VENEZUELA'S VOICE FOR DEMOCRACY Conversations and Correspondence with Romulo Betancourt

By Robert J. Alexander

This work presents 35 years of letters and interviews between the author and Romulo Betancourt, the Venezuelan political leader and two-time president of his country. Much of the material centers on events and issues contemporary to the time, but later correspondence and conversations also address Betancourt's early career and provide an overview of the events and ideas that helped shape Venezuela's politics and government.

UNITED STATES POLICIES AND THE LATIN AMERICAN ECONOMIES

Edited by Werner Baer and
Donald V. Coes

This volume analyzes the complex economic relationship between the U.S. and Latin America during the 1980s and into the 1990s. Among the key topics addressed are the mounting debt crisis, privatization, Latin American integration, and the specific effects of U.S. policies on various aspects of Latin American economies.

U.S.-LATIN AMERICAN RELATIONS Second Edition

By Michael J. Kryzanek

This completely revised and updated second edition of Kryzanek's widely praised text includes a wealth of new data and analysis on the key events and controversies that have shaped U.S.-Latin American relations during the second Reagan term and the first year of the Bush presidency. Kryzanek has added new and detailed information about such developments as the Iran-contra scandal, the historical peace accord signed by Central American Presidents, Bush's pledge for a fresh approach to El Salvador and Nicaragua, General Noriega, debt, drugs, and immigration.

SANDINISTA COMMUNISM AND RURAL NICARAGUA

By Janusz Bugajski

Bagajski concentrates on the Sandinista's agrarian strategies in order to distinguish between short-term policies and long-term programs. It addresses the question of whether any durable and novel ideological, political, and economic elements have been introduced in Nicaragua in terms of Marxist-Leninist models of state socialism—especially vis-a-vis peasantry and the country's ethnic minorities.

MANAGING SOCIALISM

**From Old Cadres to New Professionals
in Revolutionary Cuba**

By Frank T. Fitzgerald

Managing Socialism challenges the theoretical underpinnings of Cuban Studies—the elite/mass perspective. It offers a major reinterpretation of the revolutionary process, which focuses on major changes at the intermediate level of Cuban society. Focusing on the relationship between social stratification and politics broadly conceived, Fitzgerald's challenging new theoretical approach makes it required reading.

THE STATE AND POLICY OUTCOMES IN LATIN AMERICA

By Lawrence S. Graham

This study offers a comprehensive and up-to-date analysis of the state and its bureaucratic components in the various nations of the region. Graham's unique contribution is combining an overview of public bureaucracy in Latin America with a series of country and regional profiles. With this basis for analysis established, he focuses on changes in the state, the society, and the economy that have occurred over the past two decades in order to develop a set of new perspectives on Latin American politics and economics.

REVOLUTION **Family**

— DIANNE WALTA HART —

In a restaurant in Estelí, Nicaragua, Dianne Walta Hart, a visiting American scholar, and Marta López, member of a Nicaraguan women's organization, began to talk of the Sandinista revolution and of the changes it had brought, especially for women. Their conversation was to continue at intervals over

the next four years; it expanded to include Marta's mother, Doña María, her sister, Leticia, and her brother, Omar. From these conversations has come the powerful and moving oral history of a Nicaraguan family in the twentieth century: a testimonial by ordinary people caught up in civil strife and living in a country devastated by war and inflation.

Laying bare the inner workings of the López family, Dianne Walta Hart evokes a picture of a close-knit and loving family. And tracing their story from the years of repression and guerrilla activity under Somoza, through an era of personal and political revolution in the 1970s and 1980s, she shows real people persevering against every kind of adversity.

Pirates

of the Pacific, 1575-1742

By Peter Gerhard

“Peter Gerhard’s sparkling account of swashbuckling pirates on the West Coast of Mexico illuminates a vital but often forgotten chapter in the history of international rivalry in the New World. Covering almost two centuries of intrusions by English, Dutch, and French buccancers on Spain’s prized Mexican possessions, this well-documented narrative also describes how the Spanish dealt with these raids.” – John Jay TePaske, Duke University. The Heritage of the Conquistadors

*Ruling Classes in Central
America from Conquest to the Sandinistas*

By Samuel Z. Stone

Foreword by Richard E. Greenleaf

Rich in implications for U.S. foreign policy, *The Heritage of the Conquistadors* provides the historical and socioeconomic context necessary for an understanding of the problems facing Central America. Samuel Z. Stone demonstrates that the regimes of Costa Rica, Nicaragua, Guatemala, Honduras, and El Salvador are rooted in a common ancestry that often confuses the outside world's understanding of events such as the Salvadoran insurgency, the fall of Somoza, and the rise of the Sandinistas. Stone also considers how the divisions of ruling classes, effacing kinship and common social background, have led to the bloody power struggles of recent years.
