

Index of Subjects

Adipose tissue cellularity

Dietary-induced obesity: effect of dietary fats on adipose tissue cellularity in mice. 49, 17, 1983

Influence of feeding level and of protein level in early life on the cellularity of adipose tissue and body fat content of growing pigs. 49, 109, 1983

Alkaline phosphatase (EC 3.1.3.1)

Adaptive increase in phytate digestibility by phosphorus-deprived rats and the relationship of intestinal phytase (EC 3.1.3.8) and alkaline phosphatase (EC 3.1.3.1) to phytate utilization. 49, 145, 1983

Amino acid absorption

Apparent amino acid absorption from feather meal by chicks. 49, 395, 1983

Amino acids

Methionine requirement of kittens given amino acid diets containing adequate cystine. 49, 411, 1983

Artificial rearing

Artificial rearing of pigs. 13. Effect of replacement of dried skim-milk by a functional fish-protein concentrate on the performance of the pigs and digestion of protein. 49, 43, 1983

Growth and development of rats artificially reared on a high or a low plane of nutrition. 49, 497, 1983

Ascorbic acid

Effect of pharmacological doses of ascorbic acid on the hepatic microsomal haemoproteins in the guinea-pig. 49, 27, 1983

ATP

Elevated erythrocyte phosphoribosylpyrophosphate and ATP concentrations in Japanese sumo wrestlers. 49, 3, 1983

Body composition

Effect of overfeeding by gastric intubation on body composition of adult female rats and on heat production during feeding and fasting. 49, 193, 1983

Body fat

Influence of feeding level and of protein level in early life on the cellularity of adipose tissue and body fat content of growing pigs. 49, 109, 1983

Bone

Protein synthesis in skin and bone of the young rat. 49, 517, 1983

Brassica diet

Iodine metabolism and thyroid hormone relationships in growing sheep fed on kale (*Brassica oleracea*) and ryegrass (*Lolium perenne*) - clover (*Trifolium repens*) fresh-forage diets. 49, 241, 1983

Calcium

The effect of 1 α -hydroxycholecalciferol on the placental transfer of calcium and phosphate in sheep. 49, 475, 1983

Calcium absorption

Intestinal absorption of calcium in rats given diets

containing casein or amino acid mixture: the role of casein phosphopeptides. 49, 67, 1983

Casein phosphopeptides

Intestinal absorption of calcium in rats given diets containing casein or amino acid mixture: the role of casein phosphopeptides. 49, 67, 1983

Cholesterol

Effects of whey protein, casein, soya-bean and sunflower proteins on the serum, tissue and faecal steroids in rats. 49, 313, 1983

Copper

The influence of dietary iron and molybdenum on copper metabolism in calves. 49, 77, 1983

Cystine

Methionine requirement of kittens given amino acid diets containing adequate cystine. 49, 411, 1983

Diet composition

The influence of protein:energy value of the ration and level of feed intake on the energy and nitrogen metabolism of the growing pig. 1. Energy metabolism. 49, 255, 1983

The influence of protein:energy value of the ration and level of feed intake on the energy and nitrogen metabolism of the growing pig. 2. N metabolism at two environmental temperatures. 49, 271, 1983

Dietary energy

Effects of the nature and amount of dietary energy on lipid composition of rat gingival tissue. 49, 187, 1983

Dietary fats

Dietary-induced obesity: effect of dietary fats on adipose tissue cellularity in mice. 49, 17, 1983

Dietary fibre

Reduced plasma half-life of radio-labelled 25-hydroxyvitamin D₃ in subjects receiving a high-fibre diet. 49, 213, 1983

Dietary proteins

Effects of whey protein, casein, soya-bean and sunflower proteins on the serum, tissue and faecal steroids in rats. 49, 313, 1983

Dietary survey

Food intolerance: a community survey. 49, 217, 1983

Digestion

Digestion of rumen bacteria in vitro. 49, 101, 1983

Digestive tract

Absorption of homocitrulline from the gastrointestinal tract. 49, 35, 1983

Energy exchange

Energy and nitrogen metabolism of lactating rabbits. 49, 507, 1983

Energy intake

Excess energy intake promotes the development of hypoalbuminaemia in rats fed on low-protein diets. 49, 9, 1983

