# Annals of Actuarial Science

Published for Institute and Faculty of Actuaries

## Editor

Angus Macdonald, BSc, PhD, FFA, FRSE, *Heriot-Watt University, Edinburgh, UK*

*Annals of Actuarial Science* publishes research papers in all areas of actuarial science. It appears twice yearly, in the Spring and the Autumn, publishing an equal mix of theoretical and applied work. All papers are subject to a rigorous process of peer-review.

The Editor invites submissions in any area of actuarial science or practice, especially papers that are applied in nature. *Annals of Actuarial Science* welcomes papers in life insurance, non-life insurance, pensions, health insurance, finance and investment, econometrics, insurance economics and financial risk management. Original research, review papers, case studies and book reviews will all be considered for publication.

# Economics & Philosophy

## Editors

Richard Bradley, *London School of Economics, UK*

Martin van Hees, *University of Amsterdam, Netherlands*

François Maniquet, *CORE (Université Catholique de Louvain), Belgium*

John A. Weymark, *Vanderbilt University, USA*

The disciplines of economics and philosophy each possess their own special analytical methods, whose combination is powerful and fruitful. Each discipline can be enriched by the other. *Economics & Philosophy* aims to promote their mutual enrichment by publishing articles and book reviews in all areas linking these subjects. Topics include the methodology and epistemology of economics, the foundations of decision theory and game theory, the nature of rational choice in general, historical work on economics with a philosophical purpose, ethical issues in economics, the use of economic techniques in ethical theory, and many other subjects.

# Econometric Theory

## Editor

Peter C. B. Phillips, *Cowles Foundation for Research in Economics, Yale University, USA*

*Econometric Theory* is an international journal dedicated to advancing theoretical research in econometrics. The journal provides an authoritative, centralized, professional outlet for original contributions in all of the major areas of econometrics. As well as periodic book reviews and articles that embody original theoretical research, the journal publishes historical studies on the evolution of econometric thought and on major scholars. *Econometric Theory* also serves an educational role by the inclusion of an on-going 'Problems and Solutions' series and by 'ET Interviews' with pre-eminent scholars in the field.

# Environmental Conservation

International Journal of Interdisciplinary Environmental Science

Published for the Foundation for Environmental Conservation

## Editor

Nicholas V. C. Polunin, University of Newcastle, UK

*Environmental Conservation* is one of the longest-standing, most highly-cited of the interdisciplinary environmental science journals. It includes research papers, reports, comments, subject reviews, and book reviews addressing environmental policy, practice, and natural and social science of environmental concern at the global level, informed by rigorous local level case studies. The journal's scope is very broad, including issues in human institutions, ecosystem change, resource utilisation, terrestrial biomes, aquatic systems, and coastal and land use management. *Environmental Conservation* is essential reading for all environmentalists, managers, consultants, agency workers and scientists wishing to keep abreast of current developments in environmental science. Selected papers are made freely available online as part of **EC Perspectives**.

# Environmental Practice

Published for the National Association of Environmental Professionals

## Editor

Tim Stretton, *Saint Mary's University, Canada*

*Environmental Practice* provides a multidisciplinary forum for authoritative discussion and analysis of issues of wide interest to the international community of environmental professionals, with the intent of developing innovative solutions to environmental problems for public policy implementation, professional practice, or both. Peer-reviewed original research papers, environmental reviews, and commentaries, along with news articles and points of view, link findings in science and technology with issues of public policy, health, environmental quality, law, political economy, management, and the appropriate standards for expertise.

*Journal of Wine Economics* is the official publication of the American Association of Wine Economists (AAWE), a non-profit, educational organization dedicated to encouraging and communicating economic research and analyses and exchanging ideas in wine economics. The *JWE* provides a focused outlet for high-quality, peer-reviewed research on economic topics related to wine. The journal is open to any area related to the economic aspects of wine, viticulture, and oenology. It covers a wide array of topics, including, but not limited to: production, winery activities, marketing, consumption, as well as macroeconomic and legal topics. It is also open to research related to beer, spirits and food. The *JWE* is published twice a year and contains articles, short papers, notes and comments, field reports, reviews of books, films and wine events, as well as conference announcements.

