Managing Editor

Gennifer Levey

Chief Copy Editor

Sumitra Mukerji

Proofreaders

Sylvia Elvin
Rashidah Ismaili AbuBakr

Editorial Board

Affective Neuroscience

Stephanie D. Preston/U. of Michigan

Atypical Neurodevelopment

Simon Baron-Cohen/Cambridge U.

Behavioral Neurogenetics

Wim E. Crusio/CNRS UMR

Cognition and Artificial Intelligence

Zenon Pylyshyn/Rutgers U.

Cognitive and Decision Sciences

Nick Chater/University College London

Cognitive Development

Annette Karmiloff-Smith/Birbeck College

Cognitive Neuroscience

Moshe Bar/Harvard Medical School

Computational Neuroscience

Nestor A. Schmajuk/Duke U.

Evolution of Brain and Cognition

Dean Falk/Florida State U.

Evolution of Cognition

Celia Heyes/Oxford U.

Experimental Analysis of Behavior

A. Charles Catania/U. Maryland, Baltimore County

Language and Language Disorders

Max Coltheart/Macquarie U.

Linguistics

Robert A. Freidin/Princeton U.

Perception

Bruce Bridgeman/U. of California, Santa Cruz

Philosophy of Science

Massimo Piattelli-Palmarini/U. of Arizona

Primate Cognition

Laurie R. Santos/Yale U.

Social Cognition

Mahzarin R. Banaji/Harvard U.

Social Cognitive Neuroscience

Rebecca Saxe/MIT

Vision, Language and Computation

Shimon Edelman/Cornell U.

FOUNDING EDITOR (1978–2001)

Stevan Harnad

Editorial Policy *Behavioral and Brain Sciences* (BBS) is an international journal providing a special service called Open Peer Commentary* to researchers in any area of psychology, neuroscience, behavioral biology, or cognitive science who wish to solicit, from fellow specialists within and across these BBS disciplines, multiple responses to a particularly significant and controversial piece of work. (See Instructions for Authors and Commentators, inside back cover and also at <http://journals.cambridge.org/BBSJournal/Inst>) The purpose of this service is to contribute to the communication, criticism, stimulation, and particularly the unification of research in the behavioral and brain sciences, from molecular neurobiology to artificial intelligence and the philosophy of mind.

Papers judged by the editors and referees to be appropriate for Commentary are circulated to a large number of commentators selected by the editors, referees, and author to provide substantive criticism, interpretation, elaboration, and pertinent complementary and supplementary material from a full cross-disciplinary perspective. The article, accepted commentaries, and the author's response then appear simultaneously in BBS.

Commentary on BBS articles may be provided by any qualified professional in the behavioral and brain sciences, but much of it is drawn from a large body of BBS Associates who have become formally affiliated with the project (see <http://journals.cambridge.org/BBSJournal/BBSAssoc>).

Qualified professionals are eligible to become BBS Associates if they have (1) been nominated by a current BBS Associate, (2) refereed for BBS, or (3) had a commentary or article accepted for publication. A special subscription rate is available to Associates. Individuals interested in serving as BBS Associates are asked to view the full instructions for joining at <http://journals.cambridge.org/BBSJournal/Inst/Assoc> and then email bbsjournal@cambridge.org.

Permission to copy (for users in the U.S.A.) is available from Copyright Clearance Center, <http://www.copyright.com>, email: info@copyright.com.

Subscriptions *Behavioral and Brain Sciences* (ISSN 0140-525X) is published bimonthly in February, April, June, August, October, and December. The subscription price of Volume 35 (2012) for *institutions* is US \$1193.00 for print and online, US \$1005.00 for online only, and US \$1093.00 for print only in the U.S.A., Canada, and Mexico; and UK £703.00 for print and online, UK £594.00 for online only, and UK £643.00 for print only elsewhere. The subscription price for *individuals* is US \$346.00 for print and online and US \$321.00 for print only in the U.S.A., Canada, and Mexico; and UK £203.00 for print and online and UK £189.20 for print only elsewhere. For *BBS Associates*, with proof of eligibility with order, US \$132.00 in the U.S.A., Canada, and Mexico; and UK £83.00 elsewhere. For *students*, with proof of eligibility with order, \$111.00 in the U.S.A., Canada, and Mexico; and UK £65.00 elsewhere. Subscription price includes surface postage. Single parts cost US \$238.00 (UK £118.00) plus postage. *Institutional orders* may be sent to a bookseller, or, in the U.S.A., Canada, and Mexico direct to: Cambridge University Press, 32 Avenue of The Americas, New York, NY 10013-2473 email: journals_subscriptions@cambridge.org; in the U.K. and rest of the world to: Cambridge University Press, The Edinburgh Building, Shaftesbury Road, Cambridge CB2 8RU, England, e-mail: journals_subscriptions@cambridge.cam.ac.uk. *Individuals* must order direct from the Press. You may also subscribe through the Cambridge Journals website, <http://journals.cambridge.org/bbs>.