Energy metabolism

The effects of energy intake and dietary protein on nitrogen retention, growth performance, body composition and some aspects of energy metabolism of baby pigs. 49, 221, 1983

The influence of protein:energy value of the ration and level of feed intake on the energy and nitrogen metabolism of the growing pig. 1. Energy metabolism. 49, 255, 1983

Environmental temperature

The influence of protein:energy value of the ration and level of feed intake on the energy and nitrogen metabolism of the growing pig. 2. N metabolism at two environmental temperatures. 49, 271, 1983

Faecal nitrogen

The influence of cooked kidney beans (*Phaseolus vulgaris*) on intestinal cell turnover and faecal nitrogen excretion in the rat. 49, 303, 1983

Feather meal

Apparent amino acid absorption from feather meal by chicks. 49, 395, 1983

Fibre digestion

The effect of free and protected oils on the digestion of dietary carbohydrates between the mouth and duodenum of sheep. 49, 433, 1983

Fish-protein concentrate

Artificial rearing of pigs. 13. Effect of replacement of dried skim-milk by a functional fish-protein concentrate on the performance of the pigs and digestion of protein. 49, 43, 1983

Fluoride intake

Dietary intake of fluoride ashed (total fluoride) v. unashed (inorganic fluoride) analysis of individual foods. 49, 295, 1983

Foetal development

Effect of zinc deficiency on the pregnant ewe and developing foetus. 49, 365, 1983

Foetus

The effect of 1α -hydroxycholecalciferol on the placental transfer of calcium and phosphate in sheep. 49, 475, 1983

Folate measurement

Studies on the response of *Lactobacillus casei* to folate vitamin in foods. 49, 181, 1983

Food intake

The origin of urinary aromatic compounds excreted by ruminants. 4. The potential use of urine aromatic acid and phenol outputs as a measure of voluntary food intake. 49, 87, 1983

Influence of feeding level and of protein level in early life on the cellularity of adipose tissue and body fat content of growing pigs. 49, 109, 1983

The effects of energy intake and dietary protein on nitrogen retention, growth performance, body composition and some aspects of energy metabolism of baby pigs. 49, 221, 1983

Food intolerance

Food intolerance: a community survey. 49, 217, 1983

Gastric digestion

Studies on gastric digestion of protein and carbohydrate, gastric secretion and exocrine pancreatic secretion in the growing pig. 49, 401, 1983

Germ-free chicks

The influence of the gut microflora on protein synthesis in liver and jejunal mucosa in chicks. 49, 453, 1983

Gestation

Iron status of suckling rats as influenced by maternal diet during gestation and lactation. 49, 51, 1983

Gingival tissue lipids

Effects of the nature and amount of dietary energy on lipid composition of rat gingival tissue. 49, 187, 1983

Gluconeogenesis

Threonine metabolism in sheep 1. Threonine catabolism and gluconeogenesis in mature Blackface wethers given poor quality hill herbage. 49, 373, 1983

Threonine metabolism in sheep 2. Threonine catabolism and gluconeogenesis in pregnant ewes. 49, 385, 1983

Glucose metabolism

Effects of exogenous glucose on glucose metabolism in the lactating goat in vivo. 49, 159, 1983

The effect of zinc deficiency on glucose metabolism in meal-fed rats. 49, 441, 1983

Growth

Dietary protein and the growth of rats infected with the tapeworm *Hymenolepis diminuta*. 49, 59, 1983

The effects of energy intake and dietary protein on nitrogen retention, growth performance, body composition and some aspects of energy metabolism of baby pigs. 49, 221, 1983

Gut bacteria

Trace-nutrient-binding proteins in milk and the growth of bacteria in the gut of infant rabbits. 49, 231, 1983

Haemoproteins

Effect of pharmacological doses of ascorbic acid on the hepatic microsomal haemoproteins in the guinea-pig. 49, 27, 1983

Heat production

Effect of overfeeding by gastric intubation on body composition of adult female rats and on heat production during feeding and fasting. 49, 193, 1983

Hind-limb muscle

The metabolism of circulating non-esterified fatty acids by the whole animal, hind-limb muscle and uterus of pregnant ewes. 49, 129, 1983

