Special sales and supplements

This journal accepts advertising and inserts. We also provide bulk reprints of suitable papers to meet teaching or promotional requirements. The journal also publishes supplementary material including conference proceedings on behalf of academic and corporate sponsors. Please contact Sarah Maddox at Cambridge University Press for further details (email: smaddox@cambridge.org).

Subscription information

Public Health Nutrition is an international journal published 18 times per year by Cambridge University Press on behalf of the Nutrition Society. The online edition is available at journals.cambridge.org/PHN, with free table of contents alert (upon registration).

Annual subscription rates

Volume 24, 2021 (18 issues):
Internet/print package: £1390/\$2666 Americas only/€2227 EU only
Internet only: £1006/\$1909 Americas only/€1599 EU only

Any supplements to this journal published in the course of the annual volume are normally supplied to subscribers at no extra charge.

Claims for non-receipt of journal issues will be considered on their merit and only if the claim is received within six months of publication. Replacement copies supplied after this date will be chargeable.

Advertising: The Nutrition Society is willing to include advertisements in its journals. However, it will retain the right to make decisions on which advertisements are acceptable and which are not, and will not be obliged to give reasons to prospective

advertisers for its decisions. The appearance of an advertisement in the Society's journals does not imply endorsement by the Society. For further details, please contact Cambridge University Press.

Back volumes will be available in due course. Please contact Cambridge University Press for further information.

US POSTMASTERS: Please send address corrections to Cambridge University Press
1 Liberty Plaza
Floor 20, New York

This journal issue has been printed on FSC-certified paper and cover board. FSC is an independent, non-governmental, not-for-profit organization established to promote the responsible management of the world's forests. Please see www.fsc.org for information. Typeset by Macmillan India Limited, Bangalore, India and Printed in Europe by Bell and Bain, Glasgow.

Public Health Nutrition is covered in Science Citation Index Expanded (Web of Science), Current Contents, Agriculture, Biology & Environmental Sciences, Current Contents, Clinical Medicine, CAB ABSTRACTS[®], Global Health, Index Medicus[®] (MEDLINE[®]), EMBASE, Excerpta Medica, BIOSIS[®] Database and CINAHL[®] Database. *Public Health Nutrition* participates in the following initiatives: HINARI by WHO and AGORA by FAO.

Public Health Nutrition (PHN) provides a forum for the presentation of original research findings and high quality reviews of key topics, and for discussion of and debate on of current issues and controversies. It also publishes special issues on major topics of interest. Our field includes research, scholarship, and discussions on public health nutrition, that take a population, health promoting and preventive approach. Papers that do not have this emphasis may be directed to more appropriate journals. Potential contributors are encouraged to read the aims and scope of the journal, and to note and follow the guidelines set out below.

Content:

- **Original research findings and scientific reviews** are published as full papers usually less than 5000 words, not including the abstract, references, tables, figures and acknowledgements.
- **Editorials** express the opinion of the journal, as represented by its central editorial team, on topics judged by them to be important. Editorials, including guest editorials, are usually co-ordinated and developed by the editorial team.
- **Position papers**, including declarations and other statements of policy, may be invited or unsolicited.
- **Invited commentaries and book reviews** are expressions of opinion on a topical subject. These are commissioned by the members of the editorial team.
- **Letters to the Editors** are usually in response to material published in *PHN*. Submissions are sent to the author for comment and, when possible, published together with the author's reply.

Submission: PHN operates an online submission and reviewing system. All manuscripts should be submitted to <http://mc.manuscriptcentral.com/phnutr>. Please contact the Editorial Office on phn.edoffice@cambridge.org regarding any other types of submission.

Refereeing: Review articles and articles reporting original research are subject to external review by two or more referees who evaluate manuscripts based on their importance, relevance, and originality. Authors are asked to submit names and contact details (including email address) of up to four potential referees. All other contributions (editorials, position papers, invited commentaries, book reviews, and letters to the Editors) undergo an internal review process by at least two members of the editorial team. Invited commentaries and book reviews may also be checked externally as necessary to avoid technical errors and to improve salience.