Postmaster: Send address changes in the U.S.A., Canada, and Mexico to *Behavioral and Brain Sciences*, Cambridge University Press, Journals Dept., 100 Brook Hill Drive, West Nyack, NY 10994-2133, U.S.A. Send address change elsewhere to *Behavioral and Brain Sciences*, Cambridge University Press, The Edinburgh Building, Shaftesbury Road, Cambridge CB2 8RU, England.

Online availability *Behavioral and Brain Sciences* is part of the Cambridge Journals Online (CJO) service at <http://journals.cambridge.org>.

Institutional subscribers: Access to full-text articles online is currently included with the cost of the print subscription. Subscription must be activated; see <http://cambridge.journals.org>.

Advertising Inquiries about advertising should be sent to the Journals Advertising Department of the Cambridge or New York Office of Cambridge University Press.

*Modelled on the "CA Comment" service of the journal *Current Anthropology*.

Contents Volume 35:2 April 2012

Fincher, C. L. & Thornhill, R. Parasite-stress promotes in-group assortative sociality: The cases of strong family ties and heightened religiosity	61
Open Peer Commentary	
Atran, S. Parasite stress is not so critical to the history of religions or major modern group formations	79
Beit-Hallahmi, B. Connecting biological concepts and religious behavior	80
Blute, M. Condition-dependent adaptive phenotypic plasticity and interspecific gene-culture coevolution	81
Cashdan, E. In-group loyalty or out-group avoidance? Isolating the links between pathogens and in-group assortative sociality	82
Chang, L., Lu, H. J. & Wu, B. P. Pathogens promote matrilocal family ties and the copying of foreign religions	82
Currie, T. E. & Mace, R. Analyses do not support the parasite-stress theory of human sociality	83
de Barra, M. & Curtis, V. Are the pathogens of out-groups really more dangerous?	85
DeBruine, L. M., Little, A. C. & Jones, B. C. Extending parasite-stress theory to variation in human mate preferences	86
Figueredo, A. J., Gladden, P. R. & Black, C. J. Parasite stress, ethnocentrism, and life history strategy	87
Grotuss, J. The evolution and development of human social systems requires more than parasite-stress avoidance explanation	88
Navarrete, C. D. Coping with germs and people: Investigating the link between pathogen threat and human social cognition	89
Paul, G. S. High illness loads (physical and social) do not always force high levels of mass religiosity	90
Powell, R., Clarke, S. & Savulescu, J. An ethical and prudential argument for prioritizing the reduction of parasite-stress in the allocation of health care resources	90
Schaller, M. & Murray, D. R. Mechanisms by which parasites influence cultures, and why they matter	91
Swartwout, P., Purzycki, B. G. & Sosis, R. Form and function in religious signaling under pathogen stress	92
Uskul, A. K. Rethinking innovative designs to further test parasite-stress theory	93
Van de Vliert, E. & Postmes, T. Climato-economic livability predicts societal collectivism and political autocracy better than parasitic stress does	94
Vandello, J. A. & Hettinger, V. E. Parasite-stress, cultures of honor, and the emergence of gender bias in purity norms	95
Vigil, J. M. & Coulombe, P. Intra-regional assortative sociality may be better explained by social network dynamics rather than pathogen risk avoidance	96
Wall, J. N. & Shackelford, T. K. Immigration, parasitic infection, and United States religiosity	97
Waynforth, D. Time allocation, religious observance, and illness in Mayan horticulturalists	98
Authors' Reponse	
Fincher, C. L. & Thornhill, R. The parasite-stress theory may be a general theory of culture and sociality	99
