Curing 'the bends'

“ Hill and Greenwood decompressed themselves, without any serious symptoms, after short exposures at excess pressures of as much as five and even six atmospheres.”

From 'The Prevention of Compressed Air Illness',
Journal of Hygiene, 1908

This breakthrough article included early research into decompression and the first ever dive tables.

Editor

Adrian P. Simpson, *Friedrich-Schiller-Universität Jena, Germany*

The *Journal of the International Phonetic Association (JIPA)* is a forum for work in the fields of phonetic theory and description. As well as including papers on laboratory phonetics/phonology and related topics, the journal encourages submissions on practical applications of phonetics to areas such as phonetics teaching and speech therapy, as well as the analysis of speech phenomena in relation to computer speech processing. It is especially concerned with the theory behind the International Phonetic Alphabet and discussions of the use of symbols for illustrating the phonetic structures of a wide variety of languages. JIPA now publishes online audio files to supplement written articles.

Heike Behrens, University of Basel, Switzerland

A key publication in the field, *Journal of Child Language* publishes articles on all aspects of the scientific study of language development and behaviour in children, the principles which underlie it, and the theories which may account for it. The international range of authors and breadth of coverage allow the journal to forge links between many different areas of research including psychology, linguistics, cognitive science, speech pathology and anthropology. The interdisciplinary and crosslinguistic perspective spans a wide range of interests: phonology, phonetics, morphology, syntax, vocabulary, semantics, pragmatics, sociolinguistics and other recognised aspects of language study. In addition to articles and brief research reports, the journal also features occasional review articles plus invited commentaries.

Policy

Phonology is concerned with all aspects of phonology and related disciplines. Preference is given to papers which make a substantial theoretical contribution, irrespective of the particular theoretical framework employed, but the submission of papers presenting new empirical data of general theoretical interest is also encouraged.

One of the three issues of a volume is occasionally devoted to a particular theme. The editors welcome proposals for themes and offers to act as guest editors for thematic issues.

Submission of papers

Submissions should be sent to the editors in PDF format, preferably by e-mail. The editorial addresses are: Colin J. Ewen, Opleiding Engels, Universiteit Leiden, Postbus 9515, 2300 RA Leiden, The Netherlands (C.J.EWEN@HUM.LEIDENUNIV.NL); Ellen M. Kaisse, Department of Linguistics, University of Washington, Box 354340, Seattle, WA 98195-4340, U.S.A. (KAISSE@U.WASHINGTON.EDU).

An abstract (no longer than 150 words) should be e-mailed to both editors when the manuscript is submitted. The author's name should not appear on the paper itself, and, as far as possible, should not be identifiable from references in the text.

A full set of notes for contributors can be found on the journal website.

The language of submission and publication is English.
