COLLECTIVE VIOLENCE

edited by *James F. Short, Jr., Washington State University, and A. E. Wolfgang, University of Pennsylvania.*

Collective violence has played an important role in American history, though we have typically denied it. But it is not enough to repress violence, or to suppress our knowledge of it. We must confront the problem, and in doing so take a close look at ourselves and the society we have built.

Edited by the co-directors of the National Commission on the Causes and Prevention of Violence, this collection of provocative contributions to theory and research on violence as a group phenomenon takes a hard look at the forms, sources, and meanings of riots and rebellions. Thirteen of the papers were written for a special issue of the *Annals* of the American Academy of Social and Political Science, and fourteen are entirely original contributions.

CAPITAL PUNISHMENT

edited by *James A. McCafferty, Administrative Office of the U. S. Courts.*

This balanced commentary provides not only empirical data and analyses of the nature of capital punishment, but also the latest views on our approach to law-breakers and their rehabilitation. A wealth of references, an extremely useful bibliography, and a final chapter delineating the legal issues facing the courts are included.