Copyright: At the time of acceptance, authors will be asked to provide a completed copy of the 'Licence to Publish' (in lieu of copyright transfer), available at <https://www.nutritionociety.org/>. It is the author's responsibility to obtain written permission to reproduce any material (including text and figures) that has appeared in another publication.

Preparation of manuscripts: Please refer to the full Directions to Contributors on our website (<http://www.nutritionociety.org>). Manuscripts should be in clear and concise English, and spelling should follow the Oxford English Dictionary. For authors whose native tongue is not English, in-house editorial attention to their contributions will improve clarity. On acceptance, all contributions are subject to editorial amendment to conform to house style. Manuscripts should be prepared in a common word processing package (Word for Windows is preferred) in Times New Roman or other common typeface, prepared with double-spaced text, at least 2 cm margins, and page and line numbers. Standard abbreviations and SI units must be used.

Disclosure of financial support and any competing interests.

The submission must include a statement within an Acknowledgements section reporting any competing interests (financial and non-financial), all sources of funding, and the nature of the contribution of each author to the manuscript. If there are no competing interests, this must be stated. Authors are asked to provide this information during the submission process and should not include it as part of the manuscript to allow for double-blind reviewing.

Arrangement of papers:

1. **Title page** should include the article title, author(s), affiliation(s), up to eight keywords, one author identified for correspondence (with full postal address, telephone and fax numbers, and email address), and a running title of up to 45 characters. The title page should be submitted online as a separate cover letter, not as part of the manuscript, to enable double-blind reviewing.
2. **Abstract** should be structured, usually using the following internal headings: Objective, Design, Setting, Subjects, Results, Conclusions. Abstracts should be intelligible without reference to text or figures and should not exceed 250 words.
3. **Text** should be divided under headings (typically to include Introduction, Methods, Results, Discussion and Conclusions), and sub-headings as appropriate. Conclusions should include recommendations that derive from the research and that are concrete, feasible, and potentially effective. Emphasising that more research is needed is usually not necessary unless there is specific reason to say so. All submissions must include a statement that the research was conducted in accordance with guidelines laid down by the Declaration of Helsinki and approved by an ethics review committee.
4. **Acknowledgements** (sources of funding, competing interests declaration, authorship responsibilities, acknowledgements) should be provided during the submission process, not as part of the manuscript.
5. **References** should be in Vancouver style. Please refer to the full Directions to Contributors.
6. **Tables** should be reduced to the simplest form and should not be used where text or figures give the same information. Each table must be accompanied by a clear and concise caption that is comprehensible without reference to the text. Longer tables may be published online only.
7. **Figures** should be numbered, and legends should be provided. Each figure, with its legend, should be comprehensible without reference to the text and include definitions of abbreviations.

Proofs: Correspondence and proofs for correction will be emailed to the first named author unless otherwise indicated. The author will receive a PDF proof for checking. It is important that proofs be returned promptly. Authors may be charged for any alterations in excess of 10% of original setting.

Offprints: The corresponding author will receive a PDF of the published paper free of charge. Offprints are available to purchase and must be ordered before publication.

PUBLIC HEALTH NUTRITION, VOLUME 24 - NUMBER 13

Monitoring and surveillance

- Food insecurity partially mediates the association between drug use and depressive symptoms among men who have sex with men in Los Angeles, California
David A Wiss, Marjan Javanbakht, Michael J Li, Michael Praelip, Robert Bolan, Steve Shoptaw and Pamina M Gorbach 3977
- Recall of government healthy eating campaigns by consumers in five countries
Samantha Goodman, Gabriela C Armendariz, Adele Corkum, Laura Arellano, Alejandra Jáuregui, Matthew Keeble, Josephine Marshall, Gary Sacks, James F Thrasher, Lana Vanderlee, Christine M White and David Hammond 3986

