

**TAXONOMIC LIST OF THE CUBAN LIVING FORAMINIFERA**

**CHAVEZ-MARRERO, María E., Instituto de Oceanología, Ave. 1<sup>ra</sup> No. 18406 e/. 184 y 186 Rto. Flores, Habana, FAX: 33-9112, CUBA; FURRAZOLA-BERMUDEZ, Gustavo., Instituto de Geología y Paleontología, Vía Blanca y Línea del Ferrocarril, Habana, Cod. 11 000, CUBA.**

A Taxonomic list of all living foraminifera from Cuba is presented in a Systematic order. This compilation is made for the first time, based on different Cuban collections.

The list includes 973 species and 227 genera, grouped in 57 families and 14 superfamilies. The paper will be very important for ecologic studies, oceanography and other aspects in Cuban marine researchs.
