SENIOR EDITORS

Derek B. Booth
Nicholas Lancaster
Lewis A. Owen

ASSOCIATE EDITORS

Patrick J. Bartlein, Robert Booth, Louisa Bradtmiller, Aaron Diefendorf, John Dodson, Tyler Faith, Jaime Fucugauchi, Vance T. Holiday, Kathleen Johnson, Terri Lacourse, Pete Langdon, Thomas Lowell, Curtis W. Marean, Barbara Mauz, James O'Connor, W. Wyatt Oswald, Jeff Pigati, James Shulmeister, Ashok K. Singhvi, Xiaoping Yang

EDITORS EMERITI

A. Lincoln Washburn
Estella B. Leopold
Stephen C. Porter
Eric J. Steig
Alan R. Gillespie

MANAGING EDITOR

Karin Perring

Quaternary Research Center
Box 351360
University of Washington
Seattle, WA 98195-1360

EDITORIAL BOARD

ZHISHENG AN
Institute of Earth Environment, Chinese Academy of Sciences
Quaternary geology, monsoon and global change, dust and aerosols

GAIL ASHLEY
Rutgers University
Paleoenvironments, paleohydrology of springs, wetlands and rivers, geoarchaeology

JULIE BRIGHAM-GRETTE
University of Massachusetts
Stratigraphy, sedimentology, chronology of Arctic climate and sea level

JOHN DODSON
Institute of Earth Environments, Xi'an, China
Australia, Pacific Islands, China, vegetation history, human impacts

YEHOUDA ENZEL
Hebrew University of Jerusalem
Desert geomorphology, palaeohydrology of lakes and streams

DAVID FINK
Australian Nuclear Science and Technology Organisation
Cosmogenic dating

SHERI FRITZ
University of Nebraska-Lincoln
Paleoclimate, paleolimnology, diatom ecology of North and South America

ALAN R. GILLESPIE
University of Washington
Glacial geology, paleoclimate, megafloods, Central Asia

LISA GRAUMLICH
University of Washington
paleoclimatology, paleoecology, climate change, mountain ecosystems

DONALD K. GRAYSON
University of Washington
Archeology and vertebrate paleontology: North America and Western Europe

RICHARD G. KLEIN
Stanford University
Human origins, Quaternary paleontology

MELANIE LENG
British Geological Survey,
University of Nottingham
Stable isotope geochemistry, climate and environmental change

DANIEL R. MUHS
U.S. Geological Survey
Quaternary sea level history, Eolian stratigraphy, soils North America, Pacific, Atlantic, and Caribbean Islands

COLIN V. MURRAY-WALLACE
University of Wollongong
Coastal evolution, neotectonism, geochronology, Quaternary sea-level changes

JAY QUADE
Department of Geosciences,
University of Arizona
geochemistry, paleoclimatology, Quaternary geology

MARIA SOCORRO LOZANO-GARCIA
Universidad Nacional Autónoma de México
Tropical paleoecology, paleoclimatology, human impact on ecosystems

CATHY L. WHITLOCK
Montana State University
Paleoecology and vegetation history: North and South America

YURENA YANES
University of Cincinnati
Isotope geochemistry, paleoclimatology, Quaternary mollusks, taphonomy, paleoecology

LIPING ZHOU
Peking University
Land-sea correlation, loess, geochronology, geomorphology, Central Asia, East Asia

Cover photo. The cave of Kanaan (Lebanon), 162 m long, was discovered in 1997 in a quarry site. It hosts a large panel of calcite formations, from cave pearls and helictites to thick flowstone and giant stalagmites of several meters height. The calcite formations date to late MIS 7, overlying a clay deposit 4 m thick. Kanaan cave (ca. 90 m asl) is a relict phreatic cave, formed by water draining to the Antelias River when the water table was at or above 90 m asl, much higher than the present water table (ca. 15 m asl). Photo: Georges El-Haibe, Association Libanaise d'Etudes Speleologiques - ALES (See the article by Nehme et al., pages 10-25, in this issue.)
