Editor

Martin Fisher, Fauna & Flora International, UK

Oryx - The International Journal of Conservation is a quarterly peer-reviewed journal of biodiversity conservation, conservation policy and sustainable use, and the interaction of these subjects with social, economic and political issues. The journal has a particular interest in material that has the potential to improve conservation management and practice, supports the publishing and communication aspirations of conservation researchers and practitioners worldwide, and helps build capacity for conservation.

Senior Editor

Peter D. Crittenden, University of Nottingham, UK

The Lichenologist is the premier scientific journal devoted exclusively to the study of lichens worldwide. As the leading forum for the dissemination of new concepts and topical reviews, *The Lichenologist* reaches more scientists concerned with the study of lichens and lichen symbionts than any other single journal. All aspects of lichenology are considered from systematics and molecular biology to eco-physiology and biogeography.

Editor

Norman Hughes, The Royal Institute of Navigation, UK

The Journal of Navigation contains original papers on the science of navigation by man and animals over land, on sea, in air and in space, including a selection of papers presented at meetings of the Institute and other organisations associated with navigation. Papers cover every aspect of navigation, from the highly technical to the descriptive and historical. Subjects include electronics, astronomy, mathematics, cartography, command and control, psychology and zoology, operational research, risk analysis, theoretical physics, operation in hostile environments, instrumentation, ergonomics, financial planning and law.

A. G. Whitham, CASP, University of Cambridge, UK

Geological Magazine is one of the oldest and best-known periodicals in earth sciences. It publishes original scientific papers covering the complete spectrum of geological topics, with high quality illustrations. Its attractive layout, Rapid Communications section and extensive Book Review section keep the journal at the forefront of the field.

THE MARINE BIOLOGICAL ASSOCIATION OF THE UNITED KINGDOM

TERMS OF MEMBERSHIP FOR 2010

Annual members, receiving the Journal – online only, per annum	£55.00*
Annual members, receiving the Journal – print only, per annum	£95.00*
Annual members, receiving the Journal – print and online, per annum	£115.00*
Annual members, without the Journal, per annum	£35.00*
Corporate members, receiving the Journal – print only, per annum	£400.00
Corporate members, receiving the Journal – print and online, per annum	£425.00
Student members, with the Journal – online only, per annum (non-voting)	£30.00
Student members, with the Journal – print only, per annum (non-voting)	£45.00
Student members, without the Journal, per annum (non-voting)	£20.00

The Association is a registered charity and was founded in 1884 to promote accurate researches leading to the advancement of zoological and botanical science and to increase our knowledge of the food, life, conditions and habits of British fish. The work of the Association is controlled by the Council elected annually by its subscribing members.

The Marine Biological Association, under the direction of its Council, has undertaken research in all branches of marine science and many of the results have been published in this Journal. An account of the history of the first hundred years of the Association and Journal may be found in Volume 67 (pp. 463 and 465). Summaries of the activities and research of the Association are given annually in the Report of the Council, sent to members in April, and to other subscribers with a later issue of the *JMBA*.

Since its foundation the Association has been supported by grants from Research Councils and by subscriptions and donations from private members, universities, learned societies, the Fishmongers' Company and other public bodies.

The Plymouth Laboratory was opened in June 1888 and, since that date, considerable additions have been made to the buildings, including a library, resource centre, extensive laboratory accommodation and seawater facilities.

In 1988 an agreement was reached between the MBA Council and the Natural Environment Research Council (NERC) to merge a large part of the Plymouth Laboratory with the NERC's Institute for Marine Science which had been in Plymouth since 1971. This new institute was called the Plymouth Marine Laboratory (PML) based at both Citadel Hill and West Hoe sites. In 2001 the MBA and PML re-established separate identities funded by Grants-in-aid from NERC. The Association and the research programme are based entirely at the Citadel Hill Laboratory. The building is shared with SAHFOS (Sir Alister Hardy Foundation for Ocean Science). The research organizations are part of the Plymouth Partnership

which includes PML, the University of Plymouth and the NMA (National Marine Aquarium). Active collaboration and shared resources mutually enhance the marine research programmes of the participants.

The Marine Biological Association retains the lease of the building on Citadel Hill and continues as a very active scientific learned society with a large international membership. The MBA manages a research programme carried out by research fellows (partly funded by NERC) together with scientific visitors, publishes an International Journal, Annual Report, Newsletters and organizes scientific meetings.

Subscriptions can be paid by cash/cheque, direct debit from a UK bank account or credit card. *Subscriptions are reduced by £5 per annum if paying by direct debit.

