Oh, China!

Elementary Reader of Modern Chinese for Advanced Beginners
Chih-p'ing Chou, Perry Link, and Xuedong Wang

Oh, China! is a textbook for the growing number of advanced beginners who are studying Mandarin Chinese. These are students who, usually because of their Chinese family backgrounds, can speak and understand elementary Mandarin but cannot read or write well enough for an intermediate course. This book offers help with what they most need: reading and writing, grammar, and achievement of standard pronunciation.

The content of the lessons has been chosen to appeal specifically to advanced beginners. Each lesson is given in both traditional and simplified characters, and, for the first fifteen lessons, in hanyu pinyin as well. The lessons are accompanied by vocabulary lists, grammar notes, usage exercises, and character stroke-order charts. The book begins with a detailed chapter on foundation work in Mandarin pronunciation, complete with exercises. It concludes with a complete Chinese-to-English vocabulary index.

Oh, China! is designed for a one year course at the college level and will prepare students to enter third-year courses. The latest in a series of Chinese-language texts published by Princeton University Press, it will meet an important and growing need in the teaching and study of Mandarin.

"Oh, China! is the first Chinese language textbook intended specifically for the teaching of modern Mandarin to Chinese-American university students. It is written in easy and smooth language appropriate for beginning readers. The notes in English are clear and easy to follow, and the exercises accurately target the errors often committed by Chinese-American students due to interference from English grammar."

Rereading the Stone

Desire and the Making of Fiction in
Dream of the Red Chamber
Anthony C. Yu

The eighteenth-century *Hongloumeng*, known in English as *Dream of the Red Chamber* or *The Story of the Stone*, is generally considered to be the greatest of Chinese novels. In this path-breaking study, Anthony Yu goes beyond the customary view of *Hongloumeng* as a vivid reflection of late imperial Chinese culture by examining the novel as a story about fictive representation.

At the heart of *Hongloumeng*, Yu argues, is the narration of desire. According to Yu, this focalizing treatment of desire may well be *Hongloumeng's* most distinctive accomplishment.

Spanning a wide range of comparative literary sources, Yu creates a new conceptual framework in which to reevaluate this masterpiece.

"A study of the very highest quality and value. Anthony Yu breaks new ground on a number of topics that are central to the interpretation of the novel and, in numerous instances, to Chinese literature as a whole. *Rereading the Stone* will establish itself as the single most important work on the novel's interpretation."

Battling Western Imperialism

Mao, Stalin, and the United States
Michael M. Sheng

One of the central issues in the study of the Chinese Communist Party and its foreign policy is its relations with Moscow. Was the CCP a Chinese nationalist party antagonistic to an intrusive Soviet Union or was it rather an internationalist party with ideological-political and strategic-military ties to Moscow?

On the basis of extensive new information obtained from recently available Chinese sources, Sheng demonstrates that the foreign policy of the CCP under Mao Zedong did, in fact, follow the directions recommended by Joseph Stalin. Sheng has drawn on an unprecedented collection of Chinese-language materials to make a powerful new argument.
