

Geological Magazine

with which is incorporated

The Geologist

founded in 1864 by the late DR HENRY WOODWARD, F.R.S.

Edited by C. P. HUGHES
N. H. WOODCOCK
I. N. McCAVE
and M. J. BICKLE

Assistant editor MRS J. M. HOLLAND

Editorial Board
M. P. COWARD
K. J. MCNAMARA
J. A. PEARCE
A. J. REEDMAN
J. R. WILSON
J. A. WOLFF
B. W. D. YARDLEY

CAMBRIDGE
UNIVERSITY PRESS

Volume 131 of Whole Series
January–December 1994

PUBLISHED BY
THE PRESS SYNDICATE OF THE UNIVERSITY OF CAMBRIDGE
The Pitt Building, Trumpington Street, Cambridge CB2 1RP
40 West 20th Street, New York, NY 10011-4211, USA
10 Stamford Road, Oakleigh, Melbourne, Australia

© Cambridge University Press 1994

Pagination and dates of publication in this volume

Number 1: pp. 1-144 January 1994
2: pp. 145-290 March 1994
3: pp. 291-434 May 1994
4: pp. 435-577 July 1994
5: pp. 579-713 September 1994
6: pp. 715-856 November 1994

Printed in Great Britain by the University Press, Cambridge

Contents

(Figures in bold type denote number of issue)

ARTICLES

ALAVI, M. & MAHDAVI, M. A.

Stratigraphy and structures of the Nahavand region in western Iran, and their implications for the Zagros tectonics, **1**, 43

ALSAKER, E. & FURNES, H.

Geochemistry of the Sunnfjord Melange: sediment mixing from different sources during obduction of the Solund–Stavfjord Ophiolite Complex, Norwegian Caledonides, **1**, 105

ALSOP, G. I.

Relationships between distributed and localized shear in the tectonic evolution of a Caledonian fold and thrust zone, northwest Ireland, **1**, 123

ALSOP, G. I.

The geometry and structural evolution of a crustal-scale Caledonian fold complex: the Ballybofey Nappe, northwest Ireland, **4**, 519

ARMSTRONG, H. A., SMITH, M. P., ALDRIDGE, R. J. & TULL, S. J.

Thermal maturation of the Lower Palaeozoic strata of northern Greenland from conodont colour alteration index (CAI) data: implications for burial history and hydrocarbon exploration, **2**, 219

ASHWAL, L. D. & TWIST, D.

The Kunene Complex, Angola/Namibia: a composite massif-type anorthosite complex, **5**, 579

BORRADAILE, G. J.

Magnetic remanence in the Chalk of eastern England: an unusually resistant VRM? **5**, 593

BRASIER, M. D., ROZANOV, A. YU., ZHURAVLEV, A. YU., CORFIELD, R. M. & DERRY, L. A.

A carbon isotope reference scale for the Lower Cambrian succession in Siberia: report of IGCP Project 303, **6**, 767

CLAYTON, C. J.

A rock volume accumulation curve for the late Ordovician–Silurian Welsh Basin, **4**, 539

COLE, P. D., PERROTTA, A. & SCARPATI, C.

The volcanic history of the southwestern part of the city of Naples, **6**, 785

DICKIN, A. P.

Nd isotope chemistry of Tertiary igneous rocks from Arran, Scotland: implications for magma evolution and crustal structure, **3**, 329

DOSTAL, J. & CHURCH, B. N.

Geology and geochemistry of the volcanic rocks of the Pioneer Formation, Bridge River area, southwestern British Columbia (Canada), **2**, 243

EDGECOMBE, G. D., VACCARI, N. E. & WAISFELD, B. G.

Lower Devonian calmonioid trilobites from the Argentine Precordillera: new taxa of the *Bouleia* Group, and remarks on the tempo of calmonioid radiation, **4**, 449

EVA, S. J. & MALTMAN, A. J.

Slump-fold and palaeoslope orientations in Upper Silurian rocks, North Wales, **5**, 685

EVANS, D. J. & CHADWICK, R. A.