Assessment and methodology

- A validated FFQ to determine dietary intake of vitamin D
Stephanie Watkins, Ellen Freeborn and Sohail Mushtaq 4001
- Validation of the European Prospective Investigation into Cancer (EPIC) FFQ for use among adults in Lebanon
Karim Khaled, Vanora Hundley, Maya Bassil, Mira Bazzi and Fotini Tsolliou 4007

Nutritional status and body composition

- Prevalence of thinness, overweight and obesity among Tibetan adolescents aged 12–17 years
Yunfei Zhang, Jiahong Sun, Min Zhao, Costan G Magnusson and Bo Xi 4017

Nutrition communication

- Can point-of-sale nutrition information encourage reduced preference for sugary drinks among adolescents?
Helen Dixon, Maree Scully, Belinda Morley and Melanie Wakefield 4023

Behavioural nutrition

- Overestimation of body weight and its association with parental, teacher and peer support: evidence from the Israeli Health Behaviours in Schools survey
Shir Ben-Yaish, Riki Tesler, Mona Boaz, Yossi Harel Fisch and Vered Kaufman-Shriqui 4035

- Additional costs of lactose-reduced diets: lactose-free dairy product substitutes are a cost-effective alternative for people with lactose intolerance
Mareike Taeger and Silke Thiele 4043

Nutritional epidemiology

- Specific fruit but not total fruit intake during early pregnancy is inversely associated with gestational diabetes mellitus risk: a prospective cohort study
Hong Sun, Hongli Dong, Yiqi Zhang, Xi Lan, Xinxin Pang, Congjie Cai, Dan Bai, Ju Zhang, Fei Li and Guo Zeng 4054

- Modified Mediterranean diet score adapted to a southern Mediterranean population and its relation to overweight and obesity risk
Khaoula El Kinany, Meimouna Mint Sidi Deoula, Zineb Hatime, Hanae Abir Boudouaya, Mariam Atassi, Achraf El Asri, Abdellilah Benslimane, Chakib Nejari, Sidi Adil Ibrahim, Pagona Lagioui and Karima El Rhazi 4064

- Food processing and risk of hypertension: Cohort of Universities of Minas Gerais, Brazil (CUME Project)
Katiusse Rezende-Alves, Helen Hermiana Miranda Hermsdorff, Aline Elizabeth da Silva Miranda, Aline Cristine Souza Lopes, Josefina Bressan and Adriano Marçal Pimenta 4071

- Association between iron deficiency anaemia and complementary feeding in children under 2 years assisted by a Conditional Cash Transfer programme
Marilyn Moura e Mendes, Giovana de Montemor Marçal, Manuela Di Guaraldi Mafra Fragoso, Telma Maria de Menezes Toledo Florêncio, Nassib Bezerra Bueno and Ana Paula Grotti Clemente 4080

- Diet quality, excess body weight and cardiometabolic risk factors in adolescents living in São Paulo, Brazil and in the USA: differences and similarities
Jaqueline L Pereira, Josiemer Mattei, Carmen R Isasi, Linda Van Horn, Mercedes R Carnethon, Martha L Daviglus, Marisa J Perera, Daniela Sotres-Alvarez and Regina M Fisberg 4091

- Nutritional breakfast quality and cardiometabolic risk factors: Health Survey of São Paulo, a population-based study
Paula Victória Félix, Jaqueline Lopes Pereira, Ana Carolina Barco Leme, Michelle Alessandra de Castro and Regina Mara Fisberg 4102

- Predictors of patterns of weight change 1 year after delivery in a cohort of Mexican women
Diana Cristina Soria-Contreras, Martha María Téllez-Rojo, Alejandra Cantoral, María Luisa Pizano-Zarate, Emily Oken, Andrea A Baccarelli, Allan C Just, Manuela A Orjuela, Ivonne Ramirez-Silva, Robert O Wright, Belem Trejo-Valdivia and Ruy López-Ridaura 4113

- BMI, high-sensitivity C-reactive protein and the conversion from metabolically healthy to unhealthy phenotype in Chinese adults: a cohort study
Renying Xu, Peixiao Shen, Chunhua Wu, Yanping Wan, Zhuping Fan and Xiang Gao 4124