Homocitrulline

Absorption of homocitrulline from the gastrointestinal tract. 49, 35, 1983

25-Hydroxyvitamin D₃

Reduced plasma half-life of radio-labelled 25-hydroxyvitamin D₃ in subjects receiving a high-fibre diet. 49, 213, 1983

Hypoalbuminaemia

Excess energy intake promotes the development of hypoalbuminaemia in rats fed on low-protein diets. 49, 9, 1983

Intestinal mucosa

The influence of cooked kidney beans (*Phaseolus vulgaris*) on intestinal cell turnover and faecal nitrogen excretion in the rat. 49, 303, 1983

Iodine metabolism

Iodine metabolism and thyroid hormone relationships in growing sheep fed on kale (*Brassica oleracea*) and ryegrass (*Lolium perenne*) — clover (*Trifolium repens*) fresh-forage diets. 49, 241, 1983

Iron

Iron status of suckling rats as influenced by maternal diet during gestation and lactation. 49, 51, 1983

The influence of dietary iron and molybdenum on copper metabolism in calves. 49, 77, 1983

Iron absorption

The effects of organic acids, phytates and polyphenols on the absorption of iron from vegetables. 49, 331, 1983

Kidney beans (*Phaseolus vulgaris*)

The influence of cooked kidney beans (*Phaseolus vulgaris*) on intestinal cell turnover and faecal nitrogen excretion in the rat. 49, 303, 1983

Lactation

Iron status of suckling rats as influenced by maternal diet during gestation and lactation. 49, 51, 1983

Effects of exogenous glucose on glucose metabolism in the lactating goat in vivo. 49, 159, 1983

Blood flow and nutrient exchange across the liver and gut of the dairy cow. Effects of lactation and fasting. 49, 481, 1983

Energy and nitrogen metabolism of lactating rabbits. 49, 507, 1983

Lactobacillus casei

Studies on the response of *Lactobacillus casei* to folate vitamin in foods. 49, 181, 1983

Leucine

The effects of a dietary excess of leucine on the synthesis of nicotinamide nucleotides in the rat. 49, 321, 1983

Lipid composition

Effects of the nature and amount of dietary energy on lipid composition of rat gingival tissue. 49, 187, 1983

Lysine and storage

Storage of milk powders under adverse conditions 1. Losses of lysine and of other essential amino acids as determined by chemical and microbiological methods. 49, 343, 1983

Magnesium absorption

Saturation kinetics of magnesium efflux across the rumen wall in heifers. 49, 153, 1983

Maternal vitamin supplementation

The effect of periconceptual supplementation on blood vitamin concentrations in women at recurrence risk for neural tube defect. 49, 203, 1983

Meal-feeding

The effect of zinc deficiency on glucose metabolism in meal-fed rats. 49, 441, 1983

Meat and 3-methylhistidine

Urinary 3-methylhistidine excretion in man: the role of protein-bound and soluble 3-methylhistidine. 49, 287, 1983

Methionine

Methionine requirement of kittens given amino acid diets containing adequate cystine. 49, 411, 1983

3-Methylhistidine

Urinary 3-methylhistidine excretion in man: the role of protein-bound and soluble 3-methylhistidine. 49, 287, 1983

Microbial protein synthesis

Digestion and synthesis in the rumen of sheep given diets supplemented with free and protected oils. 49, 419, 1983

Milk powders

Storage of milk powders under adverse conditions 1. Losses of lysine and of other essential amino acids as determined by chemical and microbiological methods. 49, 343, 1983

Storage of milk powders under adverse conditions 2. Influence on the content of water-soluble vitamins. 49, 355, 1983

Milk substitutes

Artificial rearing of pigs. 13. Effect of replacement of dried skim-milk by a functional fish-protein concentrate on the performance of the pigs and digestion of protein. 49, 43, 1983

Molybdenum

The influence of dietary iron and molybdenum on copper metabolism in calves. 49, 77, 1983

Neural tube defect

The effect of periconceptual supplementation on blood vitamin concentrations in women at recurrence risk for neural tube defect. 49, 203, 1983

Nicotinamide nucleotides

The effects of a dietary excess of leucine on the synthesis of nicotinamide nucleotides in the rat. 49, 321, 1983

Nitrogen balance

Energy and nitrogen metabolism of lactating rabbits. 49, 507, 1983

Nitrogen digestion

Estimation of flows of organic matter and nitrogen components in postruminal digesta and effects of level of dietary intake and physical form of protein supplement on such estimates. 49, 119, 1983

