boasts internationally renowned salmon fishing, whale watching, sailing, hiking, and so much more
5. National Geographic Magazine has recognized Vancouver Island as one of the best cold water diving destinations in the world
6. Victoria has the mildest climate in Canada, average temperature in May is 16°C
7. Victoria is a 15 minute flight or short ferry ride to Vancouver, site of the 2010 Olympic Winter Games
8. Enjoy the wild beauty of the Pacific coast by booking a cruise to Alaska after your congress
9. Victoria offers a truly remarkable experience and escape from the rushed world
10. Vancouver Island has been named "Best North American Island" for the past 7 consecutive years by Condé Nast Traveler Readers.

**The Fairmont Empress Hotel is the WCDEM 2009 host hotel.**

The Fairmont Empress Hotel is attached to the Victoria Conference Centre, the location of the 2009 WCDEM Congress.

on the line"

# Stops Bleeding Cold™

## Stopping Power You Can Trust.

QuikClot® is the leader in hemostasis with stopping power you can trust. With over 1 million units sold QuikClot® has saved hundreds of lives. In clinical testing 100% survivability was achieved in severe testing as published in the Journal of Trauma\*.

## Easy to Apply and Remove, A Self-contained Sponge.

The QuikClot® is in a self-contained pouch. Just remove it from its packet, place in the wound and apply pressure as you would normally. Once the clot has formed, QuikClot® 1st Response™ can be removed easily.

## Less Bleeding Is Always Better.

While that simply makes sense — in any first response setting less bleeding does have substantial benefits. With bleeding under control there is:

- Improved patient status
- More time to address other patient needs
- Less risk of blood borne infection

## Peace Of Mind — Less Than \$8.00.

At less than \$8.00 for each packet of QuikClot® 1st Response™ you will be using the most proven, high performance hemostat available — providing true Peace of Mind. That is why we consider it "a privilege to make a difference".

## New Cooler Formula

**QuikClot® 1st Response™**  
is a newly engineered product  
that stays cooler when activated.

# EZ-IO<sup>®</sup> by vidacare

## Why Use EZ-IO<sup>®</sup>?

- **Immediate Vascular Access**  
*both by adult and pediatric patients*
- **Equivalent to IV** for Effectively  
*Delivering Fluids and Medications*
- **Supported by the 2005 AHA ACLS  
Guidelines and the ERC Guidelines**

## The EZ-IO<sup>®</sup> is the leading intraosseous system for the following indications:

- o Altered level of consciousness
- o Arrhythmias
- o Burns
- o Cardiac arrest
- o Dehydration
- o Diabetic complications
- o Head injury
- o Hypotension
- o Overdose
- o Respiratory arrest
- o Seizures
- o Shock
- o Stroke
- o Traumatic injuries and other medical conditions when immediate vascular access is required but standard IV access is challenging both by children and adults

**> 3 FDA-approved sites: proximal tibia, proximal humerus, distal tibia (especially effective for bariatric patients)**

# Bringing Simulation to Life

## SimMan®

There is a growing awareness that health care is behind other high risk operations in its attention to ensuring basic safety and that there is a need to grasp the scale of the problem <sup>(1,2)</sup>.

Use of patient simulation is considered an important part of the solution as many scenarios can be presented including uncommon but critical situations where a rapid response is needed. Errors can be allowed to occur and reach their conclusion without any risk to a patient. Team member interactions and leadership can also be explored and developed.

Two manikin-based simulators from Laerdal, SimMan® and AirMan®, represent a new generation of affordable and portable solutions to meet these needs.
