

Earth and Environmental Science

Transactions of the Royal Society of Edinburgh

volume 109 parts 1–2 2019
(for 2018)

Special Issue

**Fossils, Function and
Phylogeny: Papers on Early
Vertebrate Evolution
in Honour of
Professor Jennifer A. Clack**

Editors

**Marcello Ruta,
Per E. Ahlberg and
Timothy R. Smithson**

Published by The RSE Scotland Foundation, 22–26 George Street, Edinburgh EH2 2PQ

The Royal Society of Edinburgh is committed to the widespread dissemination of scientific knowledge and has published the *Transactions of the Royal Society of Edinburgh* since 1785, when James Hutton's 'Theory of the Earth' was published in Volume 1. The journal evolved to the *Transactions of the Royal Society of Edinburgh: Earth Sciences* in 1980 and is now (as from 2007) the *Earth and Environmental Science Transactions of the Royal Society of Edinburgh*. Through this journal, the Society continues to encourage and support the international Earth and Environmental Science communities by:

- publishing a journal of international standing and authorship;
- publishing substantial papers on all scientific aspects of **the Earth and its surface environments**;
- publishing without page or colour charges;
- reproducing photographs and artwork to the highest standard, where appropriate at a size larger than is customary; and
- aiming to have papers reviewed within three months by at least two referees of international standing; and usually publishing within six months of acceptance.

The Editorial Board welcomes original manuscripts in the Earth and Environmental Sciences. It also welcomes proposals for Special Issues in these areas.

Editorial Board (as at 31 July 2018)

Ian ALSOP (*Editor*), University of Edinburgh *Tectonics/structural geology*

Donald DAVIDSON (*Chairman & Editor-in-Chief*), University of Stirling *Soil science; soil conservation; anthropogenic impacts on soils; soil biodiversity; geoarchaeology*

Kevin EDWARDS (*Editor*), University of Aberdeen *Environmental change in northern Europe & North Atlantic; Palynology; palaeoecology; Quaternary science; environmental archaeology*

Tony FALLICK (*Editor*), University of Glasgow *Isotope biogeosciences; economic geology; dating & geochronology; the Palaeoproterozoic & Neoproterozoic*

Fiona FORDYCE (*Editor*), British Geological Survey

John GORDON (*Editor*), University of St Andrews *Geodiversity; geoconservation; Quaternary research*

Alistair MCGOWAN (*Editor*), BioGeoD, Edinburgh *Palaeobiology; biodiversity; invertebrate palaeontology; the Fossil Record*

Andrew ROSS (*Editor*), National Museums Scotland, Edinburgh *Invertebrate palaeontology; palaeobiology; palaeoecology; palaeoenvironment; palaeoclimate*

Chris SOULSBY (*Editor*), University of Aberdeen *Hydrogeology; biogeochemistry*

Philip STONE (*Editor*), British Geological Survey, Edinburgh *Scottish and South Atlantic regional geology and tectonics*

Stig WALSH (*Editor*), National Museums Scotland, Edinburgh *Vertebrate palaeobiology; vertebrate palaeontology*

COPYRIGHT: It is the policy of the Royal Society of Edinburgh not to charge any royalty for the production of a single copy of any one article made for private study or research. Specific permission will not be required for photocopying multiple copies of copyright material, to be used for *bona fide* educational purposes, provided this is done by a member of the staff of the university, school or other comparable institution, for distribution without profit to student members of that institution, and provided the copies are made from the original journal. Requests for the copying or reprinting of any article for any other purpose should be sent to the Journals & Archive Officer at the Royal Society of Edinburgh. (publications@theRSE.org.uk).

Earth and Environmental Science Transactions of the Royal Society of Edinburgh is published as one volume of four parts per year, usually in a combination of single and double issues. Volume 108 (2017) will provisionally be published in three parts – one double issue and two single issues.

An annual subscription to *EESTRSE* costs GBP362/ USD663 (Print plus Online); or GBP314/ USD582 (Online only).

Orders should be placed with Cambridge University Press, Journals Fulfilment Department, UPH, Shaftesbury Road, Cambridge CB2 8BS, UK. Telephone: 44 (0)1223 326070; Fax: 44 (0)1223 325150; email: journals@cambridge.org

EESTRSE is indexed/abstracted in the following: Current Contents/Physical, Chemical & Earth Sciences; Biosciences Information Service; Geoabstracts; GEOBASE; Mineralogical Abstracts; Science Citation Index; SciSearch; VINITI (All-Russian Institute of Scientific and Technical Information); *Zoological Record*.