Basement–cover relationships in the Shaftesbury area of the Wessex Basin, southern England, **3**, 387

FITZGERALD, E., FEELY, M., JOHNSTON, J. D., CLAYTON, G., FITZGERALD, L. J. & SEVAS-
TOPULO, G. D.

The Variscan thermal history of west Clare, Ireland, **4**, 545

- FORDE, A. & DAVIS, B. K.
Crack-reaction veins from the Hodgkinson Formation, North Queensland, Australia, **1**, 49
- GALLAGHER, V., O'CONNOR, P. J. & AFTALION, M.
Intra-Ordovician deformation in southeast Ireland: evidence from the geological setting, geochemical affinities and U–Pb zircon age of the Croghan Kinshelagh granite, **5**, 669
- GOODMAN, S.
The Portsoy–Duchray Hill Lineament: a review of the evidence, **3**, 407
- GREGOU, S., SOLAKIUS, N. & POMONI-PAPAIOANNOU, F.
The carbonate–flysch transition (late Maastrichtian–late Palaeocene) in the Arachova sequence of the Parnassus–Ghiona Zone, central Greece, **6**, 819
- HASLETT, S. K.
Plio-Pleistocene radiolarian biostratigraphy and palaeoceanography of the mid-latitude North Atlantic (DSDP Site 609), **1**, 57
- HELSEN, S. & KÖNIGSHOF, P.
Conodont thermal alteration patterns in Palaeozoic rocks from Belgium, northern France and western Germany, **3**, 369
- JENKYN, H. C., GALE, A. S. & CORFIELD, R. M.
Carbon- and oxygen-isotope stratigraphy of the English Chalk and Italian Scaglia and its palaeoclimatic significance, **1**, 1
- JEPSSON, L., VIIRA, V. & MÄNNIK, P.
Silurian conodont-based correlations between Gotland (Sweden) and Saaremaa (Estonia), **2**, 201
- JOHNSON, E. W., BRIGGS, D. E. G., SUTHREN, R. J., WRIGHT, J. L. & TUNNICLIFF, S. P.
Non-marine arthropod traces from the subaerial Ordovician Borrowdale Volcanic Group, English Lake District, **3**, 395
- KING, L. M.
Turbidite to storm transition in a migrating foreland basin: the Kendal Group (Upper Silurian), northwest England, **2**, 255
- LE LOEUFF, J., BUFFETAUT, E. & MARTIN, M.
The last stages of dinosaur faunal history in Europe: a succession of Maastrichtian dinosaur assemblages from the Corbières (southern France), **5**, 625
- LINDSTRÖM, M., FLODÉN, T., GRAHN, Y. & KATHOL, B.
Post-impact deposits in Tvären, a marine Middle Ordovician crater south of Stockholm, Sweden, **1**, 91
- LOPEZ-DIAZ, F. & BASTIDA, F.
Structural data from drill core, **5**, 619
- MALIVA, R. G. & DICKSON, J. A. D.
Origin and environment of formation of late diagenetic dolomite in Cretaceous/Tertiary chalk, North Sea Central Graben, **5**, 609
- MARTÍ, J., MITJAVILA, J. & ARAÑA, V.
Stratigraphy, structure and geochronology of the Las Cañadas caldera (Tenerife, Canary Islands), **6**, 715
- MCCAFFREY, K. J.
Magmatic and solid state deformation partitioning in the Ox Mountains granodiorite, **5**, 639
- McLOUGHLIN, S. & LONG, J. A.
New records of Devonian plants from southern Victoria Land, Antarctica, **1**, 81
- MITCHELL, A. H. G. & CARLILE, J. C.
Mineralization, antiforms and crustal extension in andesitic arcs, **2**, 231
- MOUSTAFA, A. R. & KHALIL, M. H.
Rejuvenation of the eastern Mediterranean passive continental margin in northern and central Sinai: new data from the Themed Fault, **4**, 435
- PARNELL, J., GENG ANSONG, FU JIAMO & SHENG GUOYING
Geology and geochemistry of bitumen vein deposits at Ghost City, Junggar Basin, northwest China, **2**, 181
- PAUL, C. R. C., MITCHELL, S., LAMOLDA, M. & GOROSTIDI, A.
The Cenomanian–Turonian Boundary Event in northern Spain, **6**, 801