Nitrogen metabolism

The influence of protein:energy value of the ration and level of feed intake on the energy and nitrogen metabolism of the growing pig. 2. N metabolism at two environmental temperatures. 49, 271, 1983

Nitrogen retention

The effects of energy intake and dietary protein on nitrogen retention, growth performance, body composition and some aspects of energy metabolism of baby pigs. 49, 221, 1983

Non-esterified fatty acids

The metabolism of circulating non-esterified fatty acids by the whole animal, hind-limb muscle and uterus of pregnant ewes. 49, 129, 1983

Obesity

Elevated erythrocyte phosphoribosylpyrophosphate and ATP concentrations in Japanese sumo wrestlers. 49, 3, 1983

Dietary-induced obesity: effect of dietary fats on adipose tissue cellularity in mice. 49, 17, 1983

Thermogenic response to temperature, exercise and food stimuli in lean and obese women, studied by 24 h direct calorimetry. 49, 171, 1983

Effect of overfeeding by gastric intubation on body composition of adult female rats and on heat production during feeding and fasting. 49, 193, 1983

Oils

Digestion and synthesis in the rumen of sheep given diets supplemented with free and protected oils.

49, 419, 1983

The effect of free and protected oils on the digestion of dietary carbohydrates between the mouth and duodenum of sheep.

49, 433, 1983

Organic acids

The effects of organic acids, phytates and polyphenols on the absorption of iron from vegetables.

49, 331, 1983

Overfeeding

Effect of overfeeding by gastric intubation on body composition of adult female rats and on heat production during feeding and fasting.

49, 193, 1983

Pancreatic secretion

Studies on gastric digestion of protein and carbohydrate, gastric secretion and exocrine pancreatic secretion in the growing pig.

49, 401, 1983

Parasite

Dietary protein and the growth of rats infected with the tapeworm *Hymenolepis diminuta*.

49, 59, 1983

Particulate markers

Kinetics of [¹⁰³Ru]phenanthroline and dysprosium particulate markers in the rumen of steers.

49, 463, 1983

Pellagra

The effects of a dietary excess of leucine on the synthesis of nicotinamide nucleotides in the rat.

49, 321, 1983

Phenol metabolism

The origin of urinary aromatic compounds excreted by ruminants. 4. The potential use of urine aromatic acid and phenol outputs as a measure of voluntary food intake.

49, 87, 1983

Phosphate

The effect of 1 α -hydroxycholecalciferol on the placental transfer of calcium and phosphate in sheep.

49, 475, 1983

Phosphoribosylpyrophosphate

Elevated erythrocyte phosphoribosylpyrophosphate and ATP concentrations in Japanese sumo wrestlers.

49, 3, 1983

Phytase (EC 3.1.3.8)

Adaptive increase in phytate digestibility by phosphorus-deprived rats and the relationship of intestinal phytase (EC 3.1.3.8) and alkaline phosphatase (EC 3.1.3.1) to phytate utilization.

49, 145, 1983

Phytate

The effects of organic acids, phytates and polyphenols on the absorption of iron from vegetables.

49, 331, 1983

Phytate-phosphorus

Adaptive increase in phytate digestibility by phosphorus-deprived rats and the relationship of intestinal phytase (EC 3.1.3.8) and alkaline phosphatase (EC 3.1.3.1) to phytate utilization.

49, 145, 1983

Placenta

The effect of 1 α -hydroxycholecalciferol on the placental transfer of calcium and phosphate in sheep.

49, 475, 1983

Polyphenols

The effects of organic acids, phytates and polyphenols on the absorption of iron from vegetables.

49, 331, 1983

Pregnancy

The metabolism of circulating non-esterified fatty acids by the whole animal, hind-limb muscle and uterus of pregnant ewes.

49, 129, 1983

Effect of zinc deficiency on the pregnant ewe and developing foetus.

49, 365, 1983

Protected oils

Digestion and synthesis in the rumen of sheep given diets supplemented with free and protected oils.

49, 419, 1983

The effect of free and protected oils on the digestion of dietary carbohydrates between the mouth and duodenum of sheep.

49, 433, 1983

Protein deficiency

Excess energy intake promotes the development of hypoalbuminaemia in rats fed on low-protein diets.