CONTENTS

M. RUTA, P. E. AHLBERG and T. R. SMITHSON Fossils, function, and phylogeny: papers on early vertebrate evolution in honour of Professor Jennifer A. Clack – Introduction	1
M. I. COATES and K. TIETJEN 'This strange little palaeoniscid': a new early actinopterygian genus, and commentary on pectoral fin conditions and function	15
M. FRIEDMAN, S. E. PIERCE, M. COATES and S. GILES Feeding structures in the ray-finned fish <i>Eurynotus crenatus</i> (Actinopterygii: Eurynotiformes): implications for trophic diversification among Carboniferous actinopterygians	33
T. R. SMITHSON, T. J. CHALLANDS and K. Z. SMITHSON Traquair's lungfish from Loanhead: dipnoan diversity and tooth plate growth in the late Mississippian	49
O. A. LEBEDEV and G. CLÉMENT New tetrapodomorph vertebrates from the Yam-Tesovo locality (Amata Regional Stage, Middle–Upper Devonian) of Leningrad Region, northwestern Russia	61
V. KAMSKA, E. B. DAESCHLER, J. P. DOWNS, P. E. AHLBERG, P. TAFFOREAU and S. SANCHEZ Long-bone development and life-history traits of the Devonian tristichopterid <i>Hyneria lindae</i>	75
B. V. DICKSON and S. E. PIERCE How (and why) fins turn into limbs: insights from anglerfish	87
C. PFAFF, J. KRIWET, K. MARTIN and Z. JOHANSON Ontogenetic development of the otic region in the new model organism, <i>Leucoraja erinacea</i> (Chondrichthyes; Rajidae)	105
P. E. AHLBERG Follow the footprints and mind the gaps: a new look at the origin of tetrapods	115
J. A. LONG, A. M. CLEMENT and B. CHOO New insights into the origins and radiation of the mid-Palaeozoic Gondwanan stem tetrapods	139
E. C. HERBST and J. R. HUTCHINSON New insights into the morphology of the Carboniferous tetrapod <i>Crassigyrinus scoticus</i> from computed tomography	157
J. R. BOLT and R. E. LOMBARD Palate and braincase of <i>Whatcheeria deltae</i> Lombard & Bolt, 1995	177
A. R. MILNER Two primitive trematopid amphibians (Temnospondyli, Dissorophoidea) from the Upper Carboniferous of the Czech Republic	201
J. KLEMBARA and M. MIKUDÍKOVÁ New cranial material of <i>Discosauriscus pulcherrimus</i> (Seymouriamorpha, Discosauriscidae) from the Lower Permian of the Boskovice Basin (Czech Republic)	225
A. C. MILNER A morphological revision of <i>Keraterpeton</i> , the earliest horned nectridean from the Pennsylvanian of England and Ireland	237

J. D. PARDO, R. HOLMES and J. S. ANDERSON An enigmatic braincase from Five Points, Ohio (Westphalian D) further supports a stem tetrapod position for aïstopods	255
J. E. A. MARSHALL, E. J. REEVES, C. E. BENNETT, S. J. DAVIES, T. I. KEARSEY, D. MILLWARD, T. R. SMITHSON and M. A. E. BROWNE Reinterpreting the age of the uppermost ‘Old Red Sandstone’ and Early Carboniferous in Scotland	265
D. MILLWARD, S. J. DAVIES, P. J. BRAND, M. A. E. BROWNE, C. E. BENNETT, T. I. KEARSEY, J. E. SHERWIN and J. E. A. MARSHALL Palaeogeography of tropical seasonal coastal wetlands in northern Britain during the early Mississippian Romer’s Gap	279
E. TSCHOPP and P. UPCHURCH The challenges and potential utility of phenotypic specimen-level phylogeny based on maximum parsimony	301
M. S. Y. LEE, M. G. BARON, D. B. NORMAN and P. M. BARRETT Dynamic biogeographic models and dinosaur origins	325
F. WITZMANN and M. RUTA Evolutionary changes in the orbits and palatal openings of early tetrapods, with emphasis on temnospondyls	333
M. RUTA, J. KRIEGER, K. D. ANGIELCZYK and M. A. WILLS The evolution of the tetrapod humerus: morphometrics, disparity, and evolutionary rates	351