- RICKARDS, R. B., HAMEDI, M. A. & WRIGHT, A. J.
A new Arenig (Ordovician) graptolite fauna from the Kerman District, east-central Iran, **1**, 35
- ROCA, E., GUIMERÀ, J. & SALAS, R.
Mesozoic extensional tectonics in the southeast Iberian Chain, **2**, 155
- SCHMITZ, B., JEPPSSON, L. & EKVALL, J.
A search for shocked quartz grains and impact ejecta in early Silurian sediments on Gotland, Sweden, **3**, 361
- SEYİTOĞLU, G. & SCOTT, B. C.
Late Cenozoic basin development in west Turkey: Gördes basin tectonics and sedimentation, **5**, 631
- SMITH, L. H., KAUFMAN, A. J., KNOLL, A. H. & LINK, P. K.
Chemostratigraphy of predominantly siliciclastic Neoproterozoic successions: a case study of the Pocatello Formation and Lower Brigham Group, Idaho, USA, **3**, 301
- SOPER, N. J.
Neoproterozoic sedimentation on the northeast margin of Laurentia and the opening of Iapetus, **3**, 291
- UNDERWOOD, C. J.
Faunal transport within event horizons in the British Upper Silurian, **4**, 485
- UNDERWOOD, C. J. & BOTTRELL, S. H.
Diagenetic controls on multiphase pyritization of graptolites, **3**, 315
- URQUHART, E. & BANNER, F. T.
Biostratigraphy of the supra-ophiolite sediments of the Troodos Massif, Cyprus: the Cretaceous Perapedhi, Kannaviou, Moni and Kathikas formations, **4**, 499
- VIDAL, G., JENSEN, S. & PALACIOS, T.
Neoproterozoic (Vendian) ichnofossils from Lower Alcedian strata in central Spain, **2**, 169
- VIDAL, G., PALACIOS, T., GÁMEZ-VINTANED, J. A., DÍEZ BALDA, M. A. & GRANT, S. W. F.
Neoproterozoic–early Cambrian geology and palaeontology of Iberia, **6**, 729
- WARRINGTON, G., COPE, J. C. W. & IVIMEY-COOK, H. C.
St Audrie's Bay, Somerset, England: a candidate Global Stratotype Section and Point for the base of the Jurassic System, **2**, 191
- WENNERBERG, O. P., ANDRESEN, A., HANSEN, S. & BERGH, S. G.
Structural evolution of a frontal ramp section of the West Spitsbergen, Tertiary fold and thrust belt, north of Isfjorden, Spitsbergen, **1**, 67
- WILLAN, R. C. R.
Structural setting and timing of hydrothermal veins and breccias on Hurd Peninsula, South Shetland Islands: a possible volcanic-related epithermal system in deformed turbidites, **4**, 465
- WOLFF, J. A.
Physical properties of carbonate magmas inferred from molten salt data, and application to extraction patterns from carbonatite–silicate magma chambers, **2**, 145
- YOUNG, T., MARTIN, F., DEAN, W. T. & RUSHTON, A. W. A.
Cambrian stratigraphy of St Tudwal's Peninsula, Gwynedd, northwest Wales, **3**, 335
- ZELILIDIS, A. & KONTOPOULOS, N.
Pliocene–Pleistocene fluvial/wave dominated deltaic sedimentation: the Pamisos delta, southwest Peloponnesus, Greece, **5**, 653

RAPID COMMUNICATIONS

- ALLEN, M. R., GRIFFITHS, P. A., CRAIG, J., FITCHES, W. R. & WHITTINGTON, R. J.
Halokinetic initiation of Mesozoic tectonics in the southern North Sea: a regional model, **4**, 559
- BENNETT, M. R., DOYLE, P., MATHER, A. E. & WOODFIN, J. L.
Testing the climatic significance of dropstones: an example from southeast Spain, **6**, 845
- BERRY, C. M.
First record of the Devonian lycophyte *Leclercqia* from South America, **2**, 269

