## Editorial Policy

*International Legal Materials* is a collection of current documents designed to provide up-to-date information to scholars, practicing lawyers, legal advisers to government agencies and corporations, national and international officials, and others concerned with the legal aspects of public and private international relations. These documents primarily consist of current materials not readily available in most libraries.

The term international law is interpreted broadly for the purposes of this publication. Some of the materials may be of a kind normally classified under other rubrics, such as foreign law, comparative law, conflict of laws, constitutional law, international organization, and the like. The main criterion in selecting materials is that the document be of substantial interest to a large number of legal scholars, practicing lawyers and officials dealing with public and private international matters. It is recognized that these interests may vary considerably among users of the publication in the United States and elsewhere.

*International Legal Materials* reproduces by photo-offset the official documents whenever possible. In some instances, the documents are reproduced from unofficial typescript when texts are unavailable or when a translation is given. A short "I.L.M. Background/Content Summary" precedes each document to assist in reviewing the materials. On occasion, "Introductory Notes" also accompany documents. The authors of such notes are identified.

Readers are invited to draw the Editor's attention to documents meriting reproduction in *International Legal Materials*.

## Editorial Policy

*International Legal Materials* is a collection of current documents designed to provide up-to-date information to scholars, practicing lawyers, legal advisers to government agencies and corporations, national and international officials, and others concerned with the legal aspects of public and private international relations. These documents primarily consist of current materials not readily available in most libraries.

The term international law is interpreted broadly for the purposes of this publication. Some of the materials may be of a kind normally classified under other rubrics, such as foreign law, comparative law, conflict of laws, constitutional law, international organization, and the like. The main criterion in selecting materials is that the document be of substantial interest to a large number of legal scholars, practicing lawyers and officials dealing with public and private international matters. It is recognized that these interests may vary considerably among users of the publication in the United States and elsewhere.

*International Legal Materials* reproduces by photo-offset the official documents whenever possible. In some instances, the documents are reproduced from unofficial typescript when texts are unavailable or when a translation is given. A short "I.L.M. Background/Content Summary" precedes each document to assist in reviewing the materials. On occasion, "Introductory Notes" also accompany documents. The authors of such notes are identified.

Readers are invited to draw the Editor's attention to documents meriting reproduction in *International Legal Materials*.

Second class postage paid at Washington, D.C. POSTMASTER: Send address changes and returns to International Legal Materials, 2223 Massachusetts Avenue, N.W., Washington, D.C. 20008-2864. Return postage guaranteed.