- Validation of the Arabic version of the Eating Attitude Test in Lebanon: a population study
Chadia Haddad, Chloe Khoury, Pascale Salameh, Hala Sacre, Rabih Hallit, Nelly Kheir, Sahar Obeid and Souheil Hallit 4132

- The association between meal and snack frequency and irritable bowel syndrome
Mehrbod Vakhshoori, Parvaneh Saneei, Ahmad Esmailzadeh, Hamed Daghighzadeh, Ammar Hassanzadeh Keshteli and Peyman Adibi 4144

- No-meat eaters are less likely to be overweight or obese, but take dietary supplements more often: results from the Swiss National Nutrition survey menuCH
Lydia Steinbach, Sabine Rohrmann, Ivo Kaelin, Jean-Philippe Krieger, Giulia Pestoni, Isabel Herter-Aeberli, David Faeh and Janice Sych 4156

- Population attributable fraction estimates for factors associated with different types of anaemia among women in Ethiopia: multilevel multinomial analysis
Kelema Tilahun Kibret, Catherine Chojenta, Ellie D'Arcy and Deborah Loxton 4166

- The association between purchasing locally produced food and diet quality among adults in Puerto Rico
Abrania Marrero, Martha Tamez, José F Rodríguez-Orengo and Josiemer Mattei 4177

- Differences in the prevalence of prediabetes, undiagnosed diabetes and diagnosed diabetes and associated factors in cohorts of Brazilian and English older adults
Eilane Souza Marques dos Santos, Roberta de Oliveira Máximo, Fabiula Bof de Andrade, Cesar de Oliveira, Maria Fernanda Lima-Costa and Tiago da Silva Alexandre 4187

- Methodological issues estimating population attributable fraction related to 'Health care cost of overweight-related diseases in Bangladesh'
Ahmad Khosravi and Mohammad Ali Mansouria 4195

- Association of sugar-sweetened beverage intake with maternal postpartum weight retention
Jasmin Mahabamunuge, Meg Simone, Benjamin Hong, Chrissy Horan, Sujata G Ayala, Kirsten Davison, Susan Redline and Elsie M Taveras 4196

- Pregestational BMI and higher offspring's risk of overweight/obesity in smoker and non-smoker mothers
Nerea Martín-Calvo, Susana Santiago Neri, Gloria Segura, Cesar I Fernandez-Lazaro, María Barbería-Latasa and Miguel-Ángel Martínez-González 4204

- The role of income and neighbourhood poverty in the association between the 2009 Special Supplemental Nutrition Program for Women, Infants and Children (WIC) food package change and child obesity among WIC-participating children in Los Angeles County, 2003–2016
M Pia Chaparro, Shannon E Whaley, Christopher E Anderson, May C Wang and Catherine M Crespi 4212

- Percentage of energy contribution according to the degree of industrial food processing and associated factors in adolescents (EVA-JF study, Brazil)
Adriana ST Melo, Felipe S Neves, Aline P Batista, George Luiz L Machado-Coelho, Daniela S Sartorelli, Eliane R de Faria, Michele P Netto, Renata MS Oliveira, Vanessa S Fontes and Ana Paula C Cândido 4220

- Prospective association between dietary patterns and BMI Z-score in Brazilian adolescents
Adélia CP Arruda Neta, José Cazuza Farias Junior, Flávia EL Lima Ferreira and Dirce M Marchioni 4230

- Folic acid supplementation and risk for congenital hydrocephalus in China
Jufen Liu, Zhiwen Li, Rongwei Ye, Aiguo Ren and Jianmeng Liu 4238

Economics and environment

- Differential educational patterning of cardiometabolic risks between women and men among community-dwelling Chinese adults in Hong Kong: the mediating role of obesity
Gary KK Chung, Francisco TT Lai, Heidi Hung, Eng-Kiong Yeoh and Roger Y Chung 4245