- BUFFETAUT, E., RAKSASKULWONG, L., SUTEETHORN, V. & TONG, H.
First post-Triassic temnospondyl amphibians from the Shan-Thai block: intercentra from the Jurassic of peninsular Thailand, **6**, 837
- HODGES, P.
The base of the Jurassic System: new data on the first appearance of *Psiloceras planorbis* in southwest Britain, **6**, 841
- WELLMAN, C. H.
Palynology of the 'Lower Old Red Sandstone' at Glen Coe, Scotland, **4**, 563

DISCUSSIONS

- ALSOP, G. I. & HUTTON, D. H. W.
Discussion on major southeast-directed Caledonian thrusting and folding in the Dalradian rocks of mid-Ulster: implications for Caledonian tectonics and mid-crustal shear zones: Reply, **3**, 419
- ARTHURS, J. W.
Discussion on major southeast-directed Caledonian thrusting and folding in the Dalradian rocks of mid-Ulster: implications for Caledonian tectonics and mid-crustal shear zones: Comment, **3**, 417
- ERICKSEN, G. E.
Discussion on a petrographic study of the Chilean nitrates: Comment, **6**, 849
- SEARL, A.
Discussion on a petrographic study of the Chilean nitrates: Reply, **6**, 850
- SMITH, R. A. & JOHNSTON, T. P.
Discussion on major southeast-directed Caledonian thrusting and folding in the Dalradian rocks of mid-Ulster: implications for Caledonian tectonics and mid-crustal shear zones: Comment, **3**, 418

PUBLICATIONS RECEIVED

Lists appear beginning pages **1**, 143; **2**, 289; **3**, 433; **4**, 577; **5**, 713; **6**, 855

NOTICES

Notices from the International Commission on Zoological Nomenclature occur on pages **1**, 142; **3**, 422

NOTES FOR CONTRIBUTORS

Contributions for publication should be addressed to The Editors, *Geological Magazine*, Department of Earth Sciences, Downing Street, Cambridge CB2 3EQ, England, or may be submitted through a member of the Editorial Advisory Board (addresses inside front cover). Rapid Communications should be clearly marked as such on the envelope. Submission implies that the manuscript has not been published previously nor currently submitted for publication elsewhere. Upon acceptance of a manuscript, the author will be asked to transfer copyright to the publisher.

All contributions, whether articles, correspondence or reviews, must be sent in triplicate and typed on one side of the paper, with wide margins and double-line spacing throughout. Any minor corrections should be made neatly in the typescript, leaving the margins clear. Contributions should follow the general style of papers in recent issues of the *Magazine*. The author is invited to nominate up to five possible referees, who will not necessarily be used.

Articles must be accompanied by a brief, informative rather than indicative, abstract. Headings should be set out clearly but not underlined. Primary headings should be in lower case, at margin, with arabic numeral; subheadings should be numbered 2.a., 2.b., etc., and tertiary headings 2.a.1., 2.a.2. No cross-references should be given by page number, but 'above' and 'below' should be used with the section specified, e.g. Section 2.a.2. The SI system of units should be used. The author should mark in the margin of the manuscript where figures and tables may be inserted. References to points in larger works should, where possible, quote the page reference, e.g. Ager, 1981, p. 102. Authors alone are responsible for the correctness of their references.

Rapid Communications should follow the style of articles and must be no more than four printed pages of the *Magazine* (approximately 5000 word-equivalents) including an abstract of no more than 100 words. These contributions will be dealt with by a streamlined schedule and should appear within six months from receipt. To meet this schedule, authors will be required to make revisions with minimal delay.

Discussions of papers which have already appeared in the *Magazine* are welcomed, subject to the four-page limit.

Tables should be typed with double-line spacing on sheets separate from the running text. Each table must have a caption that will make the data in the table intelligible without reference to the text.