Members of the Association have the following rights and privileges: they elect the Officers and Council annually; they are entitled to receive the Journal of the Association at the members' rate; they receive the biannual Newsletter; they have the option to apply to the Director for research facilities at the laboratory; and they have access to the resources in the library at Plymouth during working hours. Corporate members have significant additional rights and privileges, details of which can be supplied on request. Student members do not have voting rights. The Commissioners of Inland Revenue have approved the Association for the purposes of Section 16, Finance Act, 1958, and that the whole of the annual subscriptions paid by a member who qualifies for relief under the section will be allowable as a deduction from his emoluments assessable to income tax.

All correspondence should be addressed to: The Membership Secretary, Marine Biological Association, The Laboratory, Citadel Hill, Plymouth, PL1 2PB, UK (Tel: +44 (0) 1752 633207; Fax: +44 (0) 1752 633102; e-mail: membership@mba.ac.uk).

CONTENTS

FOREWORD

- BOALCH, G.T. Frederick Stratten Russell, FRS (1897–1984): a distinguished scientist and stimulating leader 1073

CNIDARIA

- BENFIELD, M.C. & GRAHAM, W.M. *In situ* observations of *Stygiomedusa gigantea* in the Gulf of Mexico with a review of its global distribution and habitat 1079
- LUCAS, C.H. & REED, A.J. Gonad morphology and gametogenesis in the deep-sea jellyfish *Atolla wyvillei* and *Periphylla periphylla* (Scyphozoa: Coronatae) collected from Cape Hatteras and the Gulf of Mexico 1095
- DI CAMILLO, C.G., BETTI, F., BO, M., MARTINELLI, M., PUCE, S. & BAVESTRELLO, G. Contribution to the understanding of the seasonal cycle of *Aurelia aurita* (Cnidaria: Scyphozoa) scyphopolyps in the northern Adriatic Sea 1105
- KI, J.-S., HWANG, D.-S. & LEE J.-S. Simultaneous detection of *Aurelia* and *Chrysaora* scyphozoan jellyfish on a DNA microarray 1111
- PUGH, P.R. & HADDOCK, S.H.D. Three new species of remosiid siphonophore (Siphonophora: Physonectae) 1119
- PUCE, S., BO, M., DI CAMILLO, C.G., PAOLI, L., PICA, D. & BAVESTRELLO, G. Morphology and development of the early growth stages of an Indonesian *Stylaster* (Cnidaria: Hydrozoa) 1145

LONGTERM CHANGES

- LYNAM, C.P., ATTRILL, M.J. & SKOGEN, M.D. Climatic and oceanic influences on the abundance of gelatinous zooplankton in the North Sea 1153
- CAPASSO, E., JENKINS, S.R., FROST, M. & HINZ, H. Investigation of benthic community change over a century-wide scale in the western English Channel 1161

INVERTEBRATE PLANKTON

- SOROKIN, YU.I. & SOROKIN, P.YU. Plankton of the central Great Barrier Reef: abundance, production and trophodynamic roles 1173
- VARGAS, C.A., MARTÍNEZ, R.A., ESCRIBANO, R. & LAGOS, N.A. Seasonal relative influence of food quantity, quality, and feeding behaviour on zooplankton growth regulation in coastal food webs 1189
- DRIRA, Z., HAMZA, A., BEL HASSEN, M., AYADI, H., BOUAIN, A. & ALEYA, L. Coupling of phytoplankton community structure to nutrients, ciliates and copepods in the Gulf of Gabès (South Ionian Sea, Tunisia) 1203
- LANDEIRA, J.M., LOZANO-SOLDEVILLA, F., HERNÁNDEZ-LEÓN, S. & BARTON, E.D. Spatial variability of planktonic invertebrate larvae in the Canary Islands area 1217
- KOETTKER, A.G., FREIRE, A.S. & SUMIDA, P.Y.G. Temporal, diel and spatial variability of decapod larvae from St Paul's Rocks, an equatorial oceanic island of Brazil 1227
- GAONKAR, C.A. & ANIL, A.C. What do barnacle larvae feed on? Implications in biofouling ecology 1241

FISH LARVAE AND JUVENILES

- SASSA, C. Feeding ecology of *Symbolophorus californiensis* larvae (Teleostei: Myctophidae) in the southern transition region of the western North Pacific 1249
- DURIEUX, E.D.H., LE DUIGOU, M., MILLOT, S., SASAL, P. & BÉGOUT, M.-L. Sedentary behaviour establishment in 0-group common sole *Solea solea*: a laboratory video-tracking study 1257
- FARIA, C., GIL, F., SANTOS, R.S. & ALMADA, V.C. A comparison between the ontogeny of two related blenniid species *Parablennius gattorugine* and *Parablennius ruber* (Pisces: Blenniidae) 1263
