

The Proceedings of the Nutrition Society, published by Cambridge University Press, in part record meetings of the Symposium type, at which experts in a particular field are invited by Council to make contributions on specific parts of it and at which general discussion follows these invited contributions. The meetings also include sessions at which papers are communicated by members and others on original work. It is proposed at present to publish summaries of the papers read at each meeting, each communication being recorded in the Society's *Proceedings* by means of an abstract not exceeding in length 400 words or the equivalent space in print. The *Proceedings* are published three times a year.

The subscription (excluding VAT) to the *Proceedings* is £117.00 net (US \$229.00 in USA, Canada and Mexico). Single issues are £41.00 (US \$79.00 in the USA, Canada and Mexico) each; postage extra.

Copying. This journal is registered with the Copyright Clearance Center, 222 Rosewood Drive, Danvers, MA 01923. Organizations in the USA who are also registered with C.C.C. may therefore copy material (beyond the limits permitted by sections 107 and 108 of the US copyright law) subject to payment to C.C.C. of the per-copy fee of \$5.00. This consent does not extend to multiple copying for promotional or commercial purposes. Code 0007-1145/94 \$5.00 + .00. Organizations authorized by the Copyright Licensing Agency may also copy material subject to the usual conditions.

ISI Tear Sheet Service, 3501 Market Street, Philadelphia, Pennsylvania 19104, USA, is authorized to supply single copies of separate articles for private use only.

For all other use, permission should be sought from Cambridge or the American Branch of Cambridge University Press.

The British Journal of Nutrition

VOL. 72 NO. 1 JULY 1994

CONTENTS

EditorialStandards of Peer Reviewing. *D. A. T. Southgate*

1-2

Energy expenditure and its measurementMeasurements of ^2H and ^{18}O in body water: analytical considerations and physiological implications. *P. Ritz, P. G. Johnson & W. A. Coward*

3-12

Total energy expenditure and energy intake in the pre-school child: a comparison. *Peter S. W. Davies, W. A. Coward, J. Gregory, A. White & A. Mills*

13-20

Energy metabolism in free-living, 'large-eating' and 'small-eating' women: studies using $^2\text{H}_{2}^{18}\text{O}$. *Dallas Clark, Frank Tomas, Robert T. Withers, Colin Chandler, Menno Brinkman, John Phillips, Michael Berry, F. John Ballard & Paul Nestel*

21-31

Comparison of methods for measuring body compositionMeasuring the body composition of elderly subjects: a comparison of methods. *J. J. Reilly, L. A. Murray, J. Wilson & J. V. G. A. Durnin*

33-44

Kinetics of nutrient incorporation in seabreamThe kinetics of nutrient incorporation into body tissues of gilthead seabream (*Sparus aurata*) females and the subsequent effects on egg composition and egg quality. *Moti Harel, Amos Tandler, George W. Kissil & Shalom W. Applebaum*

45-58

Dietary protein effects on protein turnoverThe effect of dietary crude protein content on apparent and true ileal nitrogen and amino acid digestibilities. *A. Donkoh & P. J. Moughan*

59-68

Casein and soya-bean protein have different effects on whole body protein turnover at the same nitrogen balance. *K. Nielsen, J. Kondrup, P. Elsner, A. Juul & E. S. Jensen*

69-81

Labelling of urinary ammonia in glutamine infusionThe effect of acidosis on the labelling of urinary ammonia during infusion of [amide- ^{15}N] glutamine in human subjects. *J. C. Waterlow, A. A. Jackson, M. H. N. Golden, F. Jahoor, G. Sutton & E. B. Fern*

83-92

Dietary modification of bile acid secretionDietary modifications of the biliary bile acid glycine:taurine ratio and activity of hepatic bile acid-CoA:amino acid N-acyltransferase (EC 2.3.1) in the rat. *T. Ide, S. Kano, M. Murata, T. Yanagita & M. Sugano*

93-100

Effects of meals on plasma lipidsFasting plasma triacylglycerol concentrations predict adverse changes in lipoprotein metabolism after a normal meal. *Jennifer L. Potts, Sandy M. Humphreys, Simon W. Coppack, Rachel M. Fisher, Geoffrey F. Gibbons & Keith N. Frayn*
