Its initial task was to formulate proposals that focus attention on the need for adequate storage and preservation of archives, the training of archivists, and the collection of materials for future development of Caribbean archives. The president of the board of directors of the new Association is J. P. Hervieu, archivist in the Guadeloupe Archives.

For a full discussion of the subjects considered at the meeting and of the projects agreed upon, see *América Latina*, 4, 1965.

Library on Land Tenure Documents in Latin America—IICA-CIRA in Bogotá, Colombia, is seeking to become a center of documentation for everything published in America with regard to the question of land tenure and use of the land. The documentation center can then be used as a base for agrarian reform activities. IICA-CIRA officials are interested in promoting an exchange of materials and ideas in this endeavor. Correspondence should be directed to José Emilio G. Araujo, Jefe, IICA-CIRA, Apartado Aéreo 14592, Bogotá, Colombia.

Oral History Center for Latin America—Ohio State University, Columbus, is establishing a center to tape record the oral memoirs and opinions of leading Latin American politicians, intellectuals, military figures, and religious and business leaders who span the 20th century. This center is based on a 250-hour, 2500-page manuscript of *An Oral History of the Mexican Social and Economic Revolution, 1910–1965* recorded during 1964 and 1965. Twenty-eight persons representing the spectrum of ideas of the Mexican revolutionary family and its opponents were interviewed on the themes of biography and the relationship of personalism and ideology to nationalism.

The center will continue recording in Mexico and will expand into South America in 1966 by recording on the Bolivian and Uruguayan revolutions in order to develop material comparable to the Mexican study. Recordings will be undertaken in 20 countries, with inter-disciplinary and inter-university cooperation between North American and Latin American institutions so that a dimension not ordinarily provided by Latin American personages can be added to scholarship. For additional details, write Prof. James Wilkie, Director, Oral History Center for Latin America, History Department, Ohio State University, Columbus 10, Ohio.

Pan American Union List of Subject Headings—The Council on Library Resources, Inc., has given the PAU a grant of \$25,000 to continue the preparation of a list of subject headings in Spanish for the use of Latin American librarians in cataloguing and cross-cataloguing books. This list of subject headings is ultimately expected to help standardize cataloguing practices throughout the Spanish-speaking world. Jorge Aguayo will direct the preparation of the list. The project is under the general direction of Marietta Daniels Shepard, Associate Librarian of the Columbus Library at the PAU.

Completion of the remaining 11 volumes which include a significant number of chronicles of 16th century Latin America, is expected in the near future.

Union Lists of Government Serials—The University of Florida, with Ford Foundation assistance and the collaboration of the Ad Hoc Committee on Official Publications, has been able to expand its program to compile union lists of government serials of the Latin American countries. After the titles for each of the nineteen countries have been identified and files located, the project will acquire microfilm, or, if possible, original material, to make available in the U.S. complete files of the significant Latin American documents.

University of Wisconsin Land Tenure Center Library—The staff of the LTC library is developing a new cataloguing system. During 1966 the library, in conjunction with the department of agricultural economics, will begin to utilize a system of mechanized retrieval in which information will be stored on IBM cards and listings of current library holdings will be printed at regular intervals. Many of the volumes of the Taylor-Hibbard Library of the agricultural economics department will be included in these printings thus making a wider selection of books on economics, agricultural economics, and development available to researchers. The LTC library serves professors and students from other campuses as well as its own staff and students.

Yale University Acquisitions on Central America—The Lindley and Charles Eberstadt Collection on the Central American Federation is a recent acquisition of the Beinecke Rare Book and Manuscript Library at Yale University. It embraces official documents, private reports, military relations, constitutions, laws, treaties, proclamations and pronouncements covering almost every aspect of the affairs of the period.