Illustrations should be submitted at $1\frac{1}{2} \times$ size to be published. The Author's name and figure number should be clearly marked on the

back of each piece of artwork. Figures will preferably be either single column (80 mm) or double column (169 mm) width when printed. The height of figure can vary in either width up to full print area height (240 mm). Illustrations should have scale bars, not 'x 40'. Redrafting may be required by the editors if major savings in print area can be achieved without loss of information. Detailed maps or multiple logs may well require a whole page and the size of the lettering should match the necessary reduction. Where necessary break a figure into two facing pages; folding figures will not be accepted. Landscape figures should have no lettering upside down on the final printed page. Avoid where possible gross disparities in lettering size on the drawing. See figure below for optimum size of original and final lettering size. Boxes of ornament should be explained within the figure, not in the caption. Figures composed of photographs should be glossy prints presented at publication scale. Each component part should be named with a lower-case letter and given a scale bar. Photographic artwork is numbered as part of the sequence of figures, not as separate plates. The *Magazine* will be able to publish a limited number of free colour plates each year; the editors will decide which plates to accept on their scientific merit. Authors submitting colour plates are asked to give detailed reasons why colour is necessary. Duplicates of illustrations should be sent, and may be prints or, preferably, photocopies reduced to final size. Figure captions must be typed with double-line spacing on sheets separate from the running text.

References must be double-spaced and spelt out in full, e.g. BROOKS, M. & JAMES, D. G. 1975. The geological results of seismic refraction surveys in the Bristol Channel, 1970-73. *Journal of the Geological Society, London* **131**, 163-82.

Books should be cited as:

AGER, D. V. 1981. *The Nature of the Stratigraphical Record*, 2nd ed. London: Macmillan, 122 pp.

BOTT, M. H. P. 1973. The evolution of the Atlantic north of the Faroe Islands. In *Implications of Continental Drift to the Earth Sciences*, vol. 1 (eds D. H. Tarling and S. N. Runcorn), pp. 175-89. London, New York: Academic Press.

Unpublished work should normally be referred to in the text in parentheses as, for example, 'private communication' or 'unpub. Ph.D. thesis, Univ. London, 1988', and not included in the reference list unless in the press.

Fifty offprints of each paper will be provided free of charge. Additional offprints may be purchased according to a set scale of charges if ordered when the proofs are returned.

VOLUME 131

NUMBER 6

NOVEMBER 1994

Geological Magazine

CONTENTS

- Stratigraphy, structure and geochronology of the Las Cañadas caldera (Tenerife, Canary Islands)
MARTÍ, J., MITJAVILA, J. & ARAÑA, V. 715–727
- Neoproterozoic–early Cambrian geology and palaeontology of Iberia
VIDAL, G., PALACIOS, T., GÁMEZ-VINTANED, J. A., DÍEZ BALDA, M. A. & GRANT, S. W. F. 729–765
- A carbon isotope reference scale for the Lower Cambrian succession in Siberia: report of IGCP Project 303
BRASIER, M. D., ROZANOV, A. YU., ZHURAVLEV, A. YU., CORFIELD, R. M. & DERRY, L. A. 767–783
- The volcanic history of the southwestern part of the city of Naples
COLE, P. D., PERROTTA, A. & SCARPATI, C. 785–799
- The Cenomanian–Turonian Boundary Event in northern Spain
PAUL, C. R. C., MITCHELL, S., LAMOLDA, M. & GOROSTIDI, A. 801–817
- The carbonate–flysch transition (late Maastrichtian–late Palaeocene) in the Arachova sequence of the Parnassus–Ghiona Zone, central Greece
GREGOU, S., SOLAKIUS, N. & POMONI-PAPAIOANNOU, F. 819–836
- ### RAPID COMMUNICATIONS
- First post-Triassic temnospondyl amphibians from the Shan-Thai block: intercentra from the Jurassic of peninsular Thailand
BUFFETAUT, E., RAKSASKULWONG, L., SUTEETHORN, V. & TONG, H. 837–839
- The base of the Jurassic System: new data on the first appearance of *Psiloceras planorbis* in southwest Britain
HODGES, P. 841–844
- Testing the climatic significance of dropstones: an example from southeast Spain
