BECTON DICKINSON
MICROBIOLOGYSYSTEMS

BBL[®] Crystal[™] MRSA ID.

In 4 Hours, A New Age Dawns.

It's a significant development for your laboratory and your hospital. **BBL[®] Crystal[™]** MRSA ID. The first 4-hour test that accurately identifies methicillin-resistant *Staphylococcus aureus* strains (MRSA). So your lab can rapidly identify nosocomial infections. Your physicians can start effective patient therapy sooner. And your hospital can deliver better patient care.

With **BBL[®] Crystal[™]**, all you do is prepare the

broth, inoculate the wells, snap on the lid and incubate 4 hours. Under a UV light source, MRSA's visibly fluoresce bright orange. That's all there is to it!

Join the new age. For tremendous ease of use, speed, and time and money savings in fighting infection, use **BBL[®] Crystal[™]** MRSA ID. Available now from your Becton Dickinson Microbiology Systems distributor.

When your healthcare team treats Tuberculosis patients, normal protective measures are full of holes. You need to take extra precautions. And one of the best precautions you can take is the ClestraClean™ Air Purification System 525.

Using a patented process, the APS 525 achieves maximum efficiency in the capture and destruction of airborne TB microbes. The specially curved HEPA filter allows high-intensity, germicidal UV light to bathe the entire filtering surface—continuously

killing TB microbes.

And with 99.99% effective filtration, the APS 525 meets guidelines for Airborne Pathogen Removal set by the Centers for Disease Control and Prevention.

So when you're dealing with Tuberculosis, take the extra precaution—the ClestraClean™ Air Purification System 525.

For more information on the APS 525, call 1-800-825-3268 today.

You'll be breathing easier tomorrow.

APS 525

**IF YOU THINK
THIS WILL STOP TB,
THINK AGAIN.**

The Society for Hospital Epidemiology of America

1994 SHEA/CDC/AHA Training Course in Hospital Epidemiology
Scholarships for Infectious Disease Fellows

Call for Nominations

Program

The program will be held May 7-10, 1994 at the Omni Shoreham Hotel, Washington, DC. Donald A. Goldmann, M.D., William Martone, M.D., and Gina I'ugliese, R.N., MS., will co-chair the program. Enrollment in the program is limited to 120.

Purpose

This program, developed by the Society for Hospital Epidemiology of America (SHEA), the Centers for Disease Control and Prevention (CDC), and the American Hospital Association (AHA), is intended for infectious disease fellows and new hospital epidemiologists. They emphasize hands-on exercises in which participants work in small groups to detect, investigate, and control epidemiological problems encountered in the hospital setting. These work sessions are supplemented with lectures and seminars covering fundamental aspects of hospital epidemiology including epidemiology and surveillance, epidemic investigation, transmission and control of nosocomial infections, disinfection and sterilization, employee health, isolation systems, regulatory compliance, and quality improvement.

Awards

Scholarships in the amount of \$1,000, provided in part by an educational grant from Merck US Human Health, will be awarded to up to five infectious disease fellows for the program to defray the special course fee for fellows of \$350 and expenses incurred in attending the training program.

Interested fellows must submit a letter of no more than one page describing why they would like to have additional training in hospital epidemiology. A letter from the fellow's program director outlining the applicant's qualifications and suitability for the course also is required. The deadline for receipt of scholarship applications for the course is **Friday, April 1, 1994**.

The SHEA Educational Activities Committee will select the scholarship recipients based on review of these letters. Winners will be notified in mid-April 1994.

Nominations

Please send scholarship applications to:

Donald A. Goldmann, M.D.
c/o The Society for Hospital Epidemiology of America
875 Kings Highway, Suite 200
Woodbury, NJ 08096-3172

General Course Information

Information regarding the schedule, hotel and travel accommodations, discount airfare, and course fees are available from SHEA. Contact Ian Dockrill at (609) 845-1720. Note that application for a scholarship does not constitute enrollment in the program. This must be done separately.

Scholarship Awards provided in part by an educational grant from