- Association of home cooking with caregiver-child interaction and child mental health: results from the Adachi Child Health Impact of Living Difficulty (A-CHILD) study
Yukako Tani, Satomi Doi, Aya Isumi and Takeo Fujiwara 4257

Community nutrition

- Charity- and project-based service learning models increase public service motivation outcomes among dietetic students in a community nutrition course
Lauren M Dinour and Jennifer Kuscin 4268

- School lunch nutritional adequacy: what is served, consumed and wasted
Margarida Liz Martins, Sara SP Rodrigues, Luis M Cunha and Ada Rocha 4277

- The association between dietary diversity and development among children under 24 months in rural Uganda: analysis of a cluster-randomised maternal education trial
Paul Kakwagire, Cami Moss, Nicholas Matovu, Prudence Atukunda, Ane C Westerberg, Per O Iversen and Grace Muhoozi 4286

- Mothers' knowledge, attitudes and practices regarding probiotic use during pregnancy and for their infants in Turkey
Umran Cevik Guner and Aygül Kissal 4297

- College student sleep quality and mental and physical health are associated with food insecurity in a multi-campus study
Rebecca L Hagedorn, Melissa D Olfert, Lillian MacNeill, Bailey Houghtaling, Lanae B Hood, Mateja R Savoie Roskos, Jeannine R Goetz, Valerie Kern-Lyons, Linda L Knol, Georgianna R Mann, Monica K Esquivel, Adam Hege, Jennifer Walsh, Keith Pearson, Maureen Berner, Jessica Soldavini, Elizabeth T Anderson-Steeves, Marsha Spence, Christopher Paul, Julia F Waity, Elizabeth D Wall-Bassett, Melanie D Hingle, E Brooke Kelly, J Porter Lillis, Patty Coleman and Mary Catherine Fontenot 4305

- What factors are associated with food security among recently arrived refugees resettling in high-income countries? A scoping review
JM Wood, AO Booth, C Margerison and A Worsley 4313

Interventions

- A 6-week healthy eating intervention with family engagement improves food knowledge and preferences but not dietary diversity among urban preschool children in Sri Lanka
Fathima Sirasa, Lana Mitchell, Aslan Azhar, Anoma Chandrasekara and Neil Harris 4328

Public policies

- Food insecurity and housing affordability among low-income families: does housing assistance reduce food insecurity?
Bo Kyong Seo and Gum-Ryeong Park 4339

- A scoping review of research on policies to address child undernutrition in the Millennium Development Goals era
Vanessa Pike, Beverly Bradley, Aviva I Rappaport, Stanley Zlotkin and Nandita Perumal 4346

- Packaged food supply in Fiji: nutrient levels, compliance with sodium targets and adherence to labelling regulations
Maria Shahid, Gade Waqa, Arti Pillay, Ateca Kama, Isimeli N Tukana, Briar L McKenzie, Jacqui Webster and Claire Johnson 4358

Expression of concern

- Calcium plus vitamin D supplementation affects pregnancy outcomes in gestational diabetes: randomized, double-blind, placebo-controlled trial – EXPRESSION OF CONCERN
Maryam Karamali, Zatollah Asemi, Maedeh Ahmadi-Dastjerdi and Ahmad Esmailzadeh 4369

Corrigendum

- Dietary flavonoids and flavonoid-rich foods: validity and reproducibility of FFQ-derived intake estimates – CORRIGENDUM
Yiyang Yue, Joshua Petimar, Walter C Willett, Stephanie A Smith-Warner, Changzheng Yuan, Sinar L Rossato, Laura Sampson, Bernard Rosner, Aedin Cassidy, Eric B Rimm and Kerry L Ivey 4370

- Awareness of marketing for high fat, salt, or sugar (HFSS) foods, and the association with higher weekly consumption among adolescents: A rejoinder to the UK Government's consultations on marketing regulation. – CORRIGENDUM
Nathan Critchlow, Linda Bauld, Christopher Thomas, Lucie Hooper and Jyotsna Vohra 4371