## INSTRUCTIONS FOR CONTRIBUTORS

1. Manuscripts should be submitted online via the website <http://mc.manuscriptcentral.com/ede>. Instructions can be found at the website by clicking the 'Instructions and Forms' link (under 'Resources') and then clicking the 'Online Submission Instructions for Authors' link. Manuscripts should be written in English. Preferred file formats are Word or pdf files for the text, eps files for the figures, and Excel files for any graphs or charts.
2. **General guidelines** – Manuscripts should have a 12 point font, double spacing throughout, and 2.54 cm (1 inch) margins on all sides. The first page of the manuscript should be a **title page** containing: the name and affiliation of all authors; a designated contact author and his/her complete correspondence address, including email address; and an abstract of 150 words maximum. The text, including footnotes, references and appendices but excluding the title page, should not exceed 8,000 words. The entire manuscript, including tables and figures, should generally not exceed 35 pages.
3. **Tables** should be numbered sequentially through the text. Tables should be put at the back of the manuscript, with the appropriate location marked in the text. Titles and headings should be brief and descriptive. The text should include references to all tables.
4. **Illustrations** should be placed, one per page, at the back of the manuscript (or in a separate file), with the appropriate location marked in the text. Quality should be high enough for **direct reproduction**, and designed to allow a reduction of 50%. Illustrations should be numbered sequentially through the text and each should have a caption. References should be made in the text to each illustration. The journal does not publish colour illustrations.
5. **References** – In the text refer to the author's name and year of publication, separated by a comma (Smith, 2003). If there are more than two authors, the name of the first author should be used followed by 'et al.' (Smith et al., 2004). If two or more references are cited together in the text, they should be arranged chronologically (Sorensen, 1997; Goring, 1999). Publications by the same author(s) in the same year should be listed as 1994a, 1994b, etc. Personal communications should be cited as e.g. '(G. McNeal, personal communication, 2006)' but not included in the list of references. Do not abbreviate the titles of periodicals.  
**Use the following style for references:**  
*Journal articles:* Pearce, D., K. Hamilton, and G. Atkinson (1996), 'Measuring sustainable development: progress on indicators', *Environment and Development Economics* 1: 85-101.  
*Articles in edited works:* Smith, V.K. and J.V. Krutilla (1982), 'Toward formulating the role of national resources in economics models', in V.K. Smith and J.V. Krutilla (eds.), *Exploration in Natural Resource Economics*, Baltimore: John Hopkins Press, pp. 1-43.  
*Books:* Mäler, K.-G. (1974), *Environmental Economics: A Theoretical Inquiry*, Baltimore: Johns Hopkins Press for the Resource for the Future, Inc.  
*Unpublished reports, departmental working papers, etc.:* Gren, I.-M. (1992), 'Benefits from restoring wetlands for nitrogen abatement: a case study of Gotland', Beijer Discussion Paper Series No. 14, The Beijer International Institute of Ecological Economics, Stockholm.
6. **Formulae** should be clearly written, with the meaning of all symbols explained immediately after they are first used. Number equations serially at the right-hand side in parentheses, but only equations referred to in the text need be numbered. Greek letters and mathematical symbols should be italicised.
7. **Footnotes** should only be used when essential, and kept as short as possible. They should be numbered in superscript in the text, following any punctuation.
8. **Copyright** – Submission of an article implies that it has not been published or accepted for publication elsewhere. Authors are responsible for obtaining written permission to reproduce any material (in both print and electronic media) for which they do not own copyright, and for ensuring that the appropriate acknowledgements are included in their manuscript. Authors of published articles assign copyright to Cambridge University Press (with certain rights reserved).
9. Further information can be obtained via email from the journal's editorial office [ede@aueb.gr](mailto:ede@aueb.gr) or the journal's web page <http://journals.cambridge.org/ede>