49, 9, 1983

Protein quality

Apparent amino acid absorption from feather meal by chicks.

49, 395, 1983

Protein synthesis

The influence of the gut microflora on protein synthesis in liver and jejunal mucosa in chicks.

49, 453, 1983

Protein synthesis in skin and bone of the young rat.

49, 517, 1983

Rumen

Kinetics of [¹⁰³Ru]phenanthroline and dysprosium particulate markers in the rumen of steers.

49, 463, 1983

Rumen bacteria

Digestion of rumen bacteria in vitro.

49, 101, 1983

Rumen metabolism

Digestion and synthesis in the rumen of sheep given diets supplemented with free and protected oils.

49, 419, 1983

Rumen Mg absorption

Saturation kinetics of magnesium efflux across the rumen wall in heifers.

49, 153, 1983

Ruminant digestion

Estimation of flows of organic matter and nitrogen components in post-ruminal digesta and effects of level of dietary intake and physical form of protein supplement on such estimates.

49, 119, 1983

Skin

Protein synthesis in skin and bone of the young rat.

49, 517, 1983

Splanchnic metabolism

Blood flow and nutrient exchange across the liver and gut of the dairy cow. Effects of lactation and fasting.

49, 481, 1983

Steroids

Effects of whey protein, casein, soya-bean and sunflower proteins on the serum, tissue and faecal steroids in rats.

49, 313, 1983

Storage of milk powders

Storage of milk powders under adverse conditions 1. Losses of lysine and of other essential amino acids as determined by chemical and microbiological methods.

49, 343, 1983

- Storage of milk powders under adverse conditions 2. Influence on the content of water-soluble vitamins. 49, 355, 1983
- Sumo wrestlers**
Elevated erythrocyte phosphoribosylpyrophosphate and ATP concentrations in Japanese sumo wrestlers. 49, 3, 1983
- Tapeworm**
Dietary protein and the growth of rats infected with the tapeworm *Hymenolepis diminuta*. 49, 59, 1983
- Thermogenesis**
Thermogenic response to temperature, exercise and food stimuli in lean and obese women, studied by 24 h direct calorimetry. 49, 171, 1983
- Threonine metabolism**
Threonine metabolism in sheep 1. Threonine catabolism and gluconeogenesis in mature Blackface wethers given poor quality hill herbage. 49, 373, 1983
Threonine metabolism in sheep 2. Threonine catabolism and gluconeogenesis in pregnant ewes. 49, 385, 1983
- Thyroid hormones**
Iodine metabolism and thyroid hormone relationships in growing sheep fed on kale (*Brassica oleracea*) and ryegrass (*Lolium perenne*) – clover (*Trifolium repens*) fresh-forage diets. 49, 241, 1983
- Trace-nutrient-binding proteins**
Trace-nutrient-binding proteins in milk and the growth of bacteria in the gut of infant rabbits. 49, 231, 1983
- Tryptophan**
The effects of a dietary excess of leucine on the synthesis of nicotinamide nucleotides in the rat. 49, 321, 1983
- Undernutrition**
Growth and development of rats artificially reared on a high or a low plane of nutrition. 49, 497, 1983
- Urinary 3-methylhistidine**
Urinary 3-methylhistidine excretion in man: the role of protein-bound and soluble 3-methylhistidine. 49, 287, 1983
- Urinary aromatic acids**
The origin of urinary aromatic compounds excreted by ruminants. 4. The potential use of urine aromatic acid and phenol outputs as a measure of voluntary food intake. 49, 87, 1983
- Vitamin B₁₂**
Trace-nutrient-binding proteins in milk and the growth of bacteria in the gut of infant rabbits. 49, 231, 1983
- Vitamin D deficiency**
Reduced plasma half-life of radio-labelled 25-hydroxyvitamin D₃ in subjects receiving a high-fibre diet. 49, 213, 1983
- Water-soluble vitamins**
Storage of milk powders under adverse conditions 2. Influence on the content of water-soluble vitamins. 49, 355, 1983
- Zinc deficiency**
Effect of zinc deficiency on the pregnant ewe and developing foetus. 49, 365, 1983
The effect of zinc deficiency on glucose metabolism in meal-fed rats. 49, 441, 1983
