

## **Call for SAA Award Nomination**

### **Award for Excellence in Latin American and Caribbean Archaeology**

This award recognizes an individual who has made a lasting and significant contribution to archaeology in Latin America or the Caribbean. In selecting the recipient of this award, the committee will pay particular attention to the cultural context in which the nominee works and to the different pathways to creating and promoting excellence in Latin American and Caribbean archaeology. The award is open to individuals at any point in their careers.

**Deadline: January 6, 2020**

For more information, visit the SAA Award page (<https://www.saa.org/career-practice/awards>).

## **Convocatoria para la nominación al Premio de la SAA**

### **Premio a la Excelencia en Arqueología Latinoamericana y Caribeña**

Este premio reconoce a un individuo que ha hecho una contribución perdurable y significativa a la arqueología en América Latina o el Caribe. Al seleccionar al destinatario de este premio, el comité prestará especial atención al contexto cultural en el que trabaja el nominado y a los diferentes caminos seguidos para crear y promover la excelencia en la arqueología de América Latina y el Caribe. El premio está abierto a personas que se encuentren en cualquier momento de sus carreras.

**Fecha límite: 6 de enero de 2020**

Para obtener más información, visite la página del Premio SAA (<https://www.saa.org/career-practice/awards>).

## Illinois State Archaeological Survey

PRAIRIE RESEARCH INSTITUTE

Between 2008 and 2012, the largest archaeological excavation ever in eastern North America—the New Mississippi River Bridge Project—was undertaken in Cahokia’s East St. Louis Precinct, revealing significant new details about the processes and history of indigenous American urbanism.

*Revealing Greater Cahokia* contains lots of specifics which more than whet the archaeological appetite for delving into the topical companion volumes, but also provides fresh “big” thinking.

—John F. Doershuk, State Archaeologist and Director, University of Iowa Office of the State Archaeologist

Greater Cahokia actually was one of the largest urban concentrations of people anywhere in the world at that time. This was the lesson we learned from digging Stonehenge—that it’s a small part of a much bigger complex. When I came to visit Cahokia it was very clear that it was the same thing.

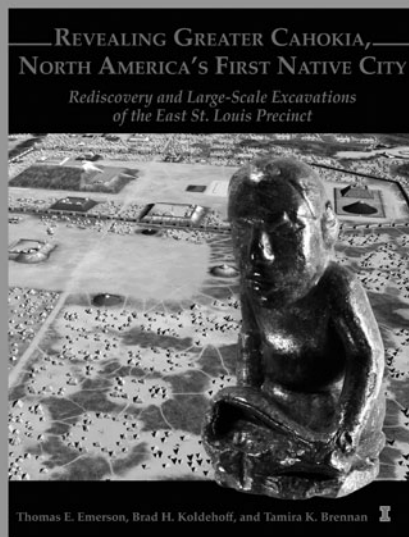

Cahokia is a UNESCO World Heritage site and was actually inscribed as such in 1982. It has been recognized for a long time as being of world importance, and with World Heritage sites there is a duty by the state to preserve, protect, and enhance people’s knowledge about them. Every effort should be made to actually ensure people understand and learn about these sites.

—Michael Parker Pearson, Professor of British Later Prehistory, Institute of Archaeology, University College London

### *Revealing Greater Cahokia, North America’s First Native City*

Edited by Thomas E. Emerson, Brad H. Koldehoff, and Tamira K. Brennan

## Tenure Track Faculty Position - Latin American Archaeology

The Department of Anthropology at California State University, Sacramento invites applications for a full-time, tenure-track Assistant Professor position in Latin American prehistory to begin Fall 2020.

Education: Ph.D. in Anthropology. ABD applicants will be considered. If ABD, all requirements for the doctoral degree must be completed by August 2020. Salary is dependent upon qualifications and professional experience.

We seek an anthropologist with training and ongoing research in Latin American prehistory. Geographic focus within Latin America, as well as topical specialization and research expertise are open to encourage a diverse applicant pool, but acceptable candidates must demonstrate qualifications to teach an upper division, general education course on the Archaeology of Mexico. An ongoing research program in Latin America is required, with the expectation that the successful candidate will facilitate research opportunities for students. Experience or skills that advance the program focus on the prehistory or ecology of hunter-gatherer or pre-state agricultural societies is preferred. Examples of desired methodological specialization that would complement and integrate effectively with existing faculty's expertise and perspectives include, but are not limited to, ethnoarchaeology, bioarchaeology, paleoethnobotany, or geoarchaeology. This position will support undergraduate degree concentrations in Archaeological and Biological Anthropology and in General Anthropology, and work with graduate students in our M.A. level program in Anthropology. The successful candidate will be expected to teach large sections of the Archaeology of Mexico course, and to develop upper division major's courses on regional prehistory and anthropological theory (for example, the development of complex societies). Development of a laboratory methods class in the candidate's area of analytical expertise and graduate seminars in archaeology are desirable.

The successful candidate will have an active research agenda showing evidence of conference presentations and peer-reviewed publications and potential for excellence in undergraduate teaching and research. We are especially interested in candidates who can contribute to the diversity and excellence of the academic community through research, teaching, student advising, service to the institution and broader community, and demonstrate a capacity to prepare students for a career in Anthropology. This hire is expected to enhance the Department's curricular and scholarly offerings to broaden the perspective and articulate with our diverse student body.

Sacramento State has a strong commitment to social and workplace diversity, and we welcome applications from underrepresented groups. Applicants should submit a cover letter outlining their research interests, scholarship, and teaching background; a curriculum vita, including contact information for three referees; a statement of the candidate's professional skills, experience, and/or willingness to engage in activities that advance campus equity, diversity, and inclusion goals; and unofficial transcripts.

Application Deadline: Review of applications will begin November 1st, 2019 and the position will remain open until filled. Materials received by this date will be given full consideration. For full job description and application, go to <http://csus.peopleadmin.com/postings/4228>

## NOTICE TO AUTHORS

*Latin American Antiquity* publishes original papers on the archaeology, prehistory, and ethnohistory of Latin America, i.e., Mesoamerica, Central America, and South America, together with culturally affiliated adjacent regions. Papers may also treat more general theoretical and methodological issues with relevance to Latin America. Authors submit manuscripts to the editor for consideration as ARTICLES or REPORTS in English, Spanish, or Portuguese. *Latin American Antiquity* has a fixed limit of 10,000 words for ARTICLES and 3,000 words for REPORTS. Tables and illustrations should be limited to those that are appropriate and necessary. Authors are required to submit manuscripts electronically through Editorial Manager® (<http://www.editorialmanager.com/laq>). Detailed information on policy, style, and technical matters of manuscript preparation is given in English and in Spanish in the “Editorial Policy, Information for Authors, and Style Guide for *American Antiquity*, *Latin American Antiquity*, and *Advances in Archaeological Practice*,” which can be accessed at <https://www.saa.org/publications/latin-american-antiquity>. For additional information, updates, or clarification, consult the managing editor at the SAA office in Washington, DC.
